## GENERAL INFORMATION

Bombay Univ. was establd. in 1857, but until  
the passing of the Indian Universities Act of 1904,  
the function of this univ., in common with that of  
other univs. in India, was limited to examining  
candidates and arranging for the courses of study

which led up to its degrees. Under the act of  
1904, it acquired the right of organizing teaching,  
arranging for univ. extension lectures, and of pub-  
lishing such works as were necessary for the direct  
educnl. work it was to carry on. Under the univ.

act of 1928 the univ. went on to arrange for postgrad instruction and res. through its own depts. as well as through the teachers in affiliated colls and recog postgrad instrns., recog as postgrad. teachers of the univ. As far as undergrad. educn. was concerned, the univ. was an affiliating univ. Before the estab. of the Univ of Sind and of regional univs in Bombay state, the jurisdiction of Bombay Univ. extended over the whole of the former province of Bombay and Sind. The univ.'s jurisdiction is now confined to the limits of greater Bombay.

With the estab. of other univs as a measure in the decentralization and reorganization of univ. educn. in the then Bombay state, the univ. was reconstituted by the Bombay Univ. Act, 1953. Its special features were: (1) reconstitution of the univ. as a teaching and federal univ.—all affiliated colls became constituent colls.; (2) reduction in number of elections; (3) strengthening of academic element in senate, academic council and bds of studies; (4) creation of bds of univ. teaching, predominantly academic, empowered to control post-inter. and postgrad. instrcn. in constituent colls and recog instrns. and to make recommendations to syndicate for conducting such instrcn. in univ. colls and instrns.; (5) extension of powers of the univ. to include such activities as extra-mural teaching, univ. extension courses, trg. of students for competitive exams. for service under union and state govts., estab. of an employment bureau, students' unions and bd of students' welfare, and provision for recognition of instrns. of res. and specialized studies by syndicate.

**CONSTITUTION.** The senate is the governing body of the univ. The executive govt. is vested in the syndicate. The other authorities of the univ. are the academic council, the facs, the bds. of univ. teaching and the bds. of studies in the various facs.

**INCOME** (1960-61) Rs 5,742,545 (gen fund only).

**FACULTIES AND DEANS.** *Arts* Prof V. G. Hattalakar, *convn.*; Prof G. L. Mehta, *dean.*, Dr. C. T. Chodgar; *lms* M. P. Amin, *med* Dr. K. C. Badhwal, *sci.* A. N. Nanavati; *technol.* Prof. P. W. Dharap.

**LIBRARIES.** Main univ. lib.—more than 150,000 vols., about 1500 MSS in Arabic, Persian and Urdu, and about 6000 in Sansk. *Dept. libraries*—univ. depts. of econ., pol. & social.—approx. 53,821 vols., 526 theses in MSS., about 204 journals; univ. dept. of chem. technol.—more than 10,000 vols in Engl and German, about 200 vols., 38 journals; univ. dept of stats.—approx. 5158 vols., 45 journals; univ. dept of appl. psychol.—2843 vols., 73 journals; univ. dept of law—2044 vols., 70 journals; section in bus. management—2624 vols., 62 journals.

**HOSPITALS AND LABS.** RECOGNIZED BY THE UNIV. Hosps. and labs. attached in Grant Medical Coll.; Cama and Allbless hosps.;

hosps. and labs. associated with Seth Gordhandas Sunderdas Med. Coll.; Sir Cusumabhoj Ebrahim Memorial Dental Hosp., Byculla, Bom.; Haffkine Inst., Parel, Bom.; Bai Yashwanthi Nani Hosp. attached to Topiwala National Med. Coll.

**ADMISSION.** The min. qualif. for admission to courses in the facs. of arts and sci. is the passing of the entrance exam., the secondary sch. cert. exam. of the SSC Exam Bd., Maharashtra state (subject to certain conditions), the matric exam. (subject to certain conditions) of any statutory univ. in the Indian union, or an exam. recog. as equivalent to the entrance exam. (A list of recog. exams., with conditions subject to which they are recog., is pubd. in the *Handbook, Pt. II*).

The following overseas qualifs are recog. for the purpose of entrance: Oxford and Cambridge sch. cert.; matric. cert. of South African Jt. Matric Bd. (if exam. passed with Engl., an additional lang., hist. or geog., maths. and 1 other subject, or if passed in any 3 or more subjs. but with credits in at least 4 of them at one and the same exam.); G.C.E. (ordinary level) of Cambridge and London univs. (with similar conditions); London Univ. matric. cert. (if exam. passed in Engl., an addnl lang., hist. or geog., maths. and 1 other subject, or if passed in 1st or and div.); Rangoon Univ. matric. cert.; G.C.E. (advanced level) of Cambridge and London univs. is considered as equivalent to the F.Y. exam. of this univ., provided the subjs. in which the candidate passes the exam. are approved by the univ. for the purpose; Cambridge and Oxford Overseas Higher Sch. Cert. exams. are equivalent to the univ. arts and sci. exams. in this univ. subject to certain conditions. Overseas qualifs not incl. in the regns. will be considered on their merits.

**ADMISSION TO UNIV. COURSES OF STUDY FOR THE bachelor's degrees in engin. and in med.** is granted only to those who have passed the univ. inter. sci. exam. or other equivalent exam. of a recognized univ. or bd in specified groups of subjects. The min. qualif. for admission to the LLB degree-course is the passing of the inter. arts, inter. sci. or inter. econm. exam. or a degree exam. in arts, sci. or econm. of the univ. or equivalent exams. of another univ. Admission to courses of study for higher degrees is granted, under certain conditions, to grads. of this, or of any other recog. univ.

Also BSc(Agr)—course prescribed by univ. but at present no coll. affiliated to the univ. for this course.

**Note.**—The univ. has not accepted the principle of introducing the 3-yr. degree course recommended by the Secondary Educn. Commission.

**LECTURE HOURS AND PT-TIME INSTRUCTION** The univ. has decided to restrict lecture hours of arts and sci. colls. to 9 a.m. to 5.30 p.m. from 1962. Beginning with 1st-yr. classes in June 1962 the restriction will progressively be extended to students of subsequent yrs. until by June 1965 it will affect all classes. Instead of the non-collegiate courses begun in 1960, the univ. has also decided to introduce arrangements by which, in addn. to regular students, constituent colls. may enrol arts students on a pt-time instruction basis with morning or evening classes (course is 1 yr.) times that for full-time students.

**HIGHER DEGREES.** 1 yr.—BEd, MEd, DHy, 2 yrs.—LLB (if taken after BA, BSc or BCom), MA, MSc, MSc(Agr), MSc(Med), MSc(Tech), MTech, ME (auto, civil, electr., mech.), MDS, MVSu, MPhilim, 3 yrs.—LLM, MD, MS. Also PhD, DLit, DSc.

## GENERAL INFORMATION

In July 1854 the court of directors of the E. India Co. sent a dispatch to the governor-gen. of India in council directing the organization of the univs. of Calcutta, Madras and Bombay. In pursuance of that dispatch the Univ of Calcutta was incorporated on Jan 24, 1857. The jurisdiction of the univ. extended at first throughout practically the whole of N India, but the territorial jurisdiction has now been limited to the state of West Bengal, excl. the areas of Visva-Bharati, Jadavpur, Burdwan and Kalyani Univs. The Indian Universities Act of 1904 empowered the univ. to make necessary arrangements for the matrons of students, and though most of the teaching continued to be imparted in the affiliated

colls., teaching in some of the higher branches began to be organized under univ. management. In 1917 a new scheme for postgrad. teaching and res. centralized postgrad. teaching in Calcutta within, and under the control of, the univ. The act of 1951 provided for higher postgrad. teaching in affiliated colls. along with the univ. colls.

CONSTITUTION The senate of 158 members (80 elected, 15 nominated, 54 ex officio) is the supreme governing body. The syndicate of 23 members (13 elected, 10 ex officio) is the admin. body. The academic council of 76 members (21 elected, 55 ex officio) is mainly concerned with making regns. for different courses. There are

12 fees and several bds. of studies. The normal work of the univ. is carried on under the direction of the vice-chancellor and syndicate. Control of financial affairs is in the hands of the finance officer.

**POSTGRADUATE TEACHING AND RESEARCH.** Postgrad teaching in arts, comm., law, med., sci. and technol. is conducted by the relevant univ. coll. councils. The univ. provides for postgrad teaching in: anthropol., Asiatic archaeol., Bengali, biochem., bot., chem. (pure & appl.), comm., compar. philol., econ., educn., Engl., French, geog., geol., German, Greek, Hebrew, hist. (incl. anc. Indian hist. & culture, Islamic hist. & culture), Latin, law, maths. ## GENERAL INFORMATION

The Univ was established by the Delhi Univ Act (Act VIII of 1922). The original idea of the Govt and legislature was the establish and incorporation of a unitary teaching and residential Univ on the model recommended by the Calcutta Univ commission. However, this could not be achieved at once, and the Univ. continued to recognize several colls in which instruction was provided under prescribed conditions and provision was made for residence of students.

From 1933, when the Univ. was given a permanent home in the old vice-regal lodge, the idea of a federal Univ gradually took shape and the last decade has witnessed rapid growth and development. Owing to the large influx of population after 1947, the number of students increased considerably and new colls. were started. The Univ. also accepted the extension of the degree course from 2 yrs. to 3 yrs. as part of the reconstruction scheme for higher sec. educn. in Delhi. The scheme included the abolition of the inter exam., the extension of the high sch. course by 1 yr. (i.e. extension from 10 to 11 yrs.), and the institution of a 3-yr. degree course in the Univ. (see below).

The Delhi Univ. Amendment Act, 1952, has made important changes, based on recommendations of the Univ. educn. commission, 1950. The Univ. is now a teaching and affiliating Univ. Affiliated colls (there are none at present) will be permitted to impart instruction, only up to the bachelor's degree. The jurisdiction of the Univ. extends over the whole of Delhi state, instead of being limited to a radius of 10 mls. from convention hall. The President of India, who was the chancellor, has now become the visitor of the Univ. and the chancellor is elected by the court. The vice-chancellor is a whole-time paid officer. Provision has also been made for the appt of a pro-vice-chancellor to assist the vice-chancellor.

**CONSTITUTION.** The chancellor is the head, the vice-chancellor the principal executive and academic officer, of the Univ. The following are the principal Univ. authorities: the court, consisting of about 100 members, the executive council, which consists of about 17 members and controls and administers Univ. property and funds; the academic council, which is responsible for the maintenance of standards of instruction,

educn. and examn. within the Univ. Each fac., subject to the control of the academic council, has charge of the teaching, courses of study and res. work in such subjects as may be assigned to it by the ordinances.

**FACULTIES AND DEANS.** *Arts*, Prof. N N Choudhury (Sanskrit); *educn.*, B. A. Puri; *law*, Prof. L R Sivasubramanian; *med. sci.*, Dr. R. Viswanathan; *music & fine arts*, R L Roy; *sci.*, Prof P. ## GENERAL INFORMATION

Following upon the report of a cttee. under the chairmanship of the Hon. G. V. Mavalankar, an act was passed in 1949 by the Bombay legislature for the establn. and incorporation of the Gujarat Univ. as a teaching and affiliating univ.

Following the reorgn. of states, the univ. is now situated in Gujarat state and its jurisdiction extends over the following districts: Ahmedabad; Kaira (excl. the limits of Vallabh Vidyanagar in the Anand taluk, and the area within a radius of 5 mls. from the office of Sardar Vallabhbhai Vidyapeceth, situated therein); Panch Mahals; Broach; Surat; Sabarkantha; Banaskantha (excl. Abu Rd taluk which now forms pt of state of Rajasthan); Baroda (excl. the area comprising the city of Baroda and territoria within a radius of 10 mls. from the office of Maharaja Sayajirao Univ. of Baroda); Mehsana; Amreli; Jamnagar; Rajkot; Bhavnagar; Junagadh, Kutch.

Postgrad. teaching and res. is carried out in the 4 univ. depts., 5 recognized instns., and 50 postgrad. centres for teaching establn. in affiliated colls. in the univ. area.

CONSTITUTION. There are 3 principal academic

and exec. bodies, viz. senate, syndicate and academic council. The senate is largely composed of elected members in different constituencies representing different academic groups such as registered grads., teachers, sec. teachers. The principals of affiliated colls. and hds. of recog. instns. and a few persons holding public offices are *ex-officio* members. There are also 20 members nominated by the chancellor. The syndicate, the principal exec. body, also has elective membership. The members of the senate and appropriate constituencies in this behalf elect the syndicate for a term of 3 yrs. The academic council is largely concerned with all academic matters such as courses of study, standards of passing and classes, text-books, etc. Every chairman of the bd. of study is an *ex-officio* member of the academic council. In addition, it has 3 reps. each of the principals and hds. of recog. instns. The vice-chancellor, registrar, deans of ins. and hds. of univ. depts. are the other *ex-officio* members of the academic council.

INCOME (1961-62). Total. Rs. 3,636,000 (govt. grants, Rs. 634,750 (recurring), Rs. 257,244

(non-recurring), endowments, Rs 62,864, fees, Rs 2,389,112, other sources, Rs. 291,940)

## GENERAL INFORMATION

The Indian Inst. of Technology, Kanpur, is one of 4 higher technological instns. set up by the

govt. of India to implement the recommendations of the Sarkar Cttee. An autonomous body, it

began to function in 1960 in borrowed bldgs made available by the govt of Uttar Pradesh. The first group of students was admitted in Aug of that yr. The inst has now been declared an instn of national importance by an act of parliament known as the Institutes of Technology Act, 1961.

Although the overall policy for the four insts is decided by a council, the management of the inst. is vested in the bd of governors, of which the chief minister of Uttar Pradesh is the permanent chairman. The bd has 10 members representing various interests incl. educn and industry. The dir is a member ex officio of the bd. Two nominees of the senate from the profs of the inst are also members of the bd of governors in rotation.

The inst. will be located in a campus, covering an area of 423 hectares, at Kalyanpur which is 10 kilometres from the centre of the city of Kanpur. The inst. is expected to be fully residential and construction of institutional bldgs, hostels for students and quarters for staff is in progress. When completed, it is expected that there will be provision for 3000 students (1600 undergrad. and about 1400 postgrad.), the teaching staff numbering about 350 and consisting of profs, assoc. profs, asst. profs and lectrs. At present the depts. are as listed above under 'Teaching Staff'. It is expected that in the near future a dept. of aeronautical engin. will be added.

The instn. has been promised substantial aid by the U.S. govt. A notable development is the formation of a consortium of 9 leading univs. and technological instns. of the U.S.A., namely California Inst. of Technology, Carnegie Inst. of

Technology, Case Inst. of Technology, Massachusetts Inst. of Technology, Ohio State Univ., Princeton Univ., Purdue Univ., Univ. of California and Univ. of Michigan.

Early in 1962 there was signed between the U.S. govt. and Educational Services Incorporated a contract for co-ordinating and channeling this assistance to the inst. The consortium is organized around Educational Services Incorporated, a non-profit instn. engaged in a variety of specialized activities in educn. The pres. of each instn. has apptd. a representative. The programme of assistance consists of 3 major aspects, (1) consortium faculty working at Kanpur, (2) Kanpur faculty receiving on-the-job experience in the consortium instns., and (3) planning and procuring equipment, materials and books for Kanpur where these are not available within India. Each member instn. will be participating in all 3 aspects of the programme. Visiting profs. in aspects with the faculty of the inst. will work on the development of curricula and of individual areas of instructn., the development of teaching methods and materials appropriate to the environment, the planning of teaching and res. labs., the purchase and installation of laboratory equipment, the planning and development of library facilities, and the establishment of res. programmes with particular emphasis on finding significant problems related to Indian conditions and needs.

The inst. will award degrees of bachelor, master and doctor in engin., sci. and technol. (exact nomenclature is not yet settled).

The inst. has now admitted its 3rd group of new students and it is expected that it will move to its own campus in 1963.

Grants Commission; 2 members of Lok Sabha, 1 member of Rajya Sabha. The registrar of the inst is the sec. & office, of the bd. A finance cttee and bldg. & works cttee advise the bd. of governors on financial and constructional matters respectively.

**INCOME.** The inst is financed by the govt of India.

The Campus covers 1400 acres

**LIBRARY** 54,718 vols and about 9000 vols. of journals

ADMISSION to undergrad courses is made by selection through a competitive entrance exam (held at different centres in the country), a viva voce exam, and med test. Admission to postgrad. courses is made on results of interview and practical test.

To be eligible for admission to undergrad courses, students must be between 16 and 18 and have higher sec with chem., maths and phys., or equivalent, to be eligible for admission to postgrad. courses, a 1st class master's degree in an appropriate sci subj or a bachelor's degree in an appropriate engin or technol subj. is needed.

The number of students that can be admitted is restricted to a total of 350 undergrads, and to 8 for each postgrad. course.

**FIRST DEGREES** 3 yrs.—BSc honrs., 5 yrs.—BTech, BArch.

BSc may be taken with honrs in chem., maths and phys.

BTech may be taken in appl geol., engin (agric., chem., civil, elect., electronics & electr communication, mech., metall., and mining), exploration geophys., naval archit.

Under the 'tutor system', 10-12 freshmen are placed under the care of a teacher.

**HIGHER DEGREES.** Postgrad courses lead to MTech in following subjs: soil & water conservation engin.; farm machinery & power; appl. bot.; tech. gas reaction & high pressure technol.; high polymer & rubber technol.;

synthetic drugs & fine chemicals, regional planning (town & country planning), combustion engin & fuel econ.; chem plant des. & fabrication, petro-chem engin., struct engin.; dam construct., water power engin.; soil mechanics & foundation engin., highway engin., municipal engin., harbour engin., electr. machine des., control system engin.; indust. electronics; radio-broadcast engin., ultra-high frequency & microwave engin., appl geol.; exploration geophys., geochern., non-linear mechanics, machine des., mech. handling; mechanisms & vibrations, prodn engin., indust. engin., refrigeration & air-conditioning plant des., ferrous metall.; indust. phys. MTech course lasts 12 mos (geol and geophys., 2 yrs).

Facilities for res. in various branches of sci. & technol. leading to PhD (3 yrs) and DSc. (after not less than 5 yrs. res.)

**DIPLOMAS:** 1 yr.—regional planning (postgrad.).

**OTHER COURSES.** Short-term mod foundry practice (3 mos.), residential study course for sci. indust. executives (2 wks.). The inst. is one of the 5 instns where the tech. teachers' trg. programme of the Ministry of Scientific Res. & Cultural Affairs, govt. of India, is conducted.

**FEEs.** Postgrad and undergrad students. Tuition Rs 200 p a., seat rent & establishment charges - Rs 100 p a. (undergrad halls), Rs. 180 p a. (postgrad halls), admission, Rs. 10., caution money, Rs 85; med exam, gymkhana, etc., Rs 27. Res. scholars and postdoctoral fellows. Caution money, Rs 100.

**ACADEMIC YEAR.** Undergrad 3 terms (4 terms for final yr) beginning in July, postgrad.: 4 terms beginning in Sept.

**STUDENT RESIDENCE.** The inst. is wholly residential with 8 halls for men and one for women.

**HEALTH SERVICE.** The inst. hosp., headed by a med. officer, gives free med. service to students, and to staff and their families.

**PUBLICATIONS.** *Journal of Science and Engineering Res.* (twice a yr.); *Bulletin of General Information*; *Annual Report*; *Information Brochure for Postgraduate Students*; *Ordnances, Regulations and Rules.*

## GENERAL INFORMATION

Although the Univ. of Jabalpur is among the younger of the univs of India, the city of Jabalpur is one of the oldest centres of univ. educn in India. The Radhakrishnan commission recognised the 'traditions of higher education' in Jabalpur and suggested that a unitary univ. might be developed there. This proposal was further examined by the cttee on the financing of educn of Madhya Pradesh, apptd. by the state govt, which recommended (in 1952) 'the immediate establishment of a univ of the federal type at Jabalpur'. The second 5-yr. plan for the former state of Madhya Pradesh included a scheme for the estab. of a univ at Jabalpur and an act setting up the univ. came into force in 1957.

Almost all the colls. affiliated to the univ. are in the city of Jabalpur, the univ.'s territorial jurisdiction being restricted to the revenue district of Jabalpur. It is intended to develop the univ. along federal lines and to encourage the max. intercoll. co-operation, especially in relation to postgrad. courses and the devel. of a corporate life for the univ. as a whole. The academic council of the univ. frames the annual teaching programmes of the colls. as a whole and the recognition of profs. and readers and the appt. of teachers of private constituent colls. is normally made on the recommendation of the selection cttee of the univ. Colls. which provide postgrad. courses in at least 2 subjs. and fulfil certain other

conditions are to be treated as 'constituent colls' (there are none at present) and will be more closely linked to the univ. than the affiliated colls.

**CONSTITUTION** There are 10 facs (see below) and 38 depts of study subordinate to them. In the constitution of the univ. bodies, the element of election has been kept to a minimum, while the functions of the court, academic council and exec. council are similar to those of the corresp. bodies in other Indian univs., membership of them will in most cases be ex officio according to seniority by rotation or by nomination. The registered grads, however, elect 20 members to the court.

**INCOME** (1961-62) Maintenance grant from state govt., Rs. 100,000; devel. grants from state govt. and univ. grants commission, Rs. 500,000 and Rs. 280,800 respectively; exam. and other fees, Rs. 460,820.

Sarvate (telecommun. engin.), *home sci.*, Principal (Mrs.) Kusum Mehta, *law*, Narendra Singh, *med.*, Dr. J. C. Sachdev; *sci.*, Dr. S. Ghosh (chem.), *vet. sci.*, Principal M. Y. Mangulkar.

**UNIVERSITY BUILDING** The univ. offices, previously housed in a rented bldg., have now been moved to new convention hall & admin. bldg. on 61-acre site nr. Mahakoshal Arts Mahavidyalaya. Construction of a non-resident student centre has commenced. Arts bldg. and univ. library started Oct. 1962.

**LIBRARY** 7340 vols.

**FOUR DEGREES** 3 via—BA, BSc, BHSc,

BCom, 4 via—BE home, BSc(Agr), BVSc, 41 yrs—MB BS.

**HIGHER DEGREES** 1 yr.—BED, BEd(Basic), MEd, 2 yrs—LLB, MA, MA(ApplPsychol), MSc, ME, MSc(Agr), MCom, MVSc; 2 yrs. from master's degree—PhD.

**HONORARY DEGREES** DLitt, LLD.

**DIPLOMAS** 2 yrs—nursery educn., teaching.

**ORIENTAL TITLES** 2 via—Pragna, Vaidard (1 yr. for BAs with Sansk.), 3 yrs—Shastri (1 yr. for MAs with Sansk.).

**STUDY LEAVE** Rules for teachers in univ. depts. are at present under consideration.

**FEES** Rs. 125 per session.

**ACADEMIC YEAR** (1962-63) July to April 3 terms. Term dates: July 2 to Oct. 13, Nov. 15 to Dec. 21, Jan. 7 to April 30.

**LANGUAGES OF INSTRUCTION** Hindi for BA, BA, BSc(HomeSci), BHSc, BCom, BSc, DPT, dipl. in nursery educn. Other courses in English.

**POSTGRADUATE AWARDS** Res. fellowships of Rs. 200 each, tenable for 2 yrs., awarded annually by univ. for study leading to PhD.

**NATIONAL CADET CORPS** Sc. div. of NCC authorized strength is 1293.

**EMPLOYMENT ADVISER** To help univ. grads. to secure suitable employment, a part-time employment adviser has been appointed.

**STUDENTS' UNION SOCIETY** A univ. students' union has been formed, which runs a reading-room and library. The pres. and sec. are elected by the students themselves.

**PUBLICATIONS** *Calendar*, prospectuses for exams., journals of academic socs.

## GENERAL INFORMATION

The National Council of Education was started in 1906 to impart educn. 'on national lines and exclusively under national control, not in opposition to, but standing apart from, the existing system of primary, secondary and collegiate education, attaching special importance to a knowledge of the country, its literature, history and philosophy, and designed to incorporate with the best oriental ideals of life and thought the best assimilable ideals of the west, and inspire students with the genuine love for and desire to serve the country'. The council at first maintained both arts and sci. and technical depts., but finding that public demand for technical educn. was more insistent, the council devoted for the last 30 yrs. almost the whole of its resources to technical educn. through its coll. of engin. and technol.

In view of the fact that the coll. of engin. and technol. had been virtually functioning as a univ., and in order that the degrees of the National Council of Educn. should receive statutory recognition, the govt. of West Bengal with the concurrence of the govt. of India enacted the necessary legislation for the establishment of a univ. at Jadavpur, and so Jadavpur Univ. came into being on Dec. 24, 1955, by West Bengal Act XXXIII of 1955. The territorial jurisdiction of the univ. extends over a radius of 2 miles from the univ. office.

The Jadavpur Univ. Act provides that 'any degree conferred by the National Council at any time between the 1st day of Jan. 1944 and the commencement of this act shall, for all purposes, be deemed to be a degree corresponding to such degree of the univ. as may be declared by the state govt.'

**CONSTITUTION.** On the expiry of the 1st 4-yr. period after its incorporation all authority in the univ. has come to rest in a body composed of the following members: pres., rector, treasurer, dean of facs, hds. of institutions under univ., pres. of Alumni assocn., chairman of Institution of Engineers, mayor of Calcutta corporation (all *ex officio*), 2 members elected by teachers other than profs., 2 elected by profs., 2 registered grade, 8 persons elected by National Council of Educn., 4 nominated by legal reps. of founder donors and 5 representing the state and union govts. The pres. is the titular hd. of the univ. and the rector is the principal executive officer. Other principal officers are the treasurer (an honorary officer) and the registrar. The following bodies have been constituted to advise the univ. on different matters: academic council, administrative council, finance council and development council.

The univ. has no affiliated colls. but the coll. of engin. and technol., the coll. of arts and the coll. of sci. are constituent colls. and function as teaching depts. of the univ.

**INCOME (1961-62).** Total income: Rs. 5,672,712 (govt. grants, 83.2 per cent; fees, 4.3 per cent, other sources, 12.5 per cent)

**LIBRARY** 105,200 vols

**FACULTIES AND DEANS** Arts, Prof. P. C. Chakravarti (internat. solms. & pol. sci.); engin., Prof. H. C. Guha (electr. engin.); sci., Prof. B. B. Sen (maths.)

**ADMISSION** Students who have passed the highest sec. exam. of any statutory bd. exam. or pre-univ. exam. or any exam. recognized as equivalent, with sci. or technical subjects, are eligible for admission to 1st yr. of 5-yr. integrated course in engin. and those with sci. or humanities, to 1st yr. of BSc or BA course respectively. Those who have passed the inter sci. or equivalent exam. of any Indian univ. with phys., chem. and maths. are eligible for admission to 2nd yr. and those who have passed the licentiate exam. of the State Council of Engin. and Technical Educn. or such other statutory bodies as the dipl. course exam. of the Natnl. Council of Educn., Bengal, are eligible for admission to 3rd yr. of the 5-yr. integrated course. Students who hold dipls. in engin. and are in service are eligible for admission to pt.-time degree courses in civil, electr. and mech. engin. For postgrad. course in food technol. a student who holds the bachelor's degree in chem. engin. (with food technol.) or equivalent degree is eligible for admission.

**FIRST DEGREES.** 3 yrs. after class XI sch. final or pre-univ. course exam.—BA honrs., BSc honrs., 4 yrs. after ISC or equivalent or 5 yrs. after class XI sch. final or pre-univ. course exam.—BME, BEE, BT&E, BCE, BCE. There is no pass BA or pass BSc.

The exams. of all statutory Indian univs. are recognized as equivalent to the corresponding exams. of the univ.

**HIGHER DEGREES.** 1 yr. after corresponding bachelor's degree—MME, MChE, MCE, MEE, MT&E and MTech. 2 yrs. after corresponding bachelor's degree—MA, MSc in all subjs. available in the univ. ## INSTITUTION MANAGED BY THE UNIVERSITY

DIARWAR, *Kannada Research Institute* (1939) Dir.—P. B. Desai, MA Bow, DLitt.

## GENERAL INFORMATION

Karnatak Univ. is one of the regional univs. which came into existence with the splitting up of Bombay Univ. In response to an insistent demand from the Kannadigas for a separate univ. for Karnataka, the govt. of Bombay appointed the Karnataka Univ. Ctee in April 1947, under the chairmanship of Mr Justice N. S. Lukar. The Karnataka Univ. bill, based on this ctee's report, was passed by the Bombay legislature in April 1949. In June 1949 R. A. Jahagirdar was apptd. by the govt. of Bombay as first vice-chancellor of the univ. and on March 1, 1950, Karnataka Univ. was brought into existence as a corporate body. At present its jurisdiction extends over the districts of Dharwar, Belgaum, Bijapur, North Kanara, Raichur, Gulbarga and Badar; also and (S. Kanara) engin. and med. colls., Manipal, and law coll., Udupi

The univ. is both an affiliating and a teaching univ. It aims to develop into a residential univ. with emphasis on postgrad. instruction, affiliation being one of its subord. functions. The univ. also runs two colls. in Dharwar, one in arts and one in sci (see above, under 'Constituent Colls.') These two colls., which were formerly run by govt., were transferred in 1958 to the management of the univ. The Kannada Res. Inst., formerly attached to the colls., has been maintained as a separate inst. since they were transferred to management of the univ. In 1962 the univ. started a coll. in educn. and a coll. in law to

teach courses leading to MEd and LL.M. respectively. The postgrad. course in comm. formerly provided in the J. G. Coll. of Comm., Hubli, has been transferred to the univ.

CONSTITUTION. The senate is the supreme governing body of the univ. The executive powers are vested in the syndicate. The other authorities are the academic council, the facs., the bds. of univ. teaching and the bds. of studies in the various facs.

INCOME (1959-60). Rs. 2,87,051

### GENERAL INFORMATION

The Univ. of Travancore, now reconstituted as  
the Univ. of Kerala, was established under an act  
promulgated by H H. the Maharaja of Travancore  
on Nov 1, 1937. The chief aims of the univ were  
stated as being to effect a reorganisation of the  
system of educn. in the state with a view to the  
gradual devel. of technical and technol. educn.,  
to make greater and more systematic provision  
for furtherance of original res. in the various  
branches of appl sci., and to provide for con-  
servation and promotion of Kerala art and cultur.

With the reorganisation of states and the forma-  
tion of the new state of Kerala, it was found neces-  
sary to reconstitute the univ. into a teaching and  
federal univ with a jurisdiction extending over  
the whole of the state of Kerala in order to enable  
it to provide for the conservation, promotion and  
development of Kerala art and culture and the  
Malayalam lang and for the gradual change of  
the medium of instructn into Malayalam in all  
educnl instns of the state, and to provide greater  
facilities for postgrad study and original res. in  
all branches of learning by establishing centres of  
postgrad. study and res. in different parts of  
the state. The Kerala Univ Act came into force  
on Aug 30, 1957, and the Univ. of Travancore  
became the Univ. of Kerala from that date.

**CONSTITUTION.** The governor of the state of  
Kerala is the chancellor of the univ., and the pre-  
chancellor is the minister of education for the  
state. The vice-chancellor, the principal academic  
and executive officer of the univ., is apptd. by the  
chancellor on the unanimous recommendation of  
a sp. cttee of 3 members (1 elected by the senate,  
1 by the syndicate, and 1 nominated by the chan-  
cellor), to hold office for 3 yrs., the appt. of the  
first vice-chancellor under the Kerala Univ. Act  
having been made, however, by the chancellor.

The other authorities of the univ. are the senate,  
syndicate and facs. The senate, to be reconsti-  
tuted every 3 yrs., includes, *ex officio*, elected  
and nominated members and has general  
superintendence over the affairs, concerns and  
properties of the univ. The syndicate, of 16  
members, is the executive body and exercises  
general superintendence and control over the  
instns of the univ. The facs advise the senate

## GENERAL INFORMATION

Kurukshetra Univ was established in 1956 as 'a  
unitary, teaching and residential univ' by an act  
of the legislature of Panjab state. 400 acres were  
acquired for the univ campus about 14 miles  
from the town of Thanesar. This site nr. the  
sacred tank of Kurukshetra was chosen by the  
univ's sponsors for its historical and spiritual  
significance.

Beginning with only a dept of Sanskrit, the  
univ. has been developed into a multi-fac. instn.  
providing instructn. in arts & langs., sci., soc. sci.,  
Indic studies, and educn. It is nevertheless not  
intended to lose sight of the main purpose of the  
univ., which is to encourage 'higher educn. and  
res., esp. in Sanskrit, Prakrits and mod. Indian  
langs. as also in Indian philos., anc. Indian hist  
and other aspects of India.'

The univ. has no affiliated colls. Each of the 3

constituent colls. is in charge of a principal.

A large bldg. programme will be put into  
operation shortly.

CONSTITUTION The act and statutes of the  
univ provide for a chancellor, vice-chancellor,  
registrar, librarian, deans of facs., proctor and  
for these authorities : court, exec. council, acad.  
council, finance comm., facs. of the univ, bds. of  
studies. The chancellor is the titular hd. of the  
univ. The vice-chancellor is the chief executive  
and academic officer and ordinarily holds office  
(renewable) for 3 yrs. The functions of the  
court, acad council, exec council, etc, are  
similar to those of the corresponding bodies in  
other univs. In the constitution of these univ.  
bodies the element of election has been kept to a  
minimum.

INCOME (1961-62) Rs 2,839,480 (govt grants, Rs 2,388,000, Univ Grants Commission, Rs 152,000, fees, etc., Rs 299,480)

## GENERAL INFORMATION

Founded in 1857, the univ. continued to be an examining body till the early part of this century, when it took up also res. and teaching functions. This was given an impetus by the report of the Sadler Commission, and later by the Madras Univ. Act of 1923, which clearly laid down that the univ. would take up the devel. of res. and teaching depts. The univ. is federal, catering for postgrad. studies, and exercising control over the quality of the teaching given by its constituent and affiliated colls. Colls. within a radius of 10 mls. of the univ. are known as constituent colls., the affiliated colls. are spread over the different parts of Madras state. The univ. at present has 30 teaching and res. depts. comprising almost all the facs. Postgrad. teaching has also been organized on an inter-collegiate univ. co-operation basis.

**CONSTITUTION.** The authorities of the univ. consist of the senate, academic council, syndicate, facs. and bds. of studies. The senate is democratic in constitution and is representative of the colls., registered grade, legislature, local bodies, and certain learned socs. and assocns. This is the supreme governing body which considers the annual report and budget and frames statutes. The academic council is the supreme authority which regulates courses of studies and standards of exams., and in general deals with all academic matters which emanate from the syndicate or the bds. of studies. The facs. consist of members of the academic council who are assigned to them, and the bds. of the univ. depts. These facs. generally advise the syndicate on matters referred to it. The bds. of studies form the primary academic body. For each subj. of study, a bd. is constituted consisting of the univ. hd. of the dept., and profs. drawn from the different colls. These bds. meet twice a yr. and advise the syndicate and academic council on courses of studies, prescription of textbooks, and the panel of examiners; they report also on matters academic referred to them. These

recommendations invariably come up before the academic council and before the syndicate. The syndicate is the exec. authority, consisting of the vice-chancellor, the dir. of pub. instrcn., of Madras state, certain members elected by the senate and the academic council, and 3 members nominated by the chancellor. It meets monthly to consider matters pertaining to the admin. of the univ. The vice-chancellor, a full-time salaried officer, is the chief exec. officer of the univ. The registrar is sec. of the syndicate and the authorities of the univ., and carries out the various decisions of the authorities.

## GENERAL INFORMATION

Marathwada, the region comprising the districts of Aurangabad, Pathan, Nanded, Bha and Osmanabad, is now a unit of Maharashtra state (it formed pt. of the former Hyderabad state and subsequently a unit of the reorganized Bombay state). For nearly a decade there was a demand for a sep. univ. for this region from the citizens of Marathwada. On the eve of the reorg. of states in India, the govt. of Hyderabad recommended to the successor govt. of Bombay the estab. of this univ. The govt. of Bombay accordingly apptd. a comm. on whose report the legislature passed the Marathwada University Act, 1958, to estab. and incorporate a teaching and affiliating univ. at Aurangabad. The act received the assent of the govt. on May 5, 1958, and the univ. was inaugurated by M. Nohu, the prime minister of India, on Aug. 23, 1958.

Univ. jurisdiction extends over the 5 districts of the region (see above). The seat of the univ., Aurangabad (pop. 96,000), is a tourist centre 373 km. by rail N.E. of Bombay.

**CONSTITUTION.** The main authorities of the univ. are the comm. excc. council, academic council, facs, bds. of studies, bd. of univ. teaching and bd. of extra-mural studies. The comm. is a body with wide powers, which incl. the taking of decisions on questions of the affiliation of colls., estab. of depts., hostels and insts. of res. and sp. studies, conferment of degrees, instn. of teaching posts such as professorships, readerships and lectureships. The excc. council is the excc.

authority of the univ., which is in charge of day-to-day admin. The academic council has control and gen. regn. of maintenance of standards of teaching and exams. within the univ. The duties of the bds. of studies are to recommend text-books, draw up courses of study in their respective depts., and panels of examiners, etc. The bd. of univ. teaching reports direct to the excc. council regarding the conduct of all instn., teaching, lig. and res.

INCOME (1961-62) Rs. 1,476,597 (exam. & other fees, 25 per cent., state govt., 60 per cent., grants from U.G.C. & govt. of India, 11 per cent., misc., 4 per cent.)

## GENERAL INFORMATION

The Univ. of Mysore was the first univ. to be founded in the Indian states. The two state colls. (Central Coll., Bangalore, and Maharaja's Coll., Mysore) which had long been affiliated to Madras Univ. formed the nuclei of the new univ., and the establishment of the univ. received the sanction of H H. the Maharaja of Mysore in 1916. A regn. amending and consolidating the provisions of the Mysore Univ. Regn. V of 1916, as amended from time to time, received the assent of H.H. the Maharaja in 1935. Further amendment in 1956 made the univ. an autonomous body.

There are two univ. centres, Mysore and Bangalore, at each of which there are univ. colls. (see p. 637).

The former Mysore, Coorg and Mangalore, South Kanara (except the med. and engn. colls., Manipal, and law coll., Udupi), form the territorial jurisdiction of Mysore Univ.

The univ. is empowered to affiliate colls. under conditions prescribed in the statutes and ordinances. Inspection of colls. is made by prods. deputed by the syndicate.

**CONSTITUTION.** The principal univ. authorities are the senate, the syndicate, the academic council, the fac., the bds of studies, the bd of appts. and the cttee of finance. The vice-chancellor, who is a full-time officer, is the ex-officio chairman of the senate, the syndicate and the academic council. He is also the principal exec. officer and the academic officer of the senate and of the council. The exec. govt. of the univ. is vested in the univ. syndicate which consists of 14 members. The senate, with a max. strength of 42 members, is in charge of the gen. organization of the univ. and

## GENERAL INFORMATION

The univ. was establd. in 1923. Its jurisdiction extends over the districts of Akola, Amravati, Bhandara, Buldhana, Chanda, Nagpur, Wardha and Yavatmal in Maharashtra state. Teaching is provided partly through the affiliated colleges and partly through the teaching depts. of the univ. itself.

**CONSTITUTION.** The court is the supreme governing body with power to revise the acts of the exec. and academic councils. The exec. council is the chief exec. body; it controls univ. funds and, subject to certain limitations, it makes the ordinances. The exec. council consists of the vice-chancellor, treasurer, deans of facs., 5 members elected by court, 2 principals of non-govt. colls., 4 members (elected by acad. council) who are not principals of non-govt. colls., and 3 members nominated by the state govt. The academic council, the chief academic body, constitutes facs. and depts. of study, prepares syllabuses and recommends ordinances relating to admission to exams. and degrees. The facs. (see below) recommend subject syllabuses to the academic council on the recommendation of the bds. of studies; no ordinances relating to courses of study, exam. standards and other academic matters are made by the exec. council unless the opinion of the relevant fac. has been obtained. The facs. constitute bds. of studies which prepare courses of study. There is also a statutory finance ctee. with power to examine receipts and expenditure, to allocate funds and to sanction expenditure.

**INCOME (1960-61)** Rs. 3,099,071 (govt., 21 per cent.; fees, 60 per cent.; other, 19 per cent.)

**FACULTIES AND DEANS.** *Agric.*, Dr. K. G. Joshi; *arts*, Principal V. B. Kolte (Marathi); *comw.*, Prof. M. R. Tekhi; *educn.*, Principal R. H. Munje; *engnr. & technol.*, Principal A. D'Souza; *law*, Justice S. P. Kotval; *med.*, Dr. P. L. Power; *sci.*, Prof. L. B. Kapse (bot.).

## GENERAL INFORMATION

In 1924, the Statelved Cttee. on University Reforms, which recommended the establishment of regional univs in the province of Bombay, pointed out the suitability of Poona as such a univ. centre. It was not until 1942, however, that the provincial govt. appointed a cttee to report on the form, constitution, jurisdiction and financial implications of a univ. for Maharashtra. Although the cttee submitted its report in the following year, difficulties created by the second world war prevented its implementation and it was not until 1948 that the Univ. of Poona was establd.; it occupied the old Government House, at Kirkee, which was provided by the Bombay govt. Though situated in Poona, the univ.'s activities are spread over the 12 districts inhabited by the Marathi-speaking people (i.e. Ahmednagar, Dhule, Jalgaon, Kolaba, Kolhapur, Nashik, Poona, Ratnagiri, Sangli, Satara, Sholapur, Thane). It is intended, as the report of the cttee. which framed its scheme observed, that the 'univ. will keep in view the special needs, interests and traditions of Maharashtra and its people without losing sight of its essential character as a university, i.e. a seat of universal learning which recognizes no frontiers except those of the human mind itself'.

The univ. is neither a purely affiliating nor a purely unitary and teaching univ. It combines the features of both these types. It aims at

creating for the Poona area a central teaching organization beyond the inter. stage, and the whole of the postgrad. teaching and res. work in the entire univ. area is conducted under its direct control. But up to the inter. stage in the Poona area and the grad. stage in outside places, instruction continues to be given by the constituent and affiliated colleges subject only to the general supervision of the univ. It is not contemplated that all the staff, equipment and bldgs. of such post-inter. colls in Poona will belong to the univ., which will, however, be able to draw freely on these resources. The univ.'s library, labs and full-time teaching staff are used mainly for postgrad. teaching and res. in selected subjects.

CONSTITUTION. Among the distinctive features of the constitution of the univ. is its provision for the widest representation of the various elements in the life of the region in the composition of the court, the general legislative and deliberative univ. body. Linking academic and non-academic sides is the executive council, which possesses complete control over the finances and routine working of the univ. Apart from its general direction of policy, the court has no control over the day-to-day business of the univ.

INCOME (1959-60). Recurring Rs 4,745,618 (incl. govt. grants, 24.8 per cent; exam. fees, 29

per cent., tuition fees, 31 per cent.) Non-recurring grants: Rs 1,700,000

HONORARY DEGREE DLitt

EXTERNAL DEGREE. BA(Ext), MA(Ext), MSc (Ext) (maths only), BCom(Ext), MCom(Ext), LLM(Ext). Gainfully employed persons, and married women, residing within the univ. area, are eligible to appear for these exams externally, i.e. without keeping terms at any of the affiliated colls. Duration of the 1st degree course is 6 yrs from the entrance exam. as compared with 4 yrs for regular internal students. A candidate appearing for the 3-yr integrated degree course externally can complete the course within 6 yrs incl. the yr of pre-degree exam. He qualifies for the master's degree after a further period of 3 yrs. For any of these 6 exams, students have to pay a registration fee of Rs 16 in the yr. previous to yr. of exam.

DIPLOMAS: 1 yr—TD, libr sci., French (lower), German (lower), 2 yrs.—French (higher), German (higher), music, oriental learning, 2 yrs postgrad—DPH, DCP (clin pathol.)

CERTIFICATES. 1 yr.—French, German.

POSTGRADUATE RESEARCH. While the univ. depts. (see above) are mainly meant for postgrad study and res., the three constituent recognized institutions (see above) also undertake postgrad. res. through their staff as well as through postgrad. students registered with the univ. and working in those institutions. The subjects of res. at the institutions are as follows: Bhandarkar Oriental Res. Inst.—anc. Sanskrit and Prakrit lit., Mahabharat epic and anc. Indian culture; Deccan Coll Postgrad. and Res. Inst.—Sanskrit, compilation of Sanskrit dictionary, social, anthropol., Arabic, Marathi hist. and anc. Indian hist. and culture, Gokhale Inst. of Politics and Economics—econ., pol. and stats.

FEES. Fees charged up to first graduation are about Rs 100 per term (extra lab fees for sci. students). Postgrad students—Rs 125 per term for arts and Rs 150 per term for sci. Besides these tuition fees, students have to pay about Rs. 25 to Rs 30 p.a. for gymnasium, library and other facilities.

ACADEMIC YEAR: 3 terms: June to mid-Oct., Nov. to mid-March (med. & Ayurvedic med., mid-April).

THE USUAL LANGUAGE OF INSTRUCTION is English, except in mod. Indian lang. classes, where the lang. concerned is used. Steps are being taken to replace English by Marathi.

EXTRA-MURAL WORK. The bd. of extra-mural studies was set up in 1950. Lectures on topics of general interest are frequently arranged under the bd.'s auspices, and profs. of the constituent and affiliated colls and other experts are invited to deliver lectures which are open to the general public.

RESIDENCE. The univ. maintains a hostel which has accomm. for 126 male postgrad. students. There is a sp. hostel for women students, accomm. 60. The affiliated colls have their own hostels, accommodating a total of 3700 men and women students.

UNIVERSITY PRESS. The univ. maintains a small press.

PUBLICATIONS. *Handbook* (6 Pts. Pts I, III and IV annually, Pt II quinquennially), *Annual Report*, N. C. Kulkarni memorial lecture series, annual vol.; Dr P. D. Gunde lecture series, 1 vol. every 5 yrs., Ashutkar Vedic lecture series, 1 vol. every 4 yrs.

## GENERAL INFORMATION

Although the idea of a univ. at Jaipur can be  
traced to the 1920s, it was not till Jan. 8, 1947,  
that the act for a federal univ. for Rajasthan was  
promulgated. The univ.'s jurisdiction extends  
over Rajasthan, the ring-shaped region com-  
prising the whole of Rajasthan incl. Ajmer-  
Merwara. It is a teaching and affiliating univ.

The univ. now controls univ. educn. only.  
With the estab. of the bd. of secondary educn. in  
the state of Rajasthan with effect from July 1957,  
the control of high sch. and inter. educn. has  
been transferred to that bd.

**CONSTITUTION.** The main authorities are  
senate, syndicate, academic council, facs., bds. of  
studies and bd. of suspension, etc. Senate is the  
senior body. No statute of the univ. can be  
operative unless sanctioned by senate, and ordi-  
nances are subject to its approval. The syndicate  
is the executive body which controls day-to-day  
admin. Bds. of studies report to the facs., facs.  
to the academic council and academic council to

the syndicate. All other bodies report direct to  
syndicate.

**INCOME** (1960-61) Rs. 5,124,678 (exam. fees,  
Rs. 1,034,163; other fees, Rs. 97,032; publns.,  
Rs. 14,267; state grant, Rs. 424,000; tuition and  
other fees (univ. teaching depts.), Rs. 104,741;  
govt. of India & U.G.C. grants, Rs. 2,450,486;  
misc., Rs. 999,089).

med., *pharm.* & *vet. sci.*, Principal S. C. Mehta;  
sci., Prof. L. S. Ramaswami (soil).

**UNIVERSITY PRECINCT.** The univ. with its  
depts. and library is housed in its own beautifully  
constructed bldgs. in Gandhinagar, Jaipur; the  
depts. of bot. and zool. are located at Jodhpur and  
the dept. of geol. at Udaipur.

**LIBRARY.** 63,621 vols.

**ADMISSION.** Min. requirement for entry to inter, phar. and pre-univ. is high sch. or exam declared equivalent. For requirements for entry to degree courses, see below.

**FIRST DEGREE.** BA, 2 yrs after inter or 3 yrs after pre-univ. or equivalent; BSc, 2 yrs after ISC or 3 yrs. after pre-univ. or equivalent; BSc(Ag), 2 yrs after ISC(Ag) or equivalent; BCom, 2 yrs. after ICom or equivalent or 3 yrs. after pre-univ. or equivalent; BPharm, 3 yrs. with 90 days' practical trng. after IPhar. or ISC (with phys., chem., math.) or equivalent; BE (civil, elect., mech., mining, telecomm.), 4 yrs., with 6 mos.' practical trng. after ISC, or 5 yrs. after pre-univ. or equivalent (with phys., chem., math.); BVSc&AH, 4 yrs after ISC (biol.); MB BS, 5½ yrs, incl 6 mos.' internship, after ISC (with phys., chem., biol.). No hon. degrees are awarded.

**Note.**—The univ. introduced 3-yr. degree and pre-univ. courses in the fcs. of arts, com. & sci. in 1958 and 1959 respectively.

**HONOR. DEGREE.** BEd, BLittSc, 1 yr after 1st degree; LLB, 2 yrs after bachelor's degree. Courses of instructn for MA, MOL, MA(Social Work), 2 yrs after bachelor's degree; MSc, MCom, ME and MSc(Tech-Electronics), MSc (Ag), MPharm, MD, MS, LL.M., 2 yrs. after corresp. bachelor's degree; MEd, 1 yr. after BEd; MSc(Med), 2 yrs after MB BS. Facilities for res. in univ. depts. of econ., geol., hist., philos. PhD, 2 yrs' res. (and thesis) after postgrad. degree; DLitt, DSc, 2 yrs. after PhD; LLD, 2 yrs. after LL.M. The DLitt, DSc and LLD may also be conferred as HONORARY DEGREES. All degrees are open to grads of other univs.

**STUDY LEAVE.** which is available to univ. teachers who have been on the staff for 5 or more yrs., is granted (for 1 yr. or, exceptionally, 2 yrs.) to an individual upon only. An undertaking to serve the univ. for at least 5 yrs. on return is required. If the teacher has a scholarship or other financial assistance he receives a monthly allowance of not more than half his salary; if he has no schol., or other financial assistance he receives his full salary plus a monthly allowance of not more than a quarter of his salary.

**Fees.** Tuition fees, MA or LLB, Rs 200 p.a.; LL.M., Rs 240 p.a.; res., Rs. 250 p.a. Registra-

tion fee for res., Rs. 50. Women are charged half fee. Candidates belonging to scheduled caste are exempted from payment of tuition fee.

**ACADEMIC YEAR.** July to April, 3 terms. Term dates (approx.): July 7 to Sept. 30; Oct. 15 to Dec. 22; Jan. 2 to May 6.

**USUAL LANGUAGES OF INSTRUCTION.** Hindi and English.

**'Open' POSTGRADUATE AWARDS.** Univ awards 6 scholrs, value Rs. 150 p.m., tenable for a yrs., for res. in various subjects. Res. scholrs., value Rs. 150 p.m., are also awarded in the univ. teaching depts. 2 each in bot., chem., geol., hist., maths., philos., phys., zool. and 1 in econ.

**PRIVATE CANDIDATES** may appear at univ. exams without attending lectures in a recog. instn of the univ. Such candidates are women, teachers or librarians in recog. instns, or inspecting officers of the dept. of educn.

**EXTERNAL STUDENTS.** Provision exists for candidates 'in service' to undertake higher educn. Such candidates enrol to attend evng. classes, which certain degree colls. are authorized to run. They are thus intermediate in status between 'private' candidates and full-time scholars. This facility has enabled those who are gainfully employed and cannot for valid reasons join a coll. as regular students to appear at the univ. exams.

**EXTRA-MURAL WORK AND DELEGATIONS.** Extension lectures by members of the univ. and other scholars are delivered at various centres, and are publi. both in Engl. and Hindi.

**NATIONAL CADRE CORPS TRAINING.** Five bns., at Jaipur, Amer, Jodhpur, Udaipur and Bikaner, 6 indep. cos. at Amer, Bharatpur, Kota, Churu, Pilani and Sri Ganganagar; 3 units: 1 air squadron at Jodhpur & Jaipur, 1 naval unit at Udaipur; 4 tech. units, medical co. at Jaipur, artillery battery N.C.C. at Pilani, engin. platoon N.C.C. at Pilani and Jodhpur. The univ. contributes Rs. 11,662 annually for amenities of N.C.C. cadets.

**PUBLICATIONS.** Handbook (Pt I, univ. authorities, pt 7, Pt II, statutes & ordinances, Rs. 3), *Univ. Studies and Extension Lectures*, text-books and fac. syllabuses, List of institutions.

## GENERAL INFORMATION

The S.N.D.T. Women's Univ. was founded by Dr. D. K. Karve in 1916 on the model of the Women's Univ. of Tokyo. Dr. Karve based his plan for the new univ. on the recognition of 2 principles: the use of the mother tongue as the most natural and effective medium of instruction, and the differentiation in courses of study to suit the different roles played by men and women in the soc. life of the country. In 1920 the univ.

was placed on a firm financial foundation by a magnificent gift of Rs. 15 lacs from Sir Vithaldas Thackersey.

The jurisdiction of this univ. extends over the whole country. Its distinctive features are that it is mainly concerned with the educn. of women (courses of study incl. such subjs. as home econ., drawing, painting and nursing) and that all teaching work is carried on in Gujarati and Marathi.

\* Member of the Association of Universities of the British Commonwealth

The univ. was granted statutory recognition by the state govt in 1951. It has 9 colls., 4 conducted and 5 affiliated.

**CONSTITUTION.** The supreme governing body of the univ. is the senate. The exec. body is the syndicate.

**INCOME.** The univ. receives a recurring grant of Rs 167,000 from the govt of Maharashtra. Exam. fees, Rs. 285,000, annual endowment (from Thackersey trust), Rs 45,000.

**LOCATION AND BUILDINGS.** The univ. was originally located in Poona, but since 1936 the main office has been in Bombay. The univ. office and the colls. in Bombay are housed in spacious bldgs. constructed at a cost of about Rs 35 lacs.

**ADMISSION.** The qualif. for admission is the S.S.C. exam. of the S.S.C. Bd., Poona, or any other exam. recognised as equivalent for the purpose.

**FIRST DEGREES.** BA.—4 yrs. Home sci. (incl. elem. bot. & hyg.), home making, home management & cookery, food & nutrition, physiol., psychol., are compulsory. Ethics, philes., music, drawing and painting are optional subjs. BSc Nursing honrs.—4 yrs. Theoret. instruct. at the univ., practical trg. and demonstrations at the

Bombay Hosp. Students also visit the various special instrns. in the city for trg.

A degree coll. in home sci. was establd. in June 1962.

**HIGHER DEGREES.** Postgrad. courses are offered leading to the degrees of MA (2 yrs.), BEd (1 yr.) and MEd (2 yrs. after BEd).

**EXTERNAL DEGREES.** All univ. exams may be taken externally except those for BEd and BSc Nursing honrs.

**FEES.** Coll. fees, Rs 120 per term.

**ACADEMIC YEAR.** Two terms. June 15 to Oct. 14, Nov. 15 to March 14.

**RESIDENCE.** Hostel expected to be ready during 1963.

## GENERAL INFORMATION

Visva-Bharati grew out of Santiniketan Ashrama, a retreat founded in 1863 by Mahatma Devendranath Tagore. In 1901 an experimental sch. was started at Santiniketan by Rabindranath Tagore, and since 1921 Santiniketan has been the seat of Visva-Bharati, which was incorporated as a univ. by Act XXIX (1931) of the Indian Parliament. Visva-Bharati is an all-India instn. with students and teachers drawn from all over India and a proportion of teachers, students and visitors from abroad. The territorial jurisdiction of the univ. extends over the area known as Santiniketan (11.5 sq. mls.) in the district of Birbhum in W. Bengal.

The aims of the univ. are to study the mind of man in its realization of different aspects of truth from diverse points of view; to bring into more intimate reln. with one another, through patient study and res., the different cultures of the East on the basis of their underlying unity; to approach the West from the standpoint of such a unity of the life and thought of Asia; to seek to realize in a common fellowship of study the meeting of East and West, and thus ultimately to strengthen

the fundamental conditions of world peace through the establish. of free communication of ideas between the 2 hemispheres; and with such ideals in view, to provide at Santiniketan a centre of culture where res. into and study of the religion, lit., hist., sci. and art of Hindu, Buddhist, Jain, Islamic, Sikh, Christian and other civilizations may be pursued along with the culture of the West, with that simplicity in externals necessary for true spiritual realization, in amity, good fellowship and co-operation between the thinkers and scholars of both eastern and western countries, free from all antagonisms of race, nationality, creed or caste.

A scheme of agro-econ. res. is being conducted at the univ. under the auspices of the min. of food and agric., govt. of India. The scheme has under its purview a considerable area consisting of W. Bengal, Bihar, Orissa and Assam.

The Soc. Educn. Organizers' Trg. Centre, sponsored under the community project scheme, provides for trg. of 160 organizers from the states of the Indian union every yr. and has a twofold curriculum, theoretical and practical.

## GENERAL INFORMATION

The Univ of Malaya was estab'd as the natnl univ of the Fed of Malaya on Jan 1, 1962, by the Univ. of Malaya Act 1961 which at the same time repealed the Univ of Malaya Ordinance 1949 establishing the former Univ of Malaya. The Univ of Malaya is successor to 'Univ. of Malaya in Kuala Lumpur', a div. (estab'd in 1959) of former Univ of Malaya which was itself founded in 1949 by fusion of then existing colls. of higher educn in Singapore: the King Edward VII Coll. of Med (founded 1905) and Raffles Coll. (founded 1929). Full univ teaching was carried on from day of foundation and first degrees to be granted by the univ were conferred at the convocation held in June 1962.

Univ. teaching started in Kuala Lumpur (pop 350,000), capital of Fed of Malaya, in Sept. 1957 with 1st-yr. teaching in all arts subjs conducted in accom. temporarily made available in the Govt Tech. Coll., Gurney Rd. At the same time devel. of the site for the univ at Pantai Valley in Kuala Lumpur was begun. In July 1958 entire dept of engin was transferred to Pantai Valley site from Singapore.

As a result of a report in Nov. 1957 by a commission headed by Sir Robert Aitken, vice-chancellor of Univ of Birmingham, the constitution of former Univ. of Malaya was redrafted to create 2 divs of equal status, 1 in Singapore and the other in Kuala Lumpur, with the univ as supreme governing body of the 2 divs. Ordinances to give effect to these proposals were enacted in Nov. 1958 and came into force on Jan. 15, 1959.

The div. in Kuala Lumpur, known as the Univ of Malaya in Kuala Lumpur, started with facs of arts, engin., and sci. In 1960 a degree course in agric. was instituted. In that same yr the govt of the Fed. of Malaya indicated its intention that the Kuala Lumpur div should become the natnl univ of the fed., the Singapore govt did likewise. Legislation to effect the estab. of these 2 separate univs was enacted in the fed. in Oct. and in Singapore in Dec. 1961. This legisla. came into force on Jan. 1, 1962.

CONSTITUTION The main authorities of the univ are the court, council and senate. Court is widely representative body with only nominal

power. Council is exec. body of univ and exercises all powers of univ except those which are conferred by constitution or by statute on some other authority. Senate is academic body of univ and has control of gen. direction of instructn., exam., res. and award of degrees, dipls and certs.

INCOME (Kuala Lumpur div of Univ of Malaya, for yr ended Dec. 31, 1960) £364,365 approx (govt grants, 87.9 per cent, tuition & other fees, 9.7 per cent; investment income, 0.1 per cent.; rent, 1.4 per cent; misc., 0.8 per cent.)

FACULTIES AND DEANS (1962-63) Arts, Prof. R. B. Le Page (Engl.), engin., Prof. Chan Fung Kee, Jcn., Prof. C. J. Elzezer (maths.). Non-fac. dept.: agric., Prof. G. M. Davies, hd. of dept.

UNIVERSITY PRECINCT The Univ of Malaya is situated in the Pantai Valley which is about 3 miles from the gen. post office, Kuala Lumpur, and as the newly constructed fed. highway linking the fed. capital with the royal town of Klang. The main bldgs. of the univ. are on elevated ground facing a central valley which has been converted into an artificial lake. A ring road affords access to the various bldgs.: 1st residential coll., 2nd residential coll., fac. of engin., fac. of arts, library, fac. of sci., dept. of agric.

LIBRARY Approx. 70,000 vols.

ADMISSION Candidates are ordinarily required to take Camb. overseas higher sch. cert. exam. which is regarded as univ. entrance exam. For admission to 1st-yr. courses, candidates must have obtained at one and the same exam. passes in either 2 subjs. at principal standard or one subj. at principal standard and 2 subjs. at substd. standard. A pass in the gen. paper is also desirable. For sci., engin. and agric. there are sp. fac. requirements to be fulfilled. For exemption from 1st-yr. and admission to 2nd-yr. courses in sci. and agric. candidates must have full cert. with good passes in either 3 subjs. at principal standard or 2 at principal standard and 2 at substd. standard, the subjs. being chosen from a list. A pass in the gen. paper is also desirable.

Non-graduating courses are provided and admission is subject to the approval of the dean (or his, of non-fac. dept.) concerned.

## GENERAL INFORMATION

The univ. began as a Jesuit coll. instituted in 1592 by Pope Clement VIII, who gave it the power of conferring degrees in philos. and in theol. It is still housed in a bldg. erected by the Jesuit Fathers. Its med. fac. originated in a sch. of anat. founded in 1674 by grandmaster Nicola Cottoner in the great hosp. of the order, which accommodated 745 patients. P<sup>re</sup> Emmanuel Pinto de Fonseca, grandmaster of the order of St John of Jerusalem, with authority from Pope Clement XIV, raised the coll. to univ. status in 1769.

**CONSTITUTION.** By ordinance no. XXXII promulgated in 1947, and amended in 1957 and 1961, the univ. is governed by a council consisting of a pres. apptd. by the council, from its own members or otherwise, the vice-chancellor and rector magnificus as vice-pres., a member apptd. by the Inter-Univ. Council for Higher Educat. Overseas, 6 members elected by the legislature of Malta, 6 members (hds. of depts.) elected by the senate, 2 members elected by the guild of grocers, 2 members apptd. by the chancellor in consultation with the vice-chancellor and 1 member apptd. by the metropol. archbishop of Malta. A senate consisting of the vice-chancellor and rector magnificus, all hds. of depts. and reps. of the other teachers was also instituted by the ordinance. The council is the supreme authority of the univ.

**INCOME (1960-61).** Total, £26,425 (govt. grant, £26,000, students' fees, £10,035, other sources, £390).

# UNIVERSITY INSTITUTIONS IN NEW ZEALAND

(Specially revised for this edition by Professor I. D. Campbell, Deputy Vice-Chancellor,  
Victoria University of Wellington)

**HISTORY.** The University of New Zealand was established by act of parliament in 1870 and dissolved by act of parliament in 1961, being succeeded by a number of semi-autonomous university institutions which had previously formed parts of the University of New Zealand.

The University of New Zealand comprised four constituent institutions and two associated colleges. The first of these was established by the Scottish pioneers in 1869 through an ordinance of the provincial council of Otago as the University of Otago at Dunedin. When the concept of one university for New Zealand developed almost immediately, the Scottish settlers, somewhat reluctantly, yielded their right to their own independent university which became in 1874 a constituent college of the University of New Zealand whilst retaining the name of University of Otago. In 1873 Canterbury University College was established, largely through the efforts of the Canterbury Association, at Christchurch. In 1876 the Queen granted a charter to the University of New Zealand. Auckland, the original capital of the colony, established its University College in 1882, and Wellington set up Victoria University College in 1897. Canterbury Agricultural College, Lincoln (a few miles from Christchurch), was established in 1873 and was controlled by the council of Canterbury University College until 1896 when it became more directly associated with the University of New Zealand. Massey Agricultural College, Palmerston North, was established in 1926, becoming the centre of agricultural education in the north island.

In October 1957 the titles of Auckland, Canterbury and Victoria university colleges became 'University of Auckland', 'University of Canterbury' and 'Victoria University of Wellington', respectively. These were changes of title only, and there was no change in the powers of these three institutions.

In August 1958 senate approved the establishment of a university college at Palmerston North as a branch of the Victoria University of Wellington and in April 1959 government approved these proposals and made financial provision for the establishment of the branch in 1960. Tuition was made available at the branch college in certain subjects for internal students and the college was also responsible for extra-mural tuition in these subjects to students from all university districts. In April 1959 government approved the establishment of a university college at Hamilton in 1960 as a branch of the University of Auckland.

The University of New Zealand had a federal

structure and was similar in certain respects to the universities of London and Wales. According to the provisions of the University Act 1968 the principal duty of the university was the conduct of the examinations for the students of the colleges and for many years the scripts were sent to Great Britain to be marked by examiners appointed by the university.

The governing body of the university was the senate, which exercised authority in general academic and administrative matters. It was advised on academic matters by the academic board. Under an act of 1954 the senate delegated to a curriculum committee authority to approve course regulations for the various degree courses taught in the constituent institutions and agricultural colleges. Course regulations approved by the curriculum committee superseded degree statutes of the university and were regulations of the sponsoring institution. Whilst the basic degree structure set out in the various degree statutes of the university was retained in these course regulations, there were variations between constituent institutions in prerequisites, prescriptions, compulsory subjects and matters of detail.

Until the end of 1961, then, the curriculum committee and the academic board worked side by side on academic matters with which the institutions and the university were concerned. Whilst the academic board advised senate, the curriculum committee had executive powers.

Senate was advised on matters relating to university entrance and university scholarship examinations not only by the academic board but by the entrance board. Entrance to the constituent institutions and the agricultural colleges was determined on a national basis by examinations controlled by senate on the advice of the entrance board and the academic board.

The constituent institutions and agricultural colleges were governed by councils and boards of governors respectively which were advised on academic matters by professorial boards which were in turn advised by faculties.

As devolution proceeded, more authority was vested in the councils of the constituent institutions so that ultimately, when independent universities were established, the powers of ordinary university governing bodies would devolve upon them. Senate set up a committee to make recommendations concerning the completion of the devolutionary process and to determine what functions should remain central.

While the question of the future pattern of university education in New Zealand was thus

under discussion a critical situation was developing in regard to staffing and buildings, and serious problems had arisen in relation to university entrance, conditions of study, bursaries and university finance generally. The government decided to appoint a committee to advise on these questions and 'to indicate ways in which the university system should be organized to ensure that the long-term pattern of development is in the best interests of the nation'.

**THE PARRY COMMITTEE** The committee consisted of three members: Sir David Hughes Parry (chairman), then director of the Institute of Advanced Legal Studies, University of London; Dean G. Andrew, then deputy to the president of the University of British Columbia; and Dr R. W. Harman, chairman of the New Zealand Atomic Energy Committee. It began its sittings in September 1959 and reported in January 1960. The report dealt with almost every aspect of university education in New Zealand, including: the role of the university in the New Zealand community; the universities and New Zealand's economic development; the demand for and supply of university graduates; university entrance, part-time and extra-mural study, scholarships, bursaries and other financial assistance to students; salaries and conditions of recruitment and employment; university staffing; buildings and equipment; science and technology; new developments and new institutions; the separate universities; the University Grants Committee; university finance. (Copies of the report may be obtained from the government printer, Wellington, New Zealand).

The committee endorsed the proposed devolution of university administration. It stated that it considered that the point had now been reached 'when each of the four constituent universities (Auckland, Victoria, Canterbury and Otago) has to be granted the status, privileges, powers, duties, and responsibilities commonly enjoyed by a free and separate university'. The recommendations of the committee were, in the main, implemented promptly by the government. A new Universities Act, and other acts relating to the four separate universities, were passed in 1961, dissolving the University of New Zealand and bringing into operation in 1962 a new scheme of university administration.

#### STRUCTURE OF UNIVERSITY ORGANIZATION

Under the legislation of 1961 there are four semi-autonomous universities in New Zealand and two university colleges of agriculture\*. Coordination is secured through a University Grants Committee and other statutory and non-statutory committees, of which the most important are the Vice-Chancellors' Committee, the Curriculum Committee, the Universities Entrance Board, and sub-committees of the University Grants Committee.

The University Grants Committee is the central organization to negotiate with government

the grants necessary to meet the financial needs of university education and research in New Zealand. It has the responsibility of instating and considering, in consultation with the universities and other bodies, 'plans for such balanced university development as may be required to make the universities fully adequate to the needs of New Zealand'. The chairman of the committee is appointed by the governor-general after consultation between the minister of education, the chancellors and vice-chancellors of the universities, and the principals of the university colleges of agriculture. The other members are: four members who are not members of the council of any university and are not professors or teachers or other employees of any university, and three members who are professors or teachers in the universities.

The Vice-Chancellors' Committee consists of the vice-chancellors of the four universities and the principals of the two university colleges of agriculture. The meetings of this committee enable a wide range of common problems to be considered and greatly assist in the formulation of a uniform policy for all university institutions.

The Curriculum Committee, which is a statutory sub-committee of the University Grants Committee, has a vital role in the co-ordination of academic legislation. Each university may propose such course regulations as it thinks fit in respect of the structure and content of the courses for the degrees and diplomas which that university may confer, but these course regulations require the approval of the Curriculum Committee. The control formerly exercised by the academic board and senate of the University of New Zealand is thus continued, though in an attenuated form. The intention is not to impose uniformity and inhibit experimentation, but to attain—for a period at least—a procedure designed to maintain standards and to secure comparative equivalence of courses at the various universities. If a proposed academic development is likely to lead to the need for a special grant to support it, the approval of the University Grants Committee must also be obtained. The Curriculum Committee consists of the chairman of the University Grants Committee, the vice-chancellors and principals of the universities and agricultural colleges, the director of education, and four professors appointed by the University Grants Committee (one from each university district).

The Universities Entrance Board has as its principal function the maintenance of a common educational standard as a prerequisite for entrance to the universities. The board includes five university teachers and five others who are either schoolteachers or officers of the department of education, together with a chairman appointed by the University Grants Committee. The board controls the university entrance examination and the examination for entrance scholarships.

Funds provided by government for university research, which now amount to £100,000 annually,

\* See also footnote to p. 743.

are administered by the Research Committee (a statutory sub-committee of the University Grants Committee).

**THE UNIVERSITY INSTITUTIONS** Within the framework of controls exercised by the University Grants Committee and the other bodies already mentioned each of the four universities has substantial autonomy, with independent status and the power to confer its own degrees. Each university is governed by a council which is advised in academic matters by a professional board (named, at Auckland and Otago, 'the senate'). Lincoln College, previously known as the Canterbury Agricultural College, is now a constituent college of the University of Canterbury. Massey College\*, previously known as the Massey Agricultural College, is now a university college of agriculture in association with the Victoria University of Wellington. The colleges teach for degrees of the University of Canterbury and the Victoria University of Wellington respectively, but they have in addition the right which they have had for some years, to award diplomas and certificates in the fields of study for which they teach.

**RELATIONSHIP TO GOVERNMENT** The universities and the university colleges of agriculture are independent of direct government control in academic matters except in so far as new proposals may require legislation by parliament (which will rarely be necessary) and with the further exception that the procedure for introducing new degrees or diplomas at any university requires government assent.

In financial matters, both with regard to annual grants (which were and are negotiated on a quinquennial basis) and grants for capital items including buildings, the financial needs of the institutions and colleges are put before the Grants Committee by the various councils and boards of governors and these are then sifted and collated by the committee before being presented to the government.

The government has established a University Works Committee, which includes representatives of the grants committee, the department of education, the ministry of works and Treasury. This new committee acts as an expert committee to advise the University Grants Committee. It scrutinizes building proposals referred to it by the latter committee, and presents to the government fully documented recommendations concerning university buildings.

**FINANCE.** The total recurrent income of the universities and the agricultural colleges for the year 1961 was approximately £3,250,000 of which £2,030,000 was from government sources, £270,000 from fees and £50,000 from endowments and other sources.

**PRE-UNIVERSITY EDUCATION** The normal pre-university education is six years at primary school, two years at intermediate school (or, alternatively,

eight years at primary school) followed by four years at post-primary school, at which time the university entrance examination is normally taken. A further year at post-primary school leads to a higher school certificate or to the competitive university entrance scholarship examination. Students who intend to enter the university are strongly encouraged to spend this extra year at school and the majority do so.

To pass the university entrance examination the candidate must pass in English and three other subjects from a fairly wide list.

Candidates for university entrance may either sit the prescribed examination or be accredited by the headmaster of their school. Only certain schools, approved by the universities entrance board, have power to accredit. General liaison is maintained on the many questions relating to entrance, and on the accrediting process in particular schools, by liaison officers. One liaison officer is attached to the staff of each of the universities with the status of senior lecturer.

Adequate provision is made for the recognition of the entrance examinations of other universities.

**ADMISSION** Until recently, all qualified applicants for admission to the university (i.e. those who have passed the university entrance examination or have been accredited by their schools with a pass in this examination, and those who have secured an equivalent overseas qualification) have been accepted without any further selection. It is likely, however, that accommodation problems will require some selection to be made in the near future, particularly in science and engineering courses. Admissions to professional courses in medicine and dentistry are limited and from time to time competitive on the results of the first-year (intermediate medical or dental) university examinations.

*Ad eundem* admission to postgraduate study and research is determined by each university following individual application. It is usual for applicants from Commonwealth and most other countries, who are adequately qualified to proceed to higher degrees in their own universities, to be permitted to register and pursue a course of study leading to a higher degree in the universities of New Zealand.

**STRUCTURE OF DEGREE COURSES.** Each of the four universities provides degree courses in arts, commerce, law, music and science. Courses for various other professions are provided as follows: Auckland—architecture, engineering and fine arts; Canterbury—engineering and fine arts; Otago—dentistry, home science, medicine, mining and physical education; Wellington—political science, public administration and social science. See also p. 747.

Courses for the first degrees of BA, BSc and BCom require a minimum of three years' study and are made up of units. Each unit represents one year's work in a subject, e.g. eight units are

\* With effect from Jan. 1, 1963, Massey College and Palmerston North University College were merged as Massey University College of Manawatu.

required for BSc degree and nine units for BA degree. Honours are awarded for the bachelor's degree in architecture, science, engineering and music. A candidate having graduated with a bachelor's degree may in certain faculties proceed to a course (one or two years), which is partly a lecture course and partly research or other original work, for a master's degree with or without honours, according to the standard of attainment. There is, in addition, a course at the Victoria University of Wellington for BSc honours which is a postgraduate course including written examination papers but not a research thesis.

The minimum number of years of study for other first degrees is as follows: BAgr, three years; BHSc, BAgrSc, BArch, BE (civil, electrical, mechanical, metallurgical, or mining), MuxB, LLB, four years; BE(Chem), BE hon., BDS, BMedSc, five years; MB ChB, six years.

Professional courses in special schools are normally preceded by an intermediate course (one or two years) which may be taken at any of the universities. Courses in agriculture leading to BAgr and BAgrSc may be taken wholly at the agricultural colleges or the first-year intermediate course may be taken at any of the universities. Examinations for bachelor's and master's degrees are taken annually in October/November.

Advanced postgraduate study usually involves original supervised work together with some tutorial and discussion-type instruction. Normally there is no organized lecture course leading to a written examination, although the candidate may be required, if his thesis or dissertation is not wholly acceptable, to subject himself to some further examination.

**TEACHING STAFF** The grades of staff within the universities are: (1) professors, (2) associate professors, who are lecturers of especial personal merit or distinction, (3) senior lecturers, (4) lecturers, (5) assistant or junior lecturers.

The usual teaching method is the formal lecture, but increasingly at all stages seminars, tutorials and informal discussion methods are being introduced. In most departments there is reasonable time available for personal research and study, but the teaching load is generally somewhat greater than in universities in the United Kingdom.

Members of staff (1-4 above) may expect leave for up to one year for travel and study overseas every six or seven years. Conditions of leave vary somewhat from one university to another, but usually provide for full salary, a travel allowance and a maintenance grant dependent on the circumstances.

There is a national scale of salaries for university teachers which is determined by government on the recommendation of the University Grants Committee. Following the publication in January 1960 of the Perry report, government approved the following salary scales as from April 1, 1960: Academic heads of constituent institutions £3300, agricultural colleges £3100, Professors, £2800; associate professors, £2250; senior

lecturers (heads of departments) (2) £100, 1) £50, £1000-£2150, senior lecturers (2) £100, 1) £50, £1750-£2000; lecturers (2) £75, £1250-£1700, assistant lecturers (2) £50, £900-£1100.

Superannuation is available under the NZ government superannuation scheme. There is a limited scheme by which appointees to New Zealand with FSSU rights may have their FSSU premiums paid for them for up to five years. The usual method of appointment is by advertisement, it is not usual for posts to be filled by invitation. Advertisements are normally placed in appropriate newspapers and journals in New Zealand and the United Kingdom and occasionally in other Commonwealth countries. Persons of foreign nationality are considered for appointment, subject to compliance with immigration requirements.

**STUDENTS** Whilst the universities recognise the importance of full-time academic study, this ideal has not been fully realized, particularly in arts, commerce, law and music courses. It is virtually impossible to take degree courses in architecture, dentistry, engineering, home science, medicine, mining or science except as a full-time student. Of some 15,000 internal students, rather less than half are part-time; a further 1400 are external students registered with a university, but permitted to pursue their courses through private study, provided they pass the examinations conducted each year.

Relatively few students live in halls of residence, the proportion being highest in Otago and lowest in Auckland and Wellington. Student corporate life is focused on the students' union controlled by an elected student executive which organizes a full programme of cultural and sporting activities through the various societies and clubs. Student health services exist in most of the universities and there are usually also counsellors or tutors and lodgings officers. There is no appointments board or overseas universities information bureau, but at Wellington steps are being taken to establish a placement service for graduates.

Tuition fees generally range from £15. 15s. to £31. 10s. per subject. Thus, for example, total tuition and examination fees for a BSc course may come to approximately £200. The students' association fee is approximately £4 per annum.

A new system of university bursaries was introduced in 1962. A bursary covering tuition fees only may be awarded to a student who has the university entrance qualification. A bursary covering tuition fees and a cash allowance may be awarded to a student who has obtained a higher school certificate and is pursuing a full-time university course. Bursaries are tenable, in general, for the minimum period required for a full-time student to complete the course. The allowances are: first year, £40; second and third years, £50; fourth or fifth year, £100. Bursaries covering tuition fees and an allowance of £100 may also be awarded for one year to students

taking a full-time course for a master's degree. Bursaries are supplemented by a boarding allowance if the student lives away from home. In general, bursaries are not awarded to overseas students admitted to New Zealand on a study permit. Many students supplement their bursary incomes with vacation employment, some students who for one reason or another are ineligible for bursary awards are able, by working throughout the long vacation, to finance themselves for full-time study during the university session.

The approximate annual cost of study and residence for a full-time student from overseas is as follows: tuition, examination and miscellaneous fees, £600-£800; board (either private or hostel during term and private during vacation), £300; clothes, books, travel, etc., £150-£200.

A very considerable increase in the number of university students is expected in 1962 and subsequent years, this arises partly from immigration, but mainly from the high level of the birth-rate in the 1940s.

**ACADEMIC YEAR AND VACATION COURSES** The academic year consists of three terms of approximately nine, eleven and six teaching weeks with short vacations between first and second and second and third terms. It begins in early March and ends in late November. There are no vacation courses for degree purposes, but engineering and some other students undergo practical training in works or field camps during the vacations.

**EXTRA-MURAL CLASSES AND UNIVERSITY EXTENSION** The universities control, through the regional councils for adult education, various extension and other courses for non-university students within their respective districts. The universities also play some part in the activities of the Workers' Educational Association. For this work special grants are paid to the universities from the National Council of Adult Education, a body established under a separate Act of Parliament.

**INTER-UNIVERSITY ORGANIZATIONS** The universities, through their vice-chancellors, maintain liaison with the Australian vice-chancellors. The professors and lecturers are mostly members of the Association of University Teachers (secretary: R. Shepherd, School of Engineering, University of Canterbury, Box 1471, Christchurch 1, New Zealand) which is organized on a regional and national basis. The students' associations in the various centres adhere to the New Zealand University Students' Association (address: P.O. Box 6397, Te Aro, Wellington).

**THE UNIVERSITY TO-DAY** A great increase in student numbers is expected in the next few years, and to cope with this an extensive building programme is under way. In its first phase a dental block at Otago, an engineering school at Canterbury and a science block at Victoria were built and the following buildings are now in course of planning or construction. *Auckland*: a fine arts school under construction, a chemistry,

physics and mathematics block planned, and an arts and library building and engineering school in prospect; *Wellington*: arts and library building under construction; *Canterbury*: science school under construction; *Otago*: arts and library building in the final stages of planning; *Massey*: a veterinary school being planned; *Levin*: science teaching block being planned; *Hamilton*: the first teaching and administration block of about 20,000 sq. ft. being planned.

Apart from mere expansion in size the university system already shows the effects of the autonomy granted to the separate institutions. There are unmistakable signs of diversity and experimentation, and a notable increase in the tempo of research activity. It has also been demonstrated that even unco-ordinated activities at different centres may neatly combine to achieve, in effect, more than was achieved under the previous regime. In regard to music, for example, one well-informed commentator has summed up recent developments in the universities' departments of music by saying that 'almost without knowing it, New Zealand has what has long been wanted, a lively National School of Music'.

In July 1960 and April 1962 reports were made by the Commission on Education in New Zealand. This commission was set up to report on almost all aspects of education other than those directly relating to the universities (which were the subject of the report of the Parry committee). The recommendations in the extremely comprehensive report of this commission, though specifically referring to primary and post-primary education, are of vital concern to the universities, not only because they deal with the education of those who will later enter the universities, but also because of major reorganization which is suggested in regard to the training of teachers. If these proposals are adopted by the government the universities will assume some direct responsibility and will collaborate in the work of new agencies which are to be established for teacher training.

It is expected that legislation will be passed during 1962 to effect the amalgamation of Massey College with Palmerston North University College (see footnote to p. 743).

**INSTITUTIONS OF HIGHER EDUCATION OTHER THAN UNIVERSITIES** The universities in New Zealand have a dominant role in higher and adult education. Some government departments, however, play a part in giving specialized technological training to employees, as also do some of the larger industrial enterprises. Nurses, dental nurses and teachers are trained by government departments or local authorities, although post-primary teachers, in particular, and many primary as well, also take university courses. Teacher training colleges are established in or near all the university centres. As already mentioned, the Commission on Education has recommended extensive reorganization in this field.

The technical school system, including the education department's technical correspondence

school, offers some professional courses, such as engineering and accountancy. Hitherto, however, the technical schools have been mainly concerned with vocational and apprentice training. But there is a growing development of systematic training for technicians and others occupying a middle place between the university-trained technologist and the tradesman. A significant start was made with the introduction of a New Zealand certificate of engineering for which courses are given at the large technical colleges, and there has since been extremely rapid growth in this direction. There are now separate

polytechnical institutions at Auckland, at Petone (which has a school of pharmacy), and at Wellington.

An independent Council of Legal Education controls the examinations for admission to the legal profession, but the courses provided by the universities are at present accepted by the council for this purpose. Candidates for professional admission take the same examinations as those conducted by the universities for the LLB degrees.

**PUBLICATIONS.** See Appendix VI and the 'Publications' section of the catalogues for the universities and associated institutions, below.

## DIRECTORY TO SUBJECTS OF STUDY

(See also table on p. 747)

The following subjects may be studied, as part of the course leading to a first degree and/or at postgraduate level, at all of the universities in New Zealand: accountancy, botany, chemistry, classics, economics, education, English, French, geography, geology, German, history, law, mathematics, music, philosophy, physics, political science, psychology, zoology.

For details of the agricultural subjects which may be studied at Lincoln College and Massey College, see the college entries on pp. 759-761 and 775-778.

The table on p. 747 shows which of the universities provide facilities for study or research in a number of other subjects. The letter U means that the subject can be studied, at the university indicated, only at the undergraduate stage as part of the course for a first degree, or for a diploma, certificate, etc.; the letter B means that the subject can be studied at the university indicated at undergraduate and postgraduate levels; the letter P means that the subject can be studied at the university indicated only at postgraduate level.

### GENERAL INFORMATION

In 1872 the provincial council of Canterbury set aside certain lands for the endowment of higher educn., incl. provision for a sch. of agric. Land suitable for the activities of such a sch. was bought at Lincoln in 1877 by the Canterbury Coll. bd., which was administering the endowments, and Lincoln Agric. Coll. was opened in 1880. By the Canterbury Agric. Coll. Act, 1896, control of Lincoln Agric. Coll. was removed from the Canterbury Coll. bd. and vested in a separate bd. of governors, the coll. thenceforth being known as Canterbury Agric. Coll. In 1913 a univ. degree in agric. was instituted and the coll. was recog. as a sch. of agric. by the Univ. of New Zealand. A series of amending acts was passed between 1922 and 1927, and by legislation passed in the latter yr. the coll. became a coll. of the Univ. of New Zealand. On devolution of the latter, the coll.—renamed Lincoln Coll.—became in 1962 a constituent coll. of the Univ. of Canterbury. The coll. is situated nr. the township of Lincoln, about 13 mls. south-west of Christchurch, South Island.

**CONSTITUTION.** The Lincoln Coll. Act 1961 constitutes the present authority of the coll. It is governed by a council consisting of the principal and 16 members elected as follows: 1 by govt. gen. of N.Z., 2 by S. Island members of the house of representatives, 2 by council of Univ. of Canterbury, 2 by Lincoln Coll. council, 4 by fed. farmers of N.Z., 3 by grads., 1 by prof. board and 1 by staff.

**INCOME (1961).** £311,306 (grant, 46 per cent.; fees and donations, 3 per cent.; endowments, 1 per cent.; trading, 50 per cent.).

**LIBRARY.** 15,000 vols. Subscribes to 500 journals.

**LABORATORIES, ETC.** Normal range of bldgs. to provide teaching & res. facilities in agric. econ., agric. engin., farm management & valn., hort., plant & animal sci., soil, vet. sci. and wool res.

The COLLEGE FARMS comprise approx. 2250 acres, 1412 acres being situated at the coll. and 838 acres 8 mls. distant at Ashley Dane farm. Special facilities are available for sheep and plant res. on a field scale. Full facilities are available for teaching hort.

The CROP RESEARCH AND BOTANY DIVISIONS (D.S.I.R.), which are the main centres in N.Z. for plant breeding and bot. study, are sited contiguous to the coll. Both these instns., together with other sub-stns. of D.S.I.R. associated with them, co-operate with the coll. in the provision of material for teaching and res.

The WOOL RESEARCH ORGANIZATION, established on a site beside the coll., collaborates with the coll. on a natl. res. programme.

The TUSOCK GRASSLANDS AND MOUNTAIN LANDS INST., established at the coll. under a separate cttee. of management, is responsible for the investigation of various aspects of management of the tussock grasslands of New Zealand and the

development of techniques to bring about the more protective and stabilizing cover of vegetation and soil conservation. It also facilitates co-ordination of res. and the dissemination of information.

**RESEARCH.** Investigations are proceeding in soil sci., the various major fields of plant sci. and animal sci., agric. econ., farm management & val., and agric. engin. Facilities are available for postgrad. study and res. in these fields. In 1962 a spec. res. unit in agric. econ. sponsored by the D.S.I.R. was established.

**ADMISSION.** Overseas students desiring to be admitted *ad eundem status* to any of the degree courses at the coll. should supply full details of the undergrad. or grad. course already taken. Subsequently, formal appln. must be made to the registrar of the Univ. of Canterbury. Non-members of the univ. may be admitted to the dipl. courses, details of prerequisite qualifs. being obtainable from the coll. registrar.

**FIRST DEGREE** (of Univ. of Canterbury) BAgr, BAgr(Hort)—3 yrs; BAgrSc, BAgrSc(Hort)—4 yrs.

**HIGHER DEGREE** (of Univ. of Canterbury). MAgrSc, MAgrSc(Hort)—normally 1 yr. following the BAgrSc course, PhD—a 2-yr. full-time course open to candidates who have been admitted to a master's degree of Univ. of N.Z. (either by exam. or by admission *ad eundem status*) at the standard of 1st or 2nd class honrs.

**DIPLOMA** Awarded by coll. Valuation & farm management, agric. engin.—advanced courses of 1 yr. which must be taken after appropriate

prerequisite courses, agric, hort—2-yr. courses together with addnl. practical experience. Wool-classing—1 session.

**CERTIFICATE.** Awarded by Univ. of Canterbury. Any matriculated person may take a course in any one or more subjects of the degree courses for Univ. of Canterbury cert. of proficiency in that subject or subjects. Awarded by coll. Wool-classing.

**OTHER COURSES.** Intensive general course in agric.—1 yr. after 3 yrs' practical experience; sp. courses for 2nd-yr. fig. coll. students in agric. and for soil conservators, various short courses in agric. and hort. subjects.

**FEES.** Tuition fees: PhD, £63; master's degrees, £37.10s.; bachelor's degrees, dipl. courses and intensive course in agric., £67.10s.; wool-classing course, £36; short courses, £3 per wk.

**ACADEMIC YEAR.** March to Nov. 3 terms of 9, 10 and 12 wks.

**STUDENT RESIDENCE.** Accomms. for approx. 300 men and women students in 3 residential halls. Fees £4.18s. 6d. per wk.

**STUDENTS' ASSOCIATION.** The assoc. caters for the athletic and social side of the student's life. Normal facilities available for sport.

**PUBLICATIONS.** *Calendar* (3s.); *Annual Review* (7s. 6d.); *Chamber of Commerce Bulletin* (10s. 3d.); *Lincoln Coll. Farmers' Conference Proceedings* (7s. 6d.); *Life and Work at Canterbury Agric. Coll.* (the first 75 yrs. of the agric. coll. at Lincoln), compiled by I. D. Blair (Caxton Press, Christchurch, 1956).

## GENERAL INFORMATION

Founded by ordinance of the Otago provincial council in 1869, with power to grant degrees in arts, med., law and music, the univ. was opened in 1871. By an agreement effected in 1874, the univ. agreed to hold in abeyance its power of granting degrees, and to become affiliated to the Univ. of New Zealand, in which it ranked as one of the four constituent instns. The law fac. originated in 1873, the med. sch. in 1874, the sch. of mines in 1878, the dent. sch. in 1907, accountancy lectures and the sch. of home sci. in 1911, the theol. fac. in 1945 and the sch. of phys. educn. in 1948.

In 1961 the University of New Zealand was disestablished, and the power to confer degrees was restored to the University of Otago by the University of Otago Amendment Act 1961.

**CONSTITUTION** The govt. of the univ. is vested in the council, on which are represented the senate, teaching staff, students' assocn., grads. (convocation) and a number of educational and other bodies; the governor-general-in-council nominates 3 members. The council is advised on academic matters by the senate.

**INCOME** (1961). Total. £1,109,204. Gen. univ. funds, £847,301 (govt. grants, 86 per cent; student fees, 8 per cent; gifts, bequests, 1 per cent; other sources, 5 per cent); res. scholaps and sp. funds, £231,850; allied instns. (adult educn.), £30,053.

**FACULTIES AND DEANS** *Arts & music*, Prof. G. R. Manton (classics); *comm.*, Prof. T. K. Cowan, *dent.*, Prof. Sir John Walsh (oral surg.); *home sci.*, Prof. Patricia D. Coleman; *law*, Prof. F. W. Guest, *med.*, Prof. E. G. Sayers (therapeutics); *sci.*, Prof. D. B. Sawyer (maths.); *theol.*, Prof. G. J. Williams; *theol.*, Rev. Dr. J. Henderson.

*Sch. of phys. educn.*, dir., Assoc. Prof. P. A. Smithells.

**UNIVERSITY PRECINCT** The main bldgs. are on the original univ. site, but the med. sch. has developed so as to be nr. the Dunedin hosp., about 4 ml. from the univ. site. The devel. of new bldgs. is being planned so that a continuous univ. precinct will link these 2 sections, using an existing public reserve on which the Otago museum stands. The whole area is in a residen-

tial district close to the shopping area of the town, and the regional planning authority of the city council has approved the univ. plans and zoned the area accordingly. The univ. district, incl. the city of Dunedin (pop. 105,053), comprises the land districts of Otago and Southland (pop. 270,067), but students in considerable numbers come from all parts of N.Z. to attend the sp. schs.

**LIBRARIES** Main library, incl. deptl. and class libraries, 166,588 vols.; med. library, 40,000 vols., also the Hocken collection of books, pamphlets and a large collection of MSS relating to hist. of N.Z. and the Pacific.

**LABORATORIES, MUSEUMS, FIELD STATIONS** Labs. in all sci., med., dent., mining and home sci. depts. Deptl. museums in art, pathol. and geol. Marine biological lab., Portobello (10 miles from Dunedin).

**TEACHING HOSPITALS** Dunedin Public; Wakari, Queen Mary Maternity; Paradise, Ashburn H. (psychiatric), Senciff Mental; Christchurch Public; Princess Margaret; Cashmere; Burwood; Sunnydale Mental; Wellington Public; Hutt; Auckland Public, and in Auckland city, Cornwall, Glenliffe, Middlemore, National Women's.

**ADMISSION** All those who have qualified for admission by passing the univ. entrance exam. or those who have been accredited by their schs. with a pass in this exam. or those who have secured an equivalent overseas qualif. are accepted without selection excepting for professional classes in med. and dent. and for phys. educn.

*Admission* admission at entrance level is determined by the Universities Entrance Board, P.O. Box 8035, Wellington, following individual application. Special conditions govern entrance to professional classes in the facs. of med. and dent., in which annual admissions are limited to 120 and 60 respectively, and entrance to the sch. of phys. educn., which admits up to 50 students annually. Non-members of the univ. if over 16 yrs. of age, are admissible to most classes.

ACADEMIC YEAR. March to Nov.: 3 terms of 9, 10, 7 weeks.

ADULT EDUCATION. This dept., financed through natl. council of educn., undertakes general tutorial classes in Dunedin and Invercargill, and in country districts throughout the land district of Otago and Southland. Through these, and specialized work carried out by drama, music and home sci. extension tutors, community activities and appreciation of the arts are developed. Special short 'summer schools' in poetry and drama have been held, but no regular vacation courses are offered.

PRINCIPAL 'OPEN' AWARDS. Students who have univ. entrance qualif. qualify for fees bursaries. Those who have qualified for entrance and gained a higher sch. cert. after an additional yr. at sch. are entitled to hold fees and allowances bursaries which include a boarding allowance where applicable. Continuance of bursaries is dependent on exam. results.

PRINCIPAL 'OPEN' POSTGRADUATE AWARDS. Commonwealth Scholarships and Fellowships (see Appendix VII), and Research Fellowships. Applicants for awards must be made to the Secretary, University Grants Committee, P.O. Box 8035, Wellington.

GRADUATES' ASSOCIATION. Univ. of Otago graduates' assocn. publishes annually a *Prec-Chancellor's Newsletter to Graduates*.

## ASSOCIATED COLLEGE

MASSEY UNIVERSITY COLLEGE OF MANAWATU, *see* p. 778.

## GENERAL INFORMATION

Victoria Univ. of Wellington was estab'd in 1957 by an amendment act which reconstituted Victoria Univ. Coll. and declared the univ. to be a constituent instn. of the Univ. of N.Z. The univ. became autonomous in 1962 following dissolution of Univ. of N.Z. The former instn., Victoria Univ. Coll., was the last of the 4 main constituent colls. of the Univ. of N.Z. to be estab'd. It thus completed, apart from special provision for agric. teaching, the general structure of the country's instns. for univ. work. In 1889 Sir Robert Stout, then premier, introduced a bill to found a coll. serving the Wellington, Hawke's Bay and Taranaki districts. It was Stout's hope that the Wellington coll., being at the seat of govt. and of the court of appeal, might specialize in the teaching of law, pol. sci. and hist., as well as in some depts. of sci. The bill passed the house of representatives, but was shelved by the legislative council. A new ministry coming into office in 1888, the matter lapsed for 7 more yrs., in spite of the constant urging of the univ. senate and court of convocation. In 1894 Stout again came forward with a 'Middle District of New Zealand Univ. Coll. Bill'—the Middle District now comprising not merely Wellington, Hawke's Bay and Taranaki, but Nelson, Marlborough and Westland as well. No provision could be made in a private member's bill for the expenditure of money and though the bill was finally passed and the govt. even apptd. certain members of a coll. council, no further action was taken. The final step was taken by Mr Seddon, the premier, on his return from the diamond jubilee celebrations. His Victoria College Act, passed on Dec. 22, 1897, founded the coll. 'in commemoration of the 60th yr. of the reign of H.M. Queen Victoria'. It was to be a liberal foundation, bringing univ. educn. within the reach of the working classes. The coll. was affiliated to the Univ. of N.Z. in 1899. It was endowed by govt. with 4000 acres. Coll. bldgs., towards which govt. gave £31,000, were opened in 1905; addnl. wings for library, etc., and for phys. erected 1921-22; new admin. and hool. blocks erected 1937-39; 3rd storey to hool. block completed in 1954. Six-storey sci. block completed in 1958. Student union bldg. and extra. to admin. bldg. completed 1961.

The govt. approved of a grant to the univ. for the establishment in 1960 of a branch coll. at Palmerston North, a city some 95 miles N. of Wellington, where Massey Coll. was situated. This branch coll. was known as Palmerston North Univ. Coll.

In 1962 the Massey Univ. Coll. of Manawatu

Act was passed merging Palmerston North Univ. Coll. and Massey Coll. into one univ. coll. of that name. This act, which came into force on Jan. 1, 1963, associated the coll. (*see* pp. 775-778) with the Victoria Univ. of Wellington for the purpose of granting degrees.

**CONSTITUTION.** The council, the governing body of the univ., consists of the vice-chancellor (*ex officio*) and 17 other members apptd. or elected as follows: 2 by the governor-in-council, 4 by the court of convocation, 2 by the professional bd., 1 by the teaching staff, 2 by the Wellington city council, 2 by members of educn. bds., 1 by governing bodies of secondary schs., 2 by teachers in primary schs., 1 by teachers in secondary and day technical schs., 1 by the executive of the students' assocn.

**GENERAL INFORMATION**

Massey Coll. (named in honour of the Rt. Hon. W. F. Massey, prime minister of New Zealand, 1912-25) was established under the New Zealand Agric. Coll. Act in 1926 as the result of an agreement between Victoria Univ. Coll., Wellington, and Auckland Univ. Coll. to amalgamate their respective schools of agric. and to establish the new coll. in the Palmerston North-Marton area. In 1927 an amending statute, the Massey Agric.

Coll. Act, was passed, and the coll. establd. with that title. Further amending and consolidating acts, the Massey Agric. Coll. Act 1952 and the Massey Coll. Act 1961, were subsequently passed.

In recent yrs. tuition in fields other than agric. (incl. food technol., stage 1 units for BSc and, in 1962, vet. sci.) has been offered.

In 1960 a branch of the Victoria Univ. of Wellington was establd. in Palmerston North on

a site 1 mile from Massey Coll. to provide tuition in selected 1st-yr subs. for the degree of BA, particularly for students of the Palmerston North Teachers' Coll., and to provide extra-mural tuition in similar subs. for the whole of New Zealand, and the Pacific Islands. Subsequently the number of subs. offered was increased, and some were developed to stage II level.

In 1962 the Massey Univ. Coll. of Manawatu Act was passed merging these 2 institutions into one univ. coll. of that name. This act, which came into force on Jan. 1, 1963, associates the coll. with the Victoria Univ. of Wellington for the purpose of granting degrees.

**CONSTITUTION.** The coll. is governed by a council consisting of the principal and 14 members elected or appointed as follows: 4 by the governor-general, 1 by council of Victoria Univ. of Wellington, 1 by Palmerston North City Council, 3 by count of convocation, 2 by professional bd., 1 by teaching staff, 1 by students' assoc. and 1 by governing bodies of post-primary schools. Up to 3 additional members may be co-opted by the council itself.

**INCOME (1961).** *Massey Coll.* Total £375,484 (farms, etc., 45% per cent., govt. grants, 44% per cent., fees, 3% per cent., endowments, 0.5 per cent., res. grants, 4.8 per cent.; *man.*, 1.9 per cent.). *Palmerston North branch of Victoria Univ. of Wellington.* Total £55,000 (govt. grants, 89 per cent., fees, 11 per cent.).

**LIBRARY.** \$1,300 vols 306 periodicals.

**FACILITIES.** *Main site* bldg contains lecture rooms, teaching and lab. labs, library, assembly hall, studies, common rooms, etc. Lecture rooms and studies for econ.; hort. and sheep husb. depts. are situated in an adjacent bldg. A vet. clinic comprising lecture room, lab., X-ray room, operating theatre and studies, houses vet. dept. Other bldgs. for wood teaching, engin. and carpentry instruction, stock demonstration, machinery demonstration. On the Hōkōwhatu site the arts bldg. contains library, lecture rooms, etc., while Cooen Bach House provides staff accomm.

**THE COLLEGE FARMS** comprise some 4100 acres, 1250 acres being situated at the coll., 1050 acres 8 miles distant and 1800 acres 60 miles distant. Full facilities are available for teaching hort.

**ADMISSION.** Overseas students desiring to be admitted of *equivalent status* to any of the degree courses at Massey Univ. Coll. of Manawatu should supply full details of the undergrad. or grad. course already taken. Subsequently, formal appln. must be made to the sec., Universities Entrance Bd., Wellington. For other than degree courses, no exam. qualif. is required, but certain pre-course practical experience is called for.

**FIRST DEGREE** (of Victoria Univ. of Wellington) BAgr, BAgr(Hort), BA—3 yrs.; BAgrSc

BAgrSc(Hort), BFoodTech—4 yrs.; BVetSc—5 yrs.

**HIGHER DEGREES** (of Victoria Univ. of Wellington) MAgSc, MAgSc(Hort), MAgSc(Dairy Tech), MFoodTech, MVetSc—normally 1 yr. following the qualifying bachelor's degree. PhD—2-3 yrs. full-time course open to candidates who have been admitted to a master's or hon. degree at 1st or 2nd class level.

**DIPLOMAS.** *Awarded by the coll.* dairy engin., dairy farming, hort., sheep farming, agric. sci. (postgrad.)—1 yr. Dairyeng. (buttermaking, cheesemaking, market milk)—3 winter terms; wool and wool-classing—2 yrs.

**CERTIFICATES.** *Awarded by Victoria Univ. of Wellington* univ. cert. of proficiency (any matriculated student may take a course in any one or more subs. of a degree course for a cert. of proficiency in that sub. or subs.) *Awarded by the coll.* poultry farming, 1 yr.

**OTHER COURSES.** Various short courses available.

**RESEARCH.** Facilities available for postgrad. study or res. in most branches of agric., hort. and food sci.

**FEES.** PhD, £63; master's degrees, £37 10s.; bachelor's degrees (agric., hort., and food technol.), £67 10s. p.a.; arts, £15-18 per sub.; sci., £25-48 per sub.; Diploma in sheep farming, dairy farming, hort., £67 10s. p.a.; wool-classing, £37 10s. p.a.; dairying, £31 10s. p.a.

**ACADEMIC YEAR.** Feb. to Oct. 2 terms of 11 wks. each, one of 7 wks.

**THE DAIRY RESEARCH INSTITUTE AND THE GRASSLANDS DIVISION AND PLANT CHEMISTRY LAB. (D.S.I.R.),** which are the centres for N.Z. for dairy and grasslands res. respectively, are located at the coll. These instns. co-operate with the coll. in the provision of material for teaching and for postgrad. res.

**STUDENT RESIDENCES.** Three men's hostels accommodating 320. One women's hostel accommodating 25. Fees, per week, £4.10s. Postal address: Massey Coll. P.O., Palmerston North.

**STUDENTS' ASSOCIATION** caters for the athletic and social side of the student's life. Excellent facilities available for cricket, tennis, swimming, athletics, hockey, shooting, football, etc.

**PUBLICATIONS.** *Calendar* (Feb.), free; *Postgrad. Courses and Facilities for Res.*, free; *Sheep Farming Annual* (12s. 6d.) and *Dairy Farming Annual* (10s.) (proceedings of annual meetings of sheep farmers and dairy farmers held at the coll.), (Oct.-Dec.). Also a series of tech. publications.

# UNIVERSITY INSTITUTIONS IN NIGERIA

[Contributed by Sir Alexander Carr-Saunders, formerly Director of  
the London School of Economics]

The first institution of university rank to be established in Nigeria was University College, Ibadan, founded in 1948 when teaching began, and it is proposed that the college should become a university in the near future\*. When the college was founded the constitution of Nigeria was unitary, and the college was created by the central government. Under the present constitution Nigeria is a federation comprising three constituent regions, north, east and west, together with the federal territory of Lagos; higher education is on the concurrent legislative list, and it is therefore open to the federal government and the regional governments alike to create universities. The position of the single pre-existing university institution had to be defined under the constitution and it was scheduled as a federal responsibility.

The legislature of the eastern region, making use of its powers under the constitution, created the University of Nigeria in 1955; this university is situated at Nsukka, and teaching began in 1960. The Commission on Post-School Certificate and Higher Education in Nigeria (called the Ashby commission after its chairman, Sir Eric Ashby) reported in 1960 and recommended the foundation of two more universities, one in federal territory at Lagos and one in the northern region at Zaria. Following these recommendations, the university of the northern region (known as Ahmadu Bello University) was set up in 1961 by the government of that region, and the University of Lagos in 1962 by the federal government; moreover in 1961 the government of the western region founded the University of Ife. All these universities have provisional constitutions. Thus three new universities have come into existence, one federal and two regional, which open in the autumn of 1962. The transformation of University College, Ibadan, into a full university will bring the total of Nigerian universities to five.

In 1961 the federal government issued a sessional paper which contemplated a total enrolment of 10,000 students in all Nigerian universities by 1970. The paper stated that 'universities should have autonomy in the management of their affairs' and that 'the overall national interest' would be preserved by the statutory establishment of (1) the National Universities Commission, (2) the Inter-Regional Man-Power Board and (3) the All-Nigeria Academic Council. The first of these bodies will make plans for the balanced development of universities, will examine the financial

needs of the universities, will receive block grants from the federal government and will allocate such grants to the universities in accordance with need. The second body will survey periodically the nation's man-power needs and will formulate programmes for man-power development through university expansion. The third body, whose membership will be drawn from the academic staff of the universities, is 'designed to ensure the maintenance of the highest academic standards'. These proposals thus foreshadow a system under which there will be federal universities, created or taken over by the federal government and wholly financed by it, and universities created by regional governments which will be eligible for financial assistance from the federal government through the National Universities Commission. The sessional paper states that 'the total capital expenditure for the period 1961-1970 is likely to be of the order of £75 million and the total recurrent cost in 1970 of the same order'.

**CONSTITUTION** The constitutions of the University of Nigeria and University College, Ibadan, provide for a council which is the supreme governing body. In the case of the former, the council has nine members: the chancellor, the vice-chancellor, two representatives of the senate and five appointed by the governor-in-council. There is a senate composed of the vice-chancellors, the professors, the deans of faculties, the heads of colleges, the librarians, the director of extra-mural studies and three members of academic staff nominated by senate; it is 'responsible to the university council for the development and supervision of all academic matters', and no degrees or awards can be conferred without its concurrence. Provision is made for seven faculties of which six now exist; the faculties consist of colleges and departments of which 37 are contemplated and 31 now exist. The council of University College, Ibadan, has 24 members of whom seven are members of the academic staff, of the remainder six are nominated by the regions (two by each region), three by the governor-general, two by the Inter-University Council for Higher Education Overseas, one by the visitor and three co-opted, together with the chancellor and the chairman. There is a senate consisting of all the professors and certain other members of the academic staff; it is laid down that the senate 'shall manage the educational affairs of the college and act for the college in all academic matters'. There are five

\* Late 1961: the college received independent university status as the University of Ibadan under an act passed by the Federal parliament of Nigeria in December 1962.

faculties, a department of extra-mural studies, an institute of education, an institute of child health and the Nigerian Institute of Social and Economic Research. When the college becomes a university the constitution will need revision, but the revision needed is slight since, except for the lack of power to grant degrees, the college has all the attributes of a university. The provisional constitutions of the universities of northern Nigeria, Ife and Lagos include councils and senates (or academic boards), and to the latter falls full responsibility for academic matters. The constitutions of all these Nigerian university institutions resemble fairly closely those of the newer British universities; they are all autonomous, and they are also all unitary though the medical school at Lagos is a separate corporation under the university. But, while unitary in constitution, the universities of northern Nigeria, Ife and Nigeria each have centres, situated a long way from the main campus, where certain work will be carried on; the first has a centre at Kano as well as at Zaria, the second a centre at Ibadan as well as at Ife, the third a centre at Enugu as well as at Nsukka.

**PRE-UNIVERSITY EDUCATION.** The school system is organized on the English pattern of primary and secondary schools. Taking the country as a whole a large proportion of the children enter primary schools, but in some areas the percentage of pupils who complete primary education is small; in the northern region the proportion of children of school age who are at school is less than elsewhere. Secondary schools are far less well developed. The Ashby commission found that there were about 650,000 pupils in the first year of primary school but only about 12,300 in the first year of secondary school; moreover there were only 537 pupils in the whole country doing sixth form work in schools. Thus the foundation provided by the secondary schools, on which higher education rests, is slender, but so great is the enthusiasm for education that thousands of Nigerians, after preparation gained outside schools, enter each year for the General Certificate of Education or another similar certificate.

**ADMISSION:** The minimum entrance qualifications normally demanded by University College, Ibadan, are those required by the University of London; students are also admitted at concessional level, that is with five ordinary level passes at a G.C.E. examination, but in that case must spend four years over the degree course. Admission to the University of Nigeria is by way of a West African School Certificate, the G.C.E. at ordinary level with six subjects, or the G.C.E. with two advanced level and three ordinary level subjects. The degree course usually lasts four years, but those with the last entrance qualification can graduate in three years. The universities of Ife and Lagos demand a Higher School Certificate or a G.C.E. with at least two advanced level and three ordinary level subjects. Ahmadu Bello University normally requires, for direct entry to

degree courses, at least two passes at the advanced level in the G.C.E. (or Higher School Certificate equivalent) in selected subjects according to faculty requirements; as a temporary measure, two-year preliminary courses are offered in arts and science, admission being on basis of five credit passes at ordinary level. In all these universities selection is made from among qualified applicants.

**DEGREE COURSES.** University College, Ibadan, is in special relationship with the University of London. Students work for degrees of that university, the university permits extensive modification of the London syllabuses to suit local needs and conditions, but the standard of London degrees is maintained. Members of the staff of the college co-operate with London examiners in setting the papers and marking the scripts, but the final adjudication rests with the London examiners. Courses for the BA are offered leading to a general degree and to honours degrees in classics, English, geography, Greek, history, Latin and mathematics, in the faculty of science there are courses for the BSc leading to an honours (general) degree in science, and to honours degrees in botany, chemistry, geography, mathematics, physics and zoology. Degree courses are also offered in agriculture (BSc(Agric)), divinity (BD), economics (BSc(Econ)) and medicine (MB BS). The course in medicine lasts for six years, all other degree courses take three years (general degrees of BA and BSc, two years). The college offers in addition courses leading to a postgraduate certificate (1 year) and a diploma (1 year) in education, and to diplomas in child study (18 months) and librarianship (2 years). The relation with the University of London will cease as soon as the college becomes a university; it will then provide courses leading to its own degree. The University of Nigeria has stated that, while retaining the traditional subjects of study, its courses are orientated towards 'the day-to-day life of Nigeria and focus upon the social and economic needs of the nation'. The degree course normally lasts four years, and all students attend lectures in the college of general studies which are designed to provide a broad educational basis. There is no distinction between pass and honours courses; honours are awarded for good performance in any degree course. Degrees are awarded on the result of a final examination, but the performance of students in each course is assessed, and those whose performance is poor are not allowed to proceed. Among the degree courses offered, in addition to traditional subjects, are education, fine art, home economics, journalism, physical education and secretarial studies. There are also diploma courses, for example, in secretarial studies which include shorthand and typing. Ahmadu Bello University proposes in due course to offer degrees in agriculture, Arabic and Islamic studies, architecture, engineering, veterinary sciences, and also in the basic arts and sciences. In 1962-63 the University of Ife will offer general and special courses, both with hon-

vars, leading to degrees in agriculture, arts, economics, law and science. During its first session the University of Lagos will provide courses in commerce, law and medicine.

**STAFF.** At the University of Nigeria there are 148 members of the teaching staff, graded as professors, senior lecturers, lecturers and assistant lecturers, some of whom come under a special arrangement from Michigan State University. It is laid down that all vacancies must be advertised. The grading of the academic staff of University College, Ibadan, follows British practice. Vacancies are normally advertised. Salaries are kept generally in line with those obtaining in Great Britain. There is annual home leave and provision for study leave. Teaching methods resemble those in English civic universities, the time available for research is no less than that which falls to the staff of those universities. In 1962 there were 204 members of the teaching staff of the college of whom about a quarter were locally born, about a half came from the United Kingdom, the rest from Commonwealth and elsewhere. The proportion which locally born members of the staff form of the whole staff has been increasing year by year. There are 65 members of the teaching staff (apart from those at the institutes for agricultural research and administration) at Ahmadu Bello University, 44 at the University of Ife, and 30 at the University of Lagos, the grading of these academic staff also follows British practice.

**STUDENTS.** There were 1064 students at the University of Nigeria in 1961-62 distributed between faculties as follows: arts 285, science 230, social studies 339, and technology 270. Most students live in halls of residence of which there are eight; some students are non-residential. The university has an office of student affairs and operates a medical centre. All students must join the students' union. Fees are £80 for tuition, £30 for board and residence and £10 for extras. At University College, Ibadan, there were 1647 students in 1962, all of whom live in one of the five halls or in one of the two hostels, distributed by faculty as follows: agriculture 112, arts (in-

cluding divinity, economics and education) 773, engineering 138, librarianship 10, medicine 260, and science 354. Membership of the students' union is compulsory; a new building for the union was opened in 1960. There is a comprehensive medical service. Total fees for tuition, board, residence and extras vary from £127 (arts) to £426 (medicine). In the case of both institutions there are college scholarships, state scholarships and dons scholarships; there are also awards made by the federal and regional governments. It is estimated that well over 90 per cent of the students are in receipt of some form of award. For their first sessions (1962-63) Ahmadu Bello and Lagos universities expected enrolments of about 500 and 75 students respectively, fees being £150 p.a. including board and tuition.

The ACADEMIC YEAR begins in October and is divided into three terms on the British pattern.

**EXTRA-MURAL STUDIES.** At University College, Ibadan, there is a department of extra-mural studies whose activities extend throughout the federation, but it is likely that the additional universities will in due course take over the work in their areas. The department organizes weekly tutorial courses of which there are over 100 each year, residential courses and week-end schools. The schools are conducted all over the federation; the residential courses are held at the college in vacations.

**OTHER INSTITUTIONS OF HIGHER EDUCATION.** There are four technical institutes in the federation; the seasonal paper of the federal government proposes that facilities for technical education should be greatly increased. The only other type of institution for higher education is the teacher training college; there are more than 300 such colleges, mostly small in size, and of very different standards.

**FURTHER INFORMATION.** The most useful source of information relating to higher education in Nigeria is the report of the commission on post-school certificate and higher education in Nigeria published in 1960 by the Federal Ministry of Education, Lagos, under the title *Investment in Education*.

## GENERAL INFORMATION

The Commission on Post-School Cert. and Higher Educn. in Nigeria (Aiyby commission) recommended in 1960 the establishment of a univ. in northern Nigeria, but added that a further commission should advise on its scope and activities. Accordingly a commission of the Inter-University Council (Cair-Saunders commission) reported in April 1961. A provisional council of the Univ of Northern Nigeria was established in April 1961, and a law establishing the Ahmadu Bello Univ and defining its constitution was passed in June 1962. The univ. will open in Oct 1962 with about 500 students.

The univ. will have its main centre at Zaria (capital of Zaria province; a walled city founded in the 16th century; located 200 miles S of the nearest airport at Kano; pop 30,000, 2000 feet above sea level). The univ. will absorb the following instns. —

(a) The Zaria branch of the *Nigerian Coll of Arts, Sci. and Technol* (which is being disbanded).

The existing fac. of engn (which is the fac of engn. of Univ Coll. Ibadan, and in 40 min. with the Univ. of London) and the depts. of archit. and of fine art, which are at present conducting courses of degree standard, will be transferred to the univ. On this site (750 acres, 7 miles N.W. of Zaria), which has residential accomm. for 500 men and 30 women students and housing for 125 ar staff, will be developed the facs. of arts and sci and probably agric.

(b) The *Inst. of Administration*, in Zaria township (100 acres; residential accomm. for 240 students and 24 staff, classroom accomm. for 480). This has at present a large programme of in-service tg. courses, residential and extramural, in pub admin. for govt. and local govt. employees, and also gives introductory courses for Bar exams. The present courses will be continued, a dipl. course in pub. admin. introduced and the fac. of law initially located here.

(c) The *Res. and Special Services Station of the*

*Ministry of Agric* (northern Nigeria), at Samaru (adjoining the Nigerian Coll. site), with an out-stn. at Shika (4 miles from Samaru), and other out-stns. There is a res. staff of 50 with appropriate lab., office and residential accomm. The total area (incl. exper. farm) is 2500 acres at Samaru and 800 at Shika. This stn. will carry out both basic and appl. res., and will work in close co-operation with the ministry of agric. in field trials and extension work.

(d) *The School for Arabic Studies* in Kano. This, at first named Ahmadu Bello Coll. and now re-named Abdullahi Bayero Coll., will be transferred to a new site of about 200 acres, and when bldgs. are erected will house the fac. of Arabic and Islamic studies, and probably the fac. of laws. The only bldgs. on this site at present are 20 houses, but student hostels for 400 and academic bldgs. are being planned.

**CONSTITUTION** The supreme governing body is the council, responsible for gen. policy and finance. It includes lay members, members of senate and of congregation, and has extensive powers of co-optation, which can extend to overseas members. The senate includes all profs. and readers, the dir. of insts., the librarian, and rep. of congregation, and is responsible for all academic matters. For each fac. there is a fac. bd. responsible for details of syllabuses and exams. There is a congregation of all grad. members of staff. The univ. is required by law to appoint external examiners 'of high academic standing' for all degree exams.

The Inst. of Admin. and the Inst. for Agric. Res. (as the res. inst. will become) will be semi-autonomous insts. within the univ., under the control of the council but not directly under the senate. The dir. in each case will have an advisory bd. which has govt. as well as univ. reps., in recognition of the fact that the insts. have the duty of providing certain direct services to govt.

**INCOME.** Details not yet available. Annual recurrent expenditure of the instns. to be absorbed totalled £850,000 in 1961-62.

**FACULTIES** Initially, facs. of agric. & vet. sci., Arabic & Islamic studies, archit., arts, engin., laws, sci.

**LIBRARY** At present, 35,000 vols. at Nigerian Coll., 20,000 at Inst. of Admin., 5000 at Inst. for Agric. Res., and 5000 at Sch. for Arabic Studies.

**LABORATORIES, ETC.** Inst. for Agric. Res. (see p. 785) Fac. of engin., well-equipped teaching labn. and small high-voltage lab. Magnetic observatory. Meteorological stn.

**ADMISSION REQUIREMENTS.** For direct entry to degree courses, at least 2 passes at advanced level of G.C.E. (or Higher Sch. Cert. equivalent) in selected subjects according to fac. requirements, except in archit. and in fine art, where admission is by selection on basis of aptitude tests from candidates with at least 5 credit passes at ordinary level or equivalent.

As a temp. measure 2-yr. prelim. courses are offered in arts and sci., admission being by selection from candidates with 5 credit passes at O level.

**FIRST DEGREES.** Detailed structure not yet fixed. Proposals are for broadly based degrees, with hon. in arts and sci. A 3-subj. degree may include a profess. subj. (educn. or pub. admin.). Specialization will be possible in a 4th yr., possibly leading to MA or MSc. Other degrees: BSc(Eng), 3 yrs., BA(Sci), 5 yrs., degree in fine art, 4 yrs.; BSc(Agric), 3 yrs.; degree in vet. sci., 5 yrs.; LLB, 3 yrs.

**DIPLOMAS.** Pub. admin., 2 yrs.

**CERTIFICATES.** Educn., 1 yr. postgrad.; art teachers, 1 yr.

**HIGHER DEGREES** will be introduced in due course.

**FEES.** £150 p a., incl. bd. and residence.

**ACADEMIC YEAR.** Oct. to June: 3 terms.

**STAFF RESIDENCES.** All members of st. staff are provided with pt.-furnished houses at reduced rent.

**STUDENT HEALTH SERVICE** is being inaugurated, and free med. attention is provided to staff and families. There will be a resident med. officer.

**STUDENT UNION** in gen. charge of student affairs.

**STUDENT NUMBERS** expected for opening session (1962-63) are, by fac.: engin., 175; archit., 100; fine art, 70 (these incl. all yrs. in existing courses being taken over); arts, 70; sci., 40; agric., 10; vet. sci., 10; law, 15; pub. admin., 30. In trg. courses (Inst. of Admin.), 750 residential and 3000 extra-mural in courses of varying lengths.

#### GENERAL INFORMATION

The coll. was opened in 1948 with a provisional scheme of govt. In 1954 assent was given by the governor on behalf of H.M. the Queen to an ordinance enacted by the legislature of Nigeria, the purpose of which was to reconstitute the coll. on a more permanent basis as a coll. in special relation with Univ. of Lond.\* for whose degrees the coll. presents its students. New legislation is now before the govt., the purpose of which is to establish the coll. as an autonomous univ. offering its own degrees.

**CONSTITUTION.** The coll. council is the supreme governing body and is charged with control of finance. The senate is an academic body which, generally, manages, and where necessary advises the council upon, the educn. affairs of the coll. In respect of each fac. there is a fac. bd. which deals with courses of study and exams and matters of detail concerning the work of the fac. Fac. bds. are required also to deal with matters referred to them by the senate. The coll. is open to all classes and communities 'without any distinction whatsoever'.

**INCOME.** A grant was made under the colonial devel. and welfare act towards the cost of the permanent bldgs. Total of fed. govt. of Nigeria endowment at yr. ending June 3, 1961, was £1,046,000. Nigerian Cocoa Marketing Bd. endowment, £1,175,000, misc., £59,240, interest (1960-61) on endowments, £120,725; on gen. investments, £14,352, student fees, £300,015, rents, etc., £26,511, res. grants, £4591; univ. bookshops, £2599. Fed. govt. subventions (1960-61), £974,980.

**FACULTIES AND DEANS (1962-63).** Agr., Prof. R. J. Mellroy (agrie. chem. & soil), etc., Prof. Kathleen Collard (maths.), econ. & soc. studies, Prof. R. H. Barback (econ.); med., Prof. J. C. Edeson (chem. pathol.), etc., Prof. J. Grayson (physiol.).

**LIBRARY.** 155,000 vols., 2600 current serial publications. Sp. collections incl. W. African hist. and ethiol. (incl. 150 Arabic MSS.), trop. agric. and trop. med. The lib. is the legal depository for all Nigerian publications.

\* For a note on these 'special relationship' arrangements, see p. 287.

† See footnote to p. 287.

**LABORATORIES, FIELD STATIONS, ETC.** The fac. of agric. has its teaching, res. and admin. bldgs. and its own farm on the coll site. On the farm, grassland res., crop and animal prodn. are actively proceeding and small heads of Zebu and Ndama cattle, as well as poultry, swine, sheep and goats, are maintained. A considerable area is under mechanized cultivation. As part of res. into moisture conditions in Nigeria, measurements of evapo-transpiration at 10 installations, covering the Niger delta to the N. frontier, are being made.

**BOTANICAL GARDENS** planned to expand to 80 acres. Mainly indigenous species grown. *Index rerum* published annually.

**UNIVERSITY COLLEGE HOSPITAL** Recog. for clin. teaching for MB BS of the Univ. of London under special relation with the univ. \*

**INSTITUTE OF EDUCATION** (see also 'Teaching Staff', above). Founded 1956, exists to promote res. into W. African educn., to assist its colls. assoc. with the inst. in solving problems with which they may be confronted, and to train teachers. 3 courses are offered, leading to postgrad. cert. in educn. of Univ. of London, coll. dipl. in educn. and univ. dipl. in child study.

**THE NIGERIAN INSTITUTE OF SOCIAL AND ECONOMIC RESEARCH** (see also 'Teaching Staff', above) is sponsored by the Nigerian fed. govt. and by the univ. coll., with which it operates in close assocn. Its functions are to conduct econ. and soc. res. and to provide a centre for indep. res. workers in Nigeria.

**INSTITUTE OF CHILD HEALTH** Founded 1961 with funds from United Africa Co. received through fed. govt. Its aims are to conduct and co-ordinate res. into problems of child health.

**ADMISSION** There are 2 methods of admission: (1) By passing the coll. entrance exam. Candidates are ordinarily eligible if they have passed the Cambridge sch. cert. exam. with passes at credit standard or obtained a gen. cert. of educn. with passes at ord. level in Engl. and 3 other subs. or equivalent. (2) By direct entry. This is exemption from the entrance exam. and may be applied for by candidates who have satisfied the full minimum entry requirements of the Univ. of London together with the addnl. requirements for entry in specific degree subsj.

**FIRST DEGREES** (of Univ. of London). The coll. has been admitted to a sp. relation with the Univ. of London\*, and courses of instructn. are given in preparation for degrees of that univ. The coll. staff co-operate with the Univ. of London in preparing syllabuses and in the exams. 2 yrs.—BA gen., BSc gen.; 3 yrs.—BA hon. (in classics, Engl., geog., Greek, hist., Latin, math.), BSc spec. (in bot., chem., geog., math., phys., zool.), BSc(Agric), BSc(Agric) hon., BSc(Econ), BD; 6 yrs.—MB BS.

\*Teaching for Ibadan degrees of BA, BSc,

BAgric, MB BS, BSc(Econ), BSc(PolSci), BSc(Soc) will begin in the academic session 1962-63. Degree courses other than those in fac. of med. will be of 3 yrs' duration, with hon. in each case. All entrants require full-time residence.

**HIGHER DEGREES** (of Univ. of London). Postgrad. and res. facilities are available in arts, sci. and agric. The coll. has started a 1-yr. course for the degree of MSc(Agric). Full-time members of the teaching staff may register as internal students for the PhD degree of the Univ. of London.

**DIPLOMAS** (of the coll.) 1 yr.—educn., 18 mos.—child study, phonetics (See also 'Librarianship Course', below).

**CERTIFICATE** (of Univ. of London) 1 yr.—postgrad. cert. in educn.

**LIBRARIANSHIP COURSE**, 1 yr., leads to registration exam. of Library Asscn., London, and (2 yrs.) coll. Dipl Lib.

**FEES** for bd. and tuition: Agric., £132-£187 p.a.; arts, £127-£152 p.a.; educn., £180 p.a.; med., £162-£262 p.a.; sci., £132-£162 p.a. Postgrad., £200. All students are resident.

**ACADEMIC YEAR** Oct. to June, 3 terms.

**LANGUAGE OF INSTRUCTION**. English.

**ADULT EDUCATION** The dept. of extra-mural studies arranges classes throughout the 3 regions of Nigeria, the work being financially supported by the fed. and regional govts.

**VACATION COURSES**, involving residence in the coll., are conducted during long vac. by dept. of extra-mural studies.

**SCHOLARSHIPS**, etc. Fees plus £75 p.a. for remainder of course awarded by coll. on prelin. exam. and on sess. exam. for direct entry in any fac., Nigerian fed. govt. awards annually 10-15 state scholrs. covering fees, vacation allowances and allowance of £70 p.a. for prelin. & degree course (£80 clm. med.), Nigerian Cocos Marketing Bd. **GENERAL INFORMATION**

The Univ. is an entirely independent instn governed by a council establd. by Univ. of Ife (Provisional Council) Law, 1961.

The Univ.'s first students are being admitted in Oct. 1962 to its 1st-yr. branch (housed in the Ibadan branch of the former Nigerian Coll. of Arts, Sci. & Technol.).

**CONSTITUTION.** Governing body of Univ. is council, composed of following members apptd. by govt. in council: chairman, vice-chancellor, pro-vice-chancellor, not less than 5 nor more than 9 other members not employed on academic or admin. staff of Univ., and registrar as secretary. There are also 2 members of academic bd. selected by the bd. Academic bd. is empowered to regulate teaching, academic policy and advancement of res. of Univ., and to deal with any other matters assigned to it by council.

**INCOME.** Govt. of western Nigeria allocated initial sum of £1,000,000 from its estimates for 1961-62. It is also envisaged that the Western Region Marketing Bd. will donate a substantial sum for bldg. of Univ.

**FACULTIES.** Agric., arts, econ. & soc. studies, law, sci. Inst. of African Studies. During 1st quinquennium, fcs of engin. and med. will be developed in addition.

**LOCATION.** Ife, which will be the seat of the new Univ., is an ancient town with important historical and archaeological associations. It lies 25 miles N.E. of Ibadan, headquarters of western Nigeria, and 143 miles from Lagos, capital of the fed. of Nigeria. Site of Univ. is about 3 miles

from Ife town and comprises 16,000 acres of good agric. land. There is a branch of the Univ. at Ibadan, which will be devoted mainly to the fcs of engin.

**ADMISSION.** The following are likely to be the minimum qualifs. for entry: (a) Cambridge Higher School Cert. (with 2 subs. at principal level and 3 other subs. at subsidiary level); (b) General Cert. of Education (with 2 subs. at advanced level and 3 other subs. at ordinary level); (c) any other equivalent qualifs.

## GENERAL INFORMATION

The Univ. is an independent instn. governed by a council established by the Univ. of Nigeria Law 1961.

The first undergrads came into residence in Oct 1962.

CONSTITUTION. The paramount governing body of the Univ. is the council which is composed of the chancellor, vice-chancellor, 5 persons apptd by the governor-in-council and 2 persons representing the senate. The senate, which deals with academic matters, consists of the vice-chancellor, the deans of the several facs., the hds. of the several colls, the profs. of the Univ., the librarian, the dir. of extra-mural studies and 3 members of the academic staff nominated by senate.

INCOME. The income of the Univ. is derived from a 'Univ. of Nigeria Fund' which formerly consisted of an annual grant of half a million pounds from the Eastern Regional Marketing Bd. — a statutory corporation created by the govt. of eastern Nigeria; the grant to the Univ. is now made direct by the govt. of eastern Nigeria. The fund, which was set up as a result of an eastern regional directive of 1953, totalled £2,500,000 at Dec. 31, 1959, and in 1962 stands at £4,225,000. An addnl. source of income is expected from the Natnl. Univs. Commission.

FACILITIES. Arts, law, res., sci., soc. studies, technol.

LOCATION. The Univ. is located in Nsukka, a town 40 miles from Enugu, the admin. capital of eastern Nigeria. A total area of 3000 acres of land has been acquired for use by the Univ. and a further 15,000 acres is contemplated for use by the Univ. as agric. and commercial sites.

LIBRARY. 38,000 vols.

MICHIGAN STATE UNIV. has contributed members of staff for both admin. and teaching purposes. The Agency for Internat. Devel. will contribute to the construction of a continuing education centre and to the devel. of the agric. teaching &

res. centre. The Commonwealth Relations Office (U.K.) and the Peace Corps organisation (U.S.A.) are also contributing to the teaching staff. A yr. Univ. advisory cttee consisting of reps. of the Univ. of Nigeria, Michigan State Univ. and the Univ. of London has been formed; this cttee will report to the Univ. council annually on a wide range of Univ. activities.

ADMISSION. Candidates for admission to a 1st degree course must possess at least one of the following: (a) W. African School Cert (grade 1 or 2) or the old London matric. cert; (b) General Cert. of Educn. at ordinary level in 6 subjs. incl. Engl. lang. and maths. or a sci. subj., all subjs. must have been passed at the same sitting; (c) passes in 2 relevant subjs. at advanced level in the G.C.E. plus passes in 3 other subjs. at ordinary level. (An applicant with passes in 3 relevant subjs. at advanced level requires only one other subj. at ordinary level, an applicant with passes in 4 or more subjs. at advanced level does not need addnl. passes at ordinary level. The subjs. need not have been passed at one sitting); (d) the Higher School Cert. with passes at principal standard in at least 2 relevant subjs. (incl. gen. paper); (e) post-secondary qualifs. above the levels of (a)-(d); (f) qualifs. obtained in other countries and recognized by the Univ. as equivalent to those listed above. Applicants with qualifs. listed under (a) and (b) above must sit a Univ. entrance exam., the results of which will determine whether or not they will be admitted.

No person under the age of 17 yrs. can be admitted to the Univ. as a student.

FIRST DEGREES. The Univ. will award its own degrees. It is proposed that most degree courses will take 4 yrs. Students with good Higher School Cert. (principal standard) or General Cert. of Educn. (advanced level) results in relevant subjs. may be exempted from appropriate 1st yr. courses; in some cases, the total exemption

granted may make it possible for students to graduate in 3 yrs.

Each student must have a major sub- or area of specialization and some minor sub- In addn., all students must attend lectures of the coll. of general studies in humanities, lang and communication, natural sci., and soc. sci.

There is a system of credits, each course being allotted a number of 'credit hours'.

Bachelor's degrees are at present offered in *arts* (Engl., hist., journalism, langs [incl. Eflit, French, German, Hausa, Igbo, Russian, Spanish, Yoruba]), *law*, *sci* (agric., bot., chem., geog., geol., maths, phys., zool.), *sec studies* (accountancy, econ., educn., pol. sci., sociol., theol., vocational educn.), *technol* (engin., fine art, home econ., music, phys. educn., secretarial studies).

**HIGHER DEGREES** The coll. of African studies comes into existence at the beginning of 1962-63. The groundwork is being prepared for master's and doctor's degrees of the univ. There are at present no postgraduate students.

**HONORARY DEGREES** DLit, LL.D., DD, DLit, DSc.

**DIPLOMAS** 2 yrs.—educn.; 3 yrs.—secretarial studies.

**FEES** Inclusive fee for tuition and residence for undergrads: £160 per academic yr.

**ACADEMIC YEAR** Oct to June 3 terms of 10 wks. each.

**LANGUAGE OF INSTRUCTION** English.

**SCHOLARSHIPS** At present many students hold scholps. awarded by the various regional govts. and the fed. gov. of Nigeria. Scholps. have also

been awarded by local gov. and voluntary agencies in various pts. of the country. The univ. awards loan bursaries to deserving students.

**STUDENT RESIDENCE** The majority of students are accommodated in the univ. There are 8 hostels, 6 for men and 2 for women.

**STAFF RESIDENCES** Staff accomm. is provided by the univ. at a rental not exceeding 7.7 per cent. of salary.

**UNIVERSITY HEALTH CENTRE** A health service for staff and students is in operation, under the direction of 2 full-time med. officers. There is provision for in-patients.

**STUDENTS' UNION** There is a students' union to which all students must belong on payment of £2 p.a. Temp. union bldg. includes canteen, offices and games rooms. The OFFICE OF STUDENT AFFAIRS, in co-operation with the union, helps to provide for the social, cultural and recreational devel. of each student.

**STAIR SCHOOL** A univ. primary sch. has been establd. It is proposed that a univ. sec. school will be built in the near future.

**UNIVERSITY BOOKSHOP** The Univ. Bookshop (Nigeria) Ltd., Ibadan (see p. 793), at present runs a branch bookshop in the univ. Plans are almost complete to register the Univ. of Nigeria Press, Ltd., which would undertake the printing, buying and selling of books, together with binding and publishing.

**PUBLICATIONS** *Souvenir Brochure*, *Installation of Chancellor, 1961*; *Handbook for Prospective Students* (28), annual; *Prospectus*, annual.

## THE YEAR 1961

# THE UNIVERSITIES OF PAKISTAN

[Specially contributed for this edition by Dr. I. H. Qureshi, Vice-Chancellor, University of Karachi]

**HISTORY.** One of the earliest civilizations in history blossomed in the Indus valley, which has remained a centre of culture throughout the ages. There is no record, however, of the development of colleges until the second century. Archaeological remains point to the development of a system of colleges for the education of monks—and, perhaps, of some selected sections of the laity as well—attached to the Buddhist monasteries. A group of such colleges existed near and around Takshashila (better known as Taxila), which became a famous centre of learning and maintained its pre-eminence up to the fifth century of the Christian era. The tradition of colleges attached to monasteries, however, continued right up to the conquest of Sind by the Arabs in the beginning of the eighth century. The Arabs built townships with schools and colleges, and Sind produced some noted scholars during Arab rule. The Arab rule was subverted by the Islamites under whom Multan rose to be a famous seat of learning. It maintained its reputation but its famous colleges declined under Sikh rule in the nineteenth century. The establishment of the Ghaznavid dynasty in the eleventh century at Lahore made it even more famous than Multan. Under Mongol pressure in the thirteenth century Lahore lost considerably its importance. It, however, began to revive with the conversion of the Mongols to Islam and the cessation of their raids. Under the Moghuls Lahore once again became famous for its learning.

With the establishment of Sikh rule, Muslim learning began to decay and it languished under the British for want of encouragement and also because a knowledge of English was considered necessary for employment by the government. The East India Company did not pay much attention to higher education in the sub-continent and it was not until 1857 that universities were established at Calcutta, Madras and Bombay. The influence of Calcutta was slow to permeate the hinterland of East Bengal (now East Pakistan) except among the élite of Hindu landlords who had prospered under the permanent settlement of Bengal (1793). Within the territories now constituting Pakistan the first university was established by the British in 1882 at Lahore, followed by another at Dacca in 1921. The University of Sind received its charter in 1927 and was in the process of organisation when Pakistan came into existence. With independence came a new consciousness of the importance of education so that new universities came to be established. To-day,

apart from the universities of the Punjab (at Lahore), Dacca and Sind (at Hyderabad), the country possesses the universities of Peshawar (established in 1950), Karachi (1959), Rajshahi (1953), the West Pakistan Agricultural University at Lyallpur (1961), the West Pakistan University of Engineering and Technology at Lahore (1961), the East Pakistan Agricultural University of Mymensingh (1961) and the East Pakistan University of Engineering and Technology at Dacca (1961).

**STRUCTURE.** When the universities were first established under British rule they were of an affiliating type. A vast sub-continent, even though higher education was only thinly spread, could not be adequately served by three universities. Therefore a number of colleges were established in scattered towns which taught up to the university standard. The main function of the universities was to maintain a uniform standard in the areas under their respective jurisdictions through common syllabuses and examinations. All colleges in that area were affiliated to a university which laid down the courses of study and conducted the examinations. In fact the earlier universities were little more than examining bodies. Pakistan universities have still not been able to shed the exaggerated importance attached to examinations. The next development was that the universities began to develop their own teaching departments; in particular, Dacca was originally established as a teaching university. To-day, but for the two agricultural and two engineering universities, which are purely teaching universities, all universities in Pakistan are both teaching and affiliating bodies. The structure, however, varies considerably. All honours and postgraduate teaching at Karachi is, for instance, concentrated in the university departments of instruction but professional and pass teaching is done by affiliated colleges. This, however, is by no means a common feature, because Peshawar imparts education in professional subjects through its constituent colleges and postgraduate instruction through its teaching departments. As a matter of fact, because of the complexity of the structure of Pakistani universities, a new terminology has developed. Apart from their own departments under the direct control of the university, each university has some institutes, which are financed by the university, but have separate boards of governors, with a certain measure of autonomy. Then there are constituent colleges which are really combinations

of certain cognate departments. Each unit is under an administrative head, called a principal, and is run like a college but is nevertheless under the full financial, administrative and academic control of the university. An affiliated college is run either by the government or some philanthropic body, and the university is concerned only with the maintenance of standards through the prescription of the syllabuses and the organization of a common examination. The university also ensures that adequate facilities in the way of qualified teaching staff, buildings, libraries and laboratories are available. The university can disaffiliate a college if it feels that standards are not maintained, and because degrees awarded by unauthorized bodies are not recognized this vests universities with effective authority. There is a tendency on the part of the government to delegate its control over government colleges to boards of governors of which the vice-chancellor is invariably a member and sometimes the chairman so that the control of the university is now being felt even in the internal affairs of some colleges. Universities send teams of inspection to keep themselves informed about conditions in affiliated colleges and sometimes appoint representatives on their boards of governors.

**RELATIONSHIP TO GOVERNMENT.** The Punjab University was established in 1882 by an act of the imperial legislative council. Karachi University was established by an act of the central legislature. All other universities were established by acts of provincial legislatures. In view of the sweeping changes in the educational structure recommended by the Commission on National Education in 1959 it was considered necessary to change the acts incorporating the universities on a more or less uniform basis. Except for Karachi, whose constitution was amended by the central government, the other acts were amended by the provincial governments. This was done by ordinances because at that time legislatures were not functioning. All universities are corporate autonomous bodies. All statutes framed by the universities are, however, subject to sanction by the provincial government. Ordinances are subject to sanction by the chancellor.

**FINANCE.** The annual grants made by provincial governments through their education departments constitute the main source of income of all the universities. University accounts are strictly audited by the accountants-general of the provincial governments. During the last few years, the government of Pakistan have accepted the principle of making direct grants for various schemes submitted to them by the universities from time to time. The ratio of government grant to total budget varies from one university to another, but the general pattern seems to be that government grants amount to more than one-half of the total annual income, the remaining income coming from such other sources as tuition fees, examination fees and fees for the registration of graduates.

**CONSTITUTION.** Every department of study has a departmental committee, comprising senior teaching staff and a few external experts chosen from amongst scholars of reputation in the subjects. The affiliated and constituent colleges are represented on these committees. The most senior teacher is the head of the department. In some universities there are faculties to co-ordinate the work of various departments. The faculties headed by their respective deans consist of the heads of departments, professors and readers in the subjects which constitute the faculty, and a few scholars who are not on the teaching staff of the university. Generally the faculty is headed by a dean. Some universities have dispensed with the institution of faculties and deans. The highest academic body is the academic council, which consists of all professors, readers, some principals of affiliated colleges and a few distinguished scholars in various fields. The executive authority of the university vests in a syndicate or executive council, representing senior teachers, registered graduates and some other distinguished persons. The chairman of the academic council and the syndicate or the executive council is the vice-chancellor, who is the real academic and executive head of the university. The vice-chancellor is appointed for a period of four years and there is no bar against his re-appointment. The provincial governor is the chancellor. In addition there are certain other bodies which have an advisory capacity as, for instance, the finance committee, which draws up the budget for consideration by the syndicate. Proposals having financial implications are first examined by the finance committee before they go to the syndicate. All proposals for new departments and buildings go to the planning and development committee. The teaching staff is appointed by the syndicate on the recommendation of a selection board. If the selection board and syndicate do not agree on the suitability of a candidate the matter is referred to the chancellor for final decision.

**ADMISSION, STRUCTURE OF DEGREE COURSES, ETC.** Students are admitted to university classes after they have passed their higher secondary or intermediate examination, which is held after twelve years of post-kindergarten teaching. The BA or BSc degree (both pass and honours) can be taken after three years of study in a university or an affiliated college. The bachelor's course is divided into three parts and examination for each part has to be taken separately with a minimum period of one year intervening between one examination and another. An honours graduate can take the master's degree in one year. Pass graduates, however, have to spend an additional year and take a previous examination before they can proceed to the final examination for the master's degree. The PhD course lasts generally for two to three years after a good master's degree. The period for taking professional degrees varies from one subject to another. A bachelor's degree

in engineering generally takes four years, and in medicine five years after admission for which the minimum requisite is intermediate science. A bachelor's degree in education (BT or BEd) takes one year after a bachelor's or master's degree in arts or science and a master's degree takes two years after bachelor in education. A bachelor's degree in law takes two years after a bachelor's degree in arts, science or commerce.

English is the medium of instruction in all universities and colleges. There is, however, an Urdu College affiliated to the University of Karachi which teaches all subjects up to the bachelor's level through the medium of Urdu. A few other colleges teach humanities and social sciences through this medium.

**TEACHING STAFF.** The teaching staff is divided into the categories of professors, readers and lecturers. The University of Karachi has a category of instructors as well. Most universities also have demonstrators where laboratory work is needed. The scales of pay vary, but not much, from university to university. Professors are paid in the scale of Rs. 800/600-90-1250-EB-1300-75-1750. Readers begin at Rs. 600 and go up to Rs. 1150, senior lecturers between Rs. 300 and Rs. 350 rising to Rs. 840 and Rs. 970; junior lecturers, instructors and demonstrators Rs. 250 rising to Rs. 400 or Rs. 450 per month. Vacant teaching posts are filled by advertisement in newspapers in Pakistan and abroad, if necessary. Candidates for appointment are chosen by a selection board consisting of nominees of the academic council, the syndicate and the chancellor, which is required to consult experts whose list is previously approved by the chancellor. The syndicate makes all appointments. Teachers of foreign nationality can be appointed. However, their number is extremely small. Most teachers possess research degrees, and now some universities insist that applicants for posts of lecturers must possess a research degree. Many teachers have higher degrees from Europe, the United Kingdom or the United States of America. The retiring age in most universities is 60 years. After retirement teachers do not get a pension, but contribution by the teacher as well as the university to a provident fund is compulsory. Teachers are often granted study leave for a period of two to three years. Teaching is done through lectures, seminars, tutorials, laboratory work and field surveys, but lectures predominate, especially in the arts subjects. The report of the Commission on National Education has laid marked emphasis upon research by individual university teachers.

**STUDENTS.** In recent years the number of applicants for admission to university courses has increased several fold, but because of the inadequacy of staff and equipment and accommodation, not all of them can be accommodated. So candidates are selected chiefly on merit, but distinction in sports and extra-curricular activities

are also taken into consideration. The pressure of students in the professional colleges is especially heavy. The total number of undergraduate students in the academic year 1960-61 was 32,128, and the total enrolment 49,023. Postgraduate students in arts, science and commerce during 1960-61 totalled 3979, students registered for M.Litt and PhD courses were 24 and 90 respectively; the figures for professional and diploma courses were 12,184 and 775 respectively. About 150 foreign students were registered in the Pakistan universities in 1960-61, mainly at Panjab and Karachi.

Most students enter the university when they are 17 or 18 years old. All the degree courses at the universities and most of the diploma courses are full-time courses, requiring registration and regular attendance, but some colleges and university departments also offer evening courses, mainly in languages, law, commerce, business administration and library science. The general level of fees is almost uniform and amounts to approximately £15 a year. Decca, Karachi, Panjab and Peshawar have halls of residence, but Rajshahi and Sind also run a few hostels. The percentage of students residing at university hostels varies from place to place. Decca has the highest (approximately 50 per cent) and Rajshahi the lowest (8 per cent); the figures for other universities are: Panjab 32 per cent, Sind 27 per cent and Karachi and Peshawar 10 per cent each. The cost of residence is about £50 per academic year.

Many universities provide student health service and counselling. Some universities have advisors to overseas students. The residential halls are under provost and resident tutors or wardens. Some universities have placement or information bureaux through which they advise their students in seeking employment or admission to foreign universities. On an average universities give 'freeships' to 10 per cent. of the students on their rolls and also give merit or other scholarships from their own resources. The governments also provide a number of scholarships which are awarded on the recommendations of the universities. Some philanthropists also subscribe to the scholarship funds of the universities. There is hardly any vacation employment. Students' unions and societies for extra-curricular activities exist in all universities and colleges.

**ACADEMIC YEAR.** Because of marked differences in the climate of the different parts of the country, the terms and vacations vary from university to university. At Decca and Rajshahi, the academic year begins in July, at Karachi and Sind in the middle of August, and in the Panjab and Peshawar in the beginning of September. The academic year is split into three terms in all the universities, the first and second, and the second and third terms being separated by a recess of fifteen days. The long vacation generally comprises three months and immediately precedes the academic year. Summer courses are not offered anywhere,

but teachers' seminars are organized during the summer vacations.

**INTER-UNIVERSITY ORGANIZATIONS** The Inter-University Board of Pakistan, constituted in 1948 by the Ministry of Education, Government of Pakistan, consists of three members from each university, one being the vice-chancellor and the other two nominees of the syndicate or the executive council (one of these nominees must be the principal of an affiliated college or the head of a teaching department). The chairman and the secretary of the board for 1963 are respectively Mohammad Ali, BA LLB, Vice-Chancellor, University of Peshawar, and Professor K. M. Hossain, MA Abg, BA Oxon (42 W, P.E.C.H.S., Block 6, Karachi 29, West Pakistan).

There is also a Standing Committee of Vice-Chancellors with well-defined powers. All the vice-chancellors are members *ex officio* of the Inter-University Board; the two other nominees of each university retire annually and are replaced by new nominees. The educational adviser to the government of Pakistan has the right to attend meetings of the board, but has no power to vote.

The Inter-University Board created in 1953 an Inter-University Sports and Athletic Board which is responsible for organizing sports and athletics on a national basis.

The Inter-University Board has set up a seminar organization which organizes seminars and discussions for six weeks every year during the vacations. The seminar has a number of conductors who are senior teachers in the various disciplines and a number of participants who are generally younger teachers in those subjects. The intention is to provide a forum where the younger teachers may benefit from the knowledge and experience of senior teachers. A number of conductors are invited from foreign countries.

A National Union of Students was formed in 1958.

**COMMISSION ON NATIONAL EDUCATION** The government of Pakistan appointed a Commission on National Education in 1958. Its report, presented in 1959, was accepted *in toto* by the government and an implementation unit was set up to ensure the implementation of the commission's recommendations. In pursuance of these recommendations, the intermediate classes were taken out of the control of the universities and handed over to boards of higher secondary and intermediate education, thus raising school education from ten to twelve years of post-kindergarten schooling. A programme of putting up new buildings to effect bifurcation has been undertaken and is well under way. Where physical bifurcation has yet not been possible, a separation of the administrative and teaching staff has taken place and special efforts are being made to improve standards of teaching and encourage research. The beneficial nature of the reforms is beginning to be felt though it will take some time before it has full impact upon higher education in Pakistan.

**THE UNIVERSITIES TO-DAY.** As a result of the recommendations of the Commission on National Education which have been accepted by the government of Pakistan (see above), a greater uniformity has been achieved in the organization and standards of the universities in Pakistan. An internal evaluation system has been introduced, by which tutorials and terminal examinations are given one-fourth weightage in the assessment of the final grade of the student. The establishment of two technical universities and two agricultural universities indicates a new approach to technical education. Some of the other universities, however, still maintain their departments or colleges for technology and agriculture. The total expenditure on education has gone up steadily from Rs. 226,728,000 in 1959-60 to Rs. 264,206,000 in 1960-61. It was further raised to Rs. 625,200,000 in the year 1962-63.

The universities are secular, teachers and students pursue their studies and research in an atmosphere of academic freedom unrestricted by any political or theological restriction.

**INSTITUTIONS OF HIGHER EDUCATION OTHER THAN UNIVERSITIES.** In addition to the universities there are learned bodies like research organizations and professional associations which carry on programmes of research. The Central Institute of Islamic Research, the Pakistan Historical Society, the Institute of Development Economics, the Pakistan Institute of International Affairs, Pakistan Association for the Advancement of Science, the Scientific and Industrial Research Laboratories, the Atomic Energy Commission, Urdu Development Board, Bengali Academy, Iqbal Academy and various other bodies are engaged in research in their respective fields. Some of these recruit young men with master's degrees and train them in techniques of research. They are, however, not degree-giving institutions.

## DIRECTORY TO SUBJECTS OF STUDY

The following subjects in arts, commerce and science may be studied at the universities of Dacca, Karachi, Panjab, Peshawar, Rajshahi and Sind in the affiliated colleges for first degrees and in the university departments for honours, master's and research degrees—

**Arts** Arabic, Bengali, economics, English, general history, geography, Islamic history, Islamic studies or Islamism, mathematics, Persian, philosophy, political science, psychology, theology and Urdu.

**Commerce** (except Peshawar) BCom and MCom degrees are awarded by Dacca, Panjab, Rajshahi and Sind; Karachi awards a BCom and an MBA. These courses include the following subjects: accounting, advertising, banking, business administration, business finance, industrial management, industrial relations, cost accounting, sales promotion, statistics and transportation.

**Science** Biology, botany, chemistry, mathematics, physics and zoology.

The following *Research Degrees* are awarded in accordance with the ordinances of the universities: Dacca: Ph.D. in arts or science, DLitt, DSc. Karachi: M.Litt, Ph.D. in arts or science. Panjab: Ph.D. in arts or science, DSc, DLitt, DOL. Peshawar: Ph.D. in arts or science. Rajshahi: Ph.D. in arts. Sind: DPhil, DEd.

The following subjects cannot be studied at all the universities and the existing provisions for their teaching are outlined below—

**Agriculture** E. Pakistan Agricultural University, Peshawar, Sind, W. Pakistan Agricultural University. The two agricultural universities, and Sind also, offer postgraduate degree courses.

**Animal Husbandry.** Dacca, E. Pakistan Agricultural University and Panjab award a BSc in animal husbandry. See also 'Veterinary Science', below.

**Antonomy** A BSc pass and honours is awarded by Panjab.

**Basic Medical Sciences.** A master's degree is awarded by Karachi.

**Biochemistry.** Dacca awards an MSc.

**Business Administration** Karachi awards the degree of master of business administration.

**Chemical Technology.** Panjab awards a BSc and MSc honours.

**Dentistry** is taught as a part of the MB BS course at most universities. Panjab offers special courses in dentistry leading to BDS and MDS.

**Education** Dacca, Peshawar and Sind award a bachelor of teaching, Karachi and Panjab a bachelor of education and Rajshahi a diploma in education. The MEd is awarded by Dacca, Karachi, Panjab and Sind. Sind also awards a DEd.

**Engineering and Applied Sciences** Karachi and Peshawar and the two engineering universities provide courses leading to degrees in civil, electrical and mechanical engineering. In addition, diploma courses are provided by W. Pakistan Engineering University and Karachi.

**Fine Arts** Panjab awards an MA.

**Physics** Sind awards an MSc.

**Foreign Languages.** Certificate and diplomas in French and German are awarded by the universities of Dacca and Panjab, a diploma in Russian by Panjab, and certificates in French, German, Spanish and Italian by Karachi.

**Forestry.** Peshawar awards a BSc with hon.

**Geology** Dacca, Karachi and Panjab award honours and master's degrees.

**Home Economics.** Karachi, Panjab and Peshawar award a bachelor's degree. An MSc is awarded by Panjab. Karachi awards an MHE.

**International Relations.** An MA in international relations is awarded by Dacca and Karachi while Panjab offers a postgraduate diploma in the subject.

**Journalism** Karachi and Panjab award an MA.

**Law.** An LLB is awarded by Dacca, Karachi, Panjab, Peshawar, Rajshahi and Sind. Panjab also awards an LL.M and LL.D.

**Library Sciences.** Dacca and Karachi award an MA, and Panjab a diploma in library science.

**Medicine** An MB BS is awarded by Dacca, Karachi, Panjab, Peshawar, Rajshahi and Sind. Panjab provides special courses leading to diplomas in public health, medical radiology and electrology, anaesthesia, DLO (diploma in laryngology and otology) and TDD (diploma in tuberculous diseases). Panjab also awards a

master of surgery (MS) and doctor of medicine (MD). A condensed MB BS course is offered by Karachi.

*Microbiology.* An MSc is awarded by Karachi.

*Mining.* A BSc in mining engineering is awarded by the W Pakistan University of Engineering and Technology.

*Oriental Learning.* Punjab awards a BOL, MOL and DOL in oriental learning.

*Pharmacy.* Punjab awards a bachelor's degree.

*Social Work.* Karachi and Punjab award an MA. Dacca awards an MA in social welfare.

*Sociology.* An MA is awarded by Dacca, Karachi and Punjab.

*Soci Science.* Dacca awards honours and MSc degrees.

*Statistics.* An MA is awarded by Dacca and Punjab.

*Veterinary Science.* Dacca awards an LVS (licentiate in veterinary science), and E. Pakistan Agricultural University a BSc(VetSc). *See also* 'Animal Husbandry', *above*.

## GENERAL INFORMATION

The Univ. was establd. in 1921 under the Govt. of India Act XVIII of 1920, which was based on the recommendations of the Calcutta Univ. Commission presented over by Sir Michael Sadler, as a unitary, teaching and residential univ. with a constitution similar in many respects to those of mod. English univs. Following the creation in 1947 of the province of E. Bengal as part of Pakistan, the E. Bengal educ. ordinance, 1947, was promulgated, by which the univ., without prejudice to its original character as a teaching and residential univ., was entrusted with sole authority to recognize and affiliate all educ. instns. in E. Bengal above metric and high

Madressa standard. Accordingly, in 1947, the univ. affiliated 55 1st and 2nd grade colls. throughout the whole of E. Bengal, as well as several other univs.

With effect from the session 1961-62, the responsibility of arranging and conducting the inter. courses has been entrusted to the E. Pakistan sec. educ. bd., Dacca.

CONSTITUTION. With the promulgation of the Dacca Univ. Ordinance, 1961, the authorities of the univ. are the syndicate, academic council, fees, cttces of courses, selection bds., finance cttcs., planning and devel. cttcs. The syndicate,

the exec. body of the univ., consists of the following members, *ex officio*, who are fellows of the univ. the vice-chancellor (chairman); treasurer, dir. of pub. instrcn., E Pakistan, chairman, bd of intn. and soc. educn., Dacca, 1 group of 2 deans of facs for period of 1 yr.; 5 persons nominated by the chancellor (incl. 2 from among registered grads., 1 from a govt. affiliated and 1 from a non-govt. affiliated coll.) Its main functions are to hold, control and administer univ. funds and to regulate and determine all matters concerning the univ. A cttee of courses and studies is constituted in December for the following calendar yr. by the appropriate fac. for each subj. or group of subjs., to prescribe text-books and make syllabuses. Appts. to teaching and admin. posts are made by syndicate on the recommendation of selection bd.

The academic council is the academic body of the univ. and consists, besides *ex-officio* members, of reprs. of the affiliated colls., etc. Its main functions are to control and maintain the standard of instrcn., educn. and exas.

Each of the 6 facs has charge of teaching, courses of study and res. work, subject to the control of the academic council.

## GENERAL INFORMATION

Established in 1882, the univ. is the oldest in Pakistan and was the fourth to be established in the Indo-Pakistan sub-continent. Until 1919 the univ. confined its activities mainly to exams, the control of affiliated instns and the provision of instructn. in its oriental and law colls. It has, since 1919, undertaken the maintenance of univ. teaching depts for postgrad instructn. and res. and co-ordination of advanced teaching. Besides the univ. profs., readers and lectrs., sr. teachers of the local colls. are associated with univ. teaching. The univ. also maintains colls. of comm., law and oriental studies, and holds classes in arabs., journalism, Turkish, German, French, Russian and Spanish.

By the Punjab Univ. Act of 1956 the matric., inter., Pakistani and oriental langs. exams. were transferred from the univ. to the bd. of sec. educn., Lahore.

**CONSTITUTION.** Until 1959, a cttee. apptd. by the chancellor exercised the powers and performed the duties of the various univ. authorities provided for under the Punjab University Act of 1954. ## GENERAL INFORMATION

Before the partition of Bengal in 1947 the Univ. of Dacca was purely residential and the jurisdiction of the Univ. of Calcutta extended throughout Bengal. In August 1947 the Univ. of Dacca assumed the responsibility of affiliating all those colls. in E. Bengal which had formerly been under the jurisdiction of the Univ. of Calcutta; this resulted in the centralization of all higher educn. at Dacca, an immediate effect being overcrowding in degree and postgrad. classes. The need for another univ. was realized and the govt. chose as its location Rajshahi where the Govt. Coll., founded in 1828, had a high reputation. As long ago as 1919 the Sadler commission had indicated the suitability of Rajshahi as the site for a univ. in N. Bengal. The univ. was founded on July 1, 1953. Its present territorial jurisdiction extends over the Rajshahi div. and pt. of Khulna div. (pop. approx. 15,082,240).

Rajshahi Univ. confines its activities to teaching of bacc. and postgrad. courses in arts, and sci., pass, MB BS and BEd courses are available in affiliated colls. Teaching at the univ. has been organized in Engl., econ., comen., philos., psychol., hist., Islamic hist., maths., phys., chem., geog., stats., law and Bengali lang. & lit.

## GENERAL INFORMATION

Although the idea of a separate univ. for Sind was first broached in 1886, it was not until 1940 that the autonomous govt. of Sind apptd. a cttee. to go into the entire problem. The report of the Sind Univ. cttee., issued in 1941, covered the entire field of organizational and academic issues involved, but action was delayed until a regular bill for the creation of a separate univ. for Sind was introduced in the Sind legislature in 1945, and became an act in 1947.

Since a separate Karachi Univ. for the Karachi federal area was establd., as from session 1951-52, the headquarters of the Univ. of Sind were moved from Karachi to Hyderabad in May 1951.

The univ. is affiliating, examining and teaching. Undergrad. teaching is provided by the affiliated colls. and facilities for postgrad. study (incl. BA (hons.) and BSc (hons.) courses) and res. by the univ. itself.

## GENERAL INFORMATION

The coll., originally incorporated under the  
Southern Rhodesia 'University Charter and  
Inaugural Board (Private) Act, 1952', and known as  
the Rhodesia Univ. Coll., was established by royal  
charter in Feb. 1955. The charter establishes a  
council, and an academic bd which is in control of  
academic policy. The coll. is a multi-racial  
institution, open to all students without distinction  
on racial grounds. It is intended primarily to  
serve the higher educnl. needs of the Federation of

Rhodesia and Nyasaland but admits students from  
other territories.

Towards the capital costs of bldg and equip-  
ment H.M. govt. has given grants totalling  
£2,875,000. Private benefactors include a gift  
from the British S. Africa Co., Rhodesian Anglo-  
American Ltd., and Rhodesian Selection Trust  
Ltd., of £200,000 for the bldg. of the library and  
a gift of £36,000 from the Beit trustees for the  
construction of the Alfred Beit hall. The federal

## AFFILIATED INSTITUTION

**INSTITUTE OF SOUTHEAST ASIA**, c/o Nanyang Univ., Jurong Rd., Singapore (tel. 68779) (1957).  
Dir.—. . . . . Function of inst is to collect source materials on S.E. Asia for res. and reference, and to publish academic res. papers, and reference

books. Scope incl many aspects of S.E. Asia, with sp reference to hist, geog. and econ. Inst also intends to assist scholars outside the univ. in their academic res. and surveys.

## GENERAL INFORMATION

Establd. in 1953 to meet the demand for higher educn. for students from both Chinese and English soc. schs. in Malay and neighbouring countries, the univ. owes its origin to Mr Tan Lark Sye, a philanthropist of Singapore who announced that he would subscribe M\$5,000,000 to the univ. funds. The univ. was registered in 1953 in both Singapore and the Fed of Malaya under the Companies Ordinance and acquired thereby the status of a legal corp. The Singapore Hokien Assn. donated 500 acres (which now has on it bldgs & equipment costing about M\$13 millions) at 14½ milestone, Jurong Rd., Singapore, for use as univ. campus.

The Nanyang Univ. Ordinance came into effect in May 1959 and was promulgated in the Singapore govt. gazette.

The univ. with its 3 colls. (arts, comm., sci.) is located in Singapore (pop. 1,712,600), a self-governing state to S. of Fed. of Malaya.

**CONSTITUTION.** Supreme governing body is univ. council. Senate, responsible for academic matters, consists of the vice-chancellor (chairman), deans of colls., registrar and hds. of depts.

**INCOME** (1961). Total income: M\$2,264,474 (tuition and other fees, 91.7 per cent., contributions, 6 per cent., donations, 1.6 per cent., misc., 0.7 per cent.)

**COLLEGES AND DLANS.** See p. 866

**UNIVERSITY PRECINCT.** Colls. of arts, comm., and sci., admin. office, library, clinic, 2 dining halls, and staff and student residences are situated on 200 acres of developed land at 14½ milestone, Jurong Rd., in N.W. pt. of state of Singapore. Bldg. of auditorium, addnl. admin. block and students' union under constrcn.

**LIBRARIES.** Univ. libr.: 107,000 vols. (incl. 71,000 Chinese books), about 35,000 vols. of periodicals, 4 reading rooms. Reference branch libr. in each coll.: arts (3500 vols.), comm. (500 vols.), sci. (1500 vols.); deptl. reference rooms.

**LABORATORIES, MUSEUMS.** Bot., chem., phys. 2 sci. museums.

**ADMISSION.** Grads. of Chinese 3-yr. sr. middle schs., govt. sr. middle 3-yr. cert. holders, and holders of a Cambridge Overseas Higher Sch. Cert. are eligible to sit entrance exam. for 1st-yr. class of the univ. Students of recognized univs., who have studied for more than 1 yr. and whose scholastic records are considered satisfactory by Nanyang Univ., may sit a transfer exam. on pass-

ing which they may be admitted to appropriate classes. Grads. of prep. classes may also enrol as 1st-yr. students of the univ. Med. exam. of fitness required of all students.

**FIRST DEGREES.** BA, BSc, BCom—4 yrs. The univ. operates an hour-credit system in all colls. Each student must have a min. of 128 credits before he can sit the graduation exam. (conducted jly. by internal and external examiners).

Courses cannot be taken on pt.-time basis.

No HIGHER DEGREES are awarded.

RESEARCH is undertaken by individual members of teaching staff.

STUDY LEAVE may be granted, subj. to approval of univ. authority, where it can be arranged without serious inconvenience to work of univ.

**FEES.** Entrance exam., M\$10, caution money, M\$30; lab. deposit (sci. coll.), M\$20, tuition, M\$720 p.a., lab. fee (sci. coll.), M\$50 p.a., lecture notes, M\$30 p.a.; student health, M\$10 p.a., phys. educn., M\$10 p.a.

**ACADEMIC YEAR.** Feb. to Nov., 2 semesters of 18-19 wks. each.

**LANGUAGES OF INSTRUCTION.** English and Chinese. Good knowledge of both expected of students in most depts. Engl. is principal lang. of instructn. in dept. of mod. langs. and lit. and in certain courses.

**PRINCIPAL 'OPEN' AWARDS.** Bursaries offered annually by govt. of Singapore to suitable candidates who are citizens of Singapore studying at Nanyang Univ. Scholcs. also offered by foundations, firms, etc.

## GENERAL INFORMATION

The Univ. of Singapore was established on Jan. 1, 1962, by ordinance enacted by the state of Singapore. Its hist. dates back to the foundation of King Edward VII Coll. of Med. (1905) and of Raffles Coll. (1929). These 2 colls. were amalgamated in 1959 to found the Univ. of Malaya. On its foundation, the then Univ. of Malaya inherited the facs. of arts and sci. from Raffles Coll., the fac. of med. (incl. dent. and pharm.) from King Edward VII Coll. of Med. and the bldgs. of these 2 colls.

With the rapid expansion of univ. educn., a commission of inquiry was set up by the govt. of the federation of Malaya and of Singapore at the request of the univ. to review the constitution, working and finances of the univ. in the light of the experience and rapid expansion of the last 7 yrs. and of the prospective expansion in the near future, including the planning for developing the univ. in Kuala Lumpur and to make recommendations. Acting out of the commission's report a largely autonomous divs. of equal status, one in each territory, were established. This legislation came into effect on Jan. 15, 1959. The 'Univ. of Malaya in Singapore' was established on that date.

In 1960, the govt. of the fed. of Malaya and of Singapore indicated that with effect from the beginning of the session 1962-63 the 2 divs. of the univ. should become separate natl. univs. of the territories in which they were situated. Steps to achieve this were completed during 1961 and on Jan. 1, 1962, the Univ. of Singapore was established.

**CONSTITUTION.** The council is the executive body of the univ. and exercises all the powers of the univ. except those which are allotted by the constitution or by statute to another authority. The membership of the council is widely representative. The senate is the academic body of the univ. and has control of the general direction of instruction and res. It is composed of the profs. and hds. of depts. and some non-professional members.

The chief executive and academic officer of the univ. is the vice-chancellor, who is *ex officio* a member of the council and chairman of the senate.

**FINANCE.** The govt. of the state of Singapore is responsible for contributing to the annual recurrent costs of the univ.

**FACULTIES AND DEANS.** Arts, E. B. de Chickera (Engl.); Law, Prof. L. A. Sheridan; Med., Prof. E. S. Monteiro (clin. med.); Sci., Prof. H. B. Gilliland (bot.).

**UNIVERSITY PRECINCT.** The bldgs. of the 2 former colls. in Singapore are still being used, but there has been considerable devel. on these sites.

New bldgs. completed on the Raffles Coll. site include a large new multi-storey sci. block with associated lecture theatres, the addn. of new wings to the Oei Tiong Ham bldg. for use of the library and the facs. of law and arts. The Oei Tiong Ham bldg. has been completely renovated and now houses the entire admin. of the univ. At the med. coll. site a pathol. bldg., built in conjunction with the Singapore govt., has been

completed. The new inst. of health was opened in 1958 and is shared by the univ.'s dept. of soc. med. & pub. health, the Singapore govt. sch. health services and the maternity & child welfare section of the city council. King Edward VII Hall, a residential coll. mainly for med. students in their clin. yrs., was formally opened in 1957. Remodelling of the main bldg. provided addnl. space for the library and for lecture theatres.

**GEOGRAPHICAL LOCATION.** The facs. of arts, sci. and law and the admin. offices are on the Raffles Coll. site of about 80 acres at Cluny Rd. 10, while the fac. of med. is on the former coll. of med. site, 4 miles away at Sepoy Lines 3.

**LIBRARY.** Main library (for arts, sci., law), 130,300 vols. plus Chinese collection of 130,000. Med. and dent. library (on fac. of med. site), 45,000 vols. In addition, about 30 dept. libraries with from a few hundred to a few thousand vols.

**LABORATORIES, MUSEUMS.** Zool. field labs, at King George V natl. park, Pehang and Raffles Light, Singapore; pub. health museum, Kesth (pathol.) museum; D.S.I.R. radio res. substation (in assoc. with dept. of phys.); art museum.

**TEACHING HOSPITALS.** The main univ. teaching hosp. providing facilities for undergrad. or postgrad. teaching is the Govt. General Hosp. in Singapore; other hosps. used for teaching purposes are: Kandang Kerbau Hosp. (obstet. & gynaeol.), Woodbridge Hosp. (mental dis.), Middle Road Hosp. (V.D.) and Tan Tock Seng Hosp. (infectious dis.). Certain govt. hosps. in the Federation of Malaya are recognized as providing facilities for trg. prior to registration.

**ADMISSION.** Candidates are ordinarily required to take the Camb. overseas higher sch. cert. exam. which is regarded as the univ. entrance exam. For admission to 1st-yr. courses, candidates must have passes in either 2 subjs. at principal standard or one subj. at principal standard and 2 subjs. at subsidiary standard. A pass in the gen. paper is desirable but not compulsory. For sci. the subjs. must be chosen from a list. Exemption from 1st-yr. and admission to 2nd-yr. courses in sci., med. and dent. and pharmacy candidates must have full cert. with passes in the gen. paper and either 3 subjs. at principal standard or 2 at principal standard and 2 at subsidiary standard, the subjs. being chosen from a list.

Non-graduating courses are provided in the facs. of arts and sci. and admission to these is subject to the approval of the dean concerned.

**FIRST DEGREES.** BA gen. and hon.—3 yrs. Gen. degree in 1 principal subj. and 1 subsidiary subj. Hon. degree in 1 subj. chosen from Chinese, econ., Engl., geog., hist., maths., philos., BSc pass—3 yrs. from admission to 1st yr., 2 yrs. from admission to 2nd yr., hon.—after 4th yr. Pass degree in 2 subjs., hon. degree in 1 subj., chosen from biochem., bot., chem., geog., maths.,

phys., physiol., zool. MB BS—6 yrs. from admission to 1st yr., 5 yrs. from admission to 2nd yr. BDS—5 yrs. from admission to 1st yr., 4 yrs. from admission to 2nd yr. LLB—4 yrs. BPharm—4 yrs. from admission to 1st yr., 3 yrs. from admission to 2nd yr.

**HIGHER DEGREES.** Open to grads.—MA, MSc, LL.M. (1 yr.'s residence), Ph.D. (2 yrs.' residence), open to grads. of 3 yrs.' standing—MD, MSc, MDS; open to masters or Ph.Ds. of 5 yrs.' standing—DSc, DLitt, DDS, LL.D. Dipl. holders of the King Edward VII Coll. of Med. (LMS) and of Raffles Coll. (DipArts and DipSc) and grads. of other univs. may also be admitted to higher degrees of this univ.

**HONORARY DEGREES.** The univ. may confer any degree as an hon. degree.

**DIPLOMAS.** Educat. (1 yr.), open to grads. Pub. health (1 yr.), open to med. grads. Soc. studies pt. I (2 yrs.), open to grads. and suitable non-grads.; pt. II (sp. studies) after addnl. yr. The King Edward VII Coll. of Med., until its incorporation in the Univ. of Malaya in 1949, granted a licentiate in med. and surg. (LMS) and a licentiate in dent. surg. (LDS), Raffles Coll. granted a dipl. in arts (DipArts) and in sci. (DipSc).

**RESEARCH.** Ample facilities for res. in most depts.

**STUDY LEAVE.** Permanent staff eligible for study or alternatively sabbatical leave on full salary at the rate of 5 wks. for each yr.'s service. New scheme provides for overseas or study leave of about 6 mos. after 3 yrs.

**FEES.** Tuition, including students' union, BA, LLB and BSc courses, also dipl. courses in educn. and soc. studies, approx. £56 : 5s. p. a.; MB BS, BDS and BPharm, also dipl. course in pub. health, £66 : 15s. p. a. Higher degrees, fees, £17 : 10s.—£35 p. a. depending on degree; exam. fees, MA, MSc, MRd, £17 : 10s.; Ph.D., £23 : 5s.; DLitt, DSc, MD, MS, MDS, £15.

**ACADEMIC YEAR.** May–April: 3 terms; May–July; Aug.–Oct.; Nov.–Jan.

**ADULT EDUCATION.** An active interest is taken in the adult educn. movement in Singapore, members of the univ. staff assisting in the teaching work. In conjunction with the govt. dept. of broadcasting, radio courses have been conducted from time to time.

**SCHOLARSHIPS, BURSARIES, ETC.** The univ. offers annually a number of entrance scholcs. on the results of the univ. entrance exam. The govt. of Singapore and the Fed. of Malaya offer bursaries to suitable candidates requiring financial aid.

**APPOINTMENTS BOARD.** A register of prospective candidates is kept and vacancies are communicated by circular.

**GRADUATES' ASSOCIATION.** The Univ. of Singapore society has now replaced the Stamford

club and the King Edward VII alumni assocn. All grads. of the former colls., the former Univ of Malaya and the Univ of Singapore may be admitted to the new soc

**STUDENT RESIDENCES.** Men: Dunsen Rd, King Edward VII Hall, Raffles Hall, Kandang Kerbau Clinical Residence. Women: Yusoff College.

**STAFF RESIDENCES.** At present approx 165 units of housing for academic staff

**STUDENT HEALTH SERVICE** under a full-time

med officer. Med. exam. compulsory for 1st-yr students and optional for others. Two dispensaries available for routine treatment

**STUDENTS' UNION** The students' union is administered by a students' council consisting of 25 to 30 students elected annually. The students' council appoints an executive ctee and certain other standing and sp ctees. There are socs. to cater for the social, athletic and other activities of students

## THE UNIVERSITIES OF THE UNITED KINGDOM

[Contributed by Sir James Mountford, Vice-Chancellor of the University of Liverpool]

**HISTORICAL OUTLINE.** Diversity, rather than conformity to a pattern, is the key to an understanding of the universities of the United Kingdom. All are dedicated to the preservation and advancement of knowledge, to teaching and research, and to education for the learned professions, but in pursuit of these common purposes they exhibit great variety in their general organization, internal government, range and balance of studies, methods of instruction, and student life. The reason for this is not far to seek. The universities were founded at widely different dates, and have been influenced by and have responded in different ways to changing intellectual and social environments. Above all, they have always been autonomous bodies, evolving in their own ways, finding solutions wherever possible for their own problems, and remaining free from any attempt on the part of the state to impose uniformity on them or to subject them to a central control.

It is nevertheless possible and convenient to treat the universities as belonging to one or other of five main groups, the members of each of which have a more or less close family resemblance. The first four of these groups are: the two old English universities of Oxford and Cambridge; the four Scottish universities; the universities of London, Durham and Wales, all of which have federal constitutions; and the 'modern' or 'civil' universities which in the main were founded in the 19th century as university colleges and served a relatively long apprenticeship before being granted a charter and empowered to award their own degrees. The fifth group comprises the universities of Keele and Sussex and the six others which are now being founded; they are not only empowered from their inception to award their own degrees but present significantly new patterns in the curriculum of studies (see below, pp. 900, 902-903).

The universities of Oxford and Cambridge originated in guilds of teachers who settled in those towns in the second half of the 12th century. The early development of Oxford is closely connected with the expulsion in 1167 of foreign-born scholars from the University of Paris, while that of Cambridge is associated with a migration of scholars from Oxford in 1209. Quite early in the history of both universities, pious benefactors founded residential colleges for teachers and students; University, Balliol and Merton colleges in Oxford date from 1249-64, and Peterhouse in Cambridge from 1284. In succeeding centuries,

colleges have continued to be established right up to the present time (e.g. St. Antony's at Oxford in 1929 and Churchill College at Cambridge in 1960). There are now at Oxford 26 colleges and 5 other recognized 'halls' for men and 5 colleges for women; at Cambridge there are 18 colleges and one other recognized 'house' for men, and for women there are 2 colleges and a recognized 'hall' (including New Hall founded in 1954). Most of the colleges have 350 undergraduates or less; but a few, such as Christ Church at Oxford and Trinity at Cambridge, are very considerably larger. This collegiate system has long been the outstanding characteristic of Oxford and Cambridge. Each college is a completely autonomous body so far as its property, finances and internal affairs are concerned. The university has its own separate identity and its own constitution; and it would be quite misleading to think of it as a federation of colleges or as a body which, except within strict limits, has any control over the colleges. Although at Oxford and Cambridge it is the universities themselves which alone have the right to confer degrees and determine the conditions on which they grant them and which provide the central libraries and laboratories as well as much formal instruction, the vital focus of academic life is in the colleges: it is by being a member of a college that a student becomes a member of the university, for some part of his student career he resides in his college; he dines regularly in the college hall where the head of the college presides at the high table, though regular attendance is no longer compulsory; the college chapel fosters his religious observances; the college library provides a quiet haven where he can read seriously or browse at leisure; and his studies are to a great extent guided by the senior members (generally called 'fellows') of his own college who have rooms and (if unmarried) live within the college building. The feelings of loyalty and affection for his college engendered in the mind of the adolescent student continue throughout later life, and every few years a former student may be invited to return for a formal feast (a 'gaudy') at his college.

The history of these two universities and of the colleges is closely interwoven with the broad pattern of national development: at the Reformation, for example, they suffered confiscations of land and revenues; and in the 17th century Oxford so staunchly supported the king in the civil war that he made the town his headquarters. Through the centuries many of the leading figures in statesmanship, the law, the church and literature

as well as in scholarship, were trained in one or other of these two universities, and the portraits of notable men which adorn the dining-halls and common-rooms of the colleges of which they were once members are an epitome of the annals of the nation.

The medieval curriculum, based on the seven liberal arts (the *trivium*—grammar, logic and rhetoric—and the *quadrivium*—arithmetic, geometry, music and astronomy) with the addition of the higher 'faculties' of theology, law and medicine, persisted up to the time of the Reformation and beyond; indeed even as late as the second half of the 18th century much of the subject matter of instruction was still rigidly traditional; and formal and written examinations for degrees were not introduced (first in Cambridge) until 1772. In the 19th century, however, and particularly after 1850, widespread reforms were inaugurated as the vigour of the two universities asserted itself, religious tests for membership of the university were abolished (the last in 1871), modern subjects of study were encouraged and developed, and to the prestige deriving from antiquity of foundation there was added the intellectual and educational primacy which in many fields is accorded to Oxford and Cambridge. In the session 1960-61 there were 8975 full-time students at Oxford and 8950 at Cambridge.\*

Three of the Scottish universities trace their origins to the 15th century, St. Andrews being founded in 1411, Glasgow in 1451 and Aberdeen in 1494. The fourth, Edinburgh, was established by the town council in 1583. As now constituted, St. Andrews incorporates three and Aberdeen two other foundations (all dating from the 15th or 16th centuries) which were at one time independent; and Queen's College, Dundee, founded in 1881, is also part of the University of St. Andrews. To Glasgow the Royal College of Science and Technology has been affiliated since 1913, but in 1962 the University Grants Committee announced that they accepted the case for its being given full university status, though they deferred their final advice to the government until after the Robb committee (see p. 901) had reported.

Though it was John Balliol, father of a king of Scotland, who founded one of the oldest colleges in Oxford, the idea of colleges where senior and junior members live together communally did not take firm root north of the border; and apart from St. Andrews, where the newer type of halls of residence has been specially fostered within the last half-century, a long tradition within the Scottish universities has favoured the independence of the student in the matter of living accommodation. As in England the sons of Oxford and Cambridge have played a prominent part in the national life, so amongst those who have moulded the fortunes of the northern kingdom or who (north and south of the border) have brought lustre to the name of Scotland in public life and

in the learned professions, many have been alumni of the Scottish universities.

At this point of time it is hazardous to institute comparisons over the centuries, but it is clear that the Scottish universities in their teaching and curriculum freed themselves from the formalities of the medieval scheme of studies rather sooner than did Oxford and Cambridge, and though the level of attainment for degrees fluctuated considerably from time to time, at no period in Scotland does the social side of university life appear to have predominated over the intellectual as it did in the two English universities in the 17th and 18th centuries. In the session 1960-61 there were 2632 full-time students at St. Andrews (including 1230 at Dundee), 6223 at Glasgow (together with 1695 at the Royal College of Science and Technology), 2016 at Aberdeen and 5965 at Edinburgh.

The University of London, now the largest in the country with 21,595 full-time students in 1960-61, was not established until the 19th century. It was in 1826 that, in part as a protest against the denominational tests still imposed at that time for entry to Oxford and Cambridge, what is now known as University College, London, was founded; and as a counter-protest King's College, London, came into being in 1829. The University of London itself was constituted by royal charter in 1836 as a body empowered to examine and confer degrees on students of approved institutions, and until 1900 its work was restricted to these functions in the exercise of which, however, it influenced and co-ordinated the work of the various other colleges of university rank which were founded from time to time in London (e.g. Bedford College for Women in 1849). From 1858 its degrees, except in medicine, were made available for students other than those in certain recognized institutions; and the external degrees of the university which were then instituted still continue to provide both at home and overseas an academic award of high standing for part-time students and others who are not enrolled in a university. London, too, in 1878 was the first university in the United Kingdom to admit women to its degrees. From 1945 it has had special relationships with the new university colleges founded in colonial territories under the auspices of the Inter-University Council (see pp. 901-902 and 1074).

In 1900 and again in 1926 the university's constitution and powers were revised and it is now not only a teaching as well as an examining body, but has become a federation in which are incorporated 13 medical schools associated with hospitals, 14 non-medical colleges (called schools of the university, and including e.g. University College and King's College), together with a number of postgraduate and other institutions. Some other centres of higher education in London are also affiliated to the university, and in still others

\* See footnote to p. 893

certain members of staff are recognized as teachers of the university. The six largest schools of the university are University College (with 2079 full-time students in 1960-61), Imperial College of Science and Technology (2682), King's College (2174), London School of Economics (2170), Queen Mary College (1288) and Guy's Hospital Medical School (1047).

The University of Durham was founded in 1832 largely on the initiative of the cathedral authorities. The College of Medicine in Newcastle upon Tyne, established in 1834, was linked with the university in 1832 and in 1871 the College of Physical Science (later Armstrong College) in Newcastle was founded as part of the university. The university is at present organized on a federal basis in two divisions, one consisting of the Durham branch and the other of the College of Medicine and Armstrong College in Newcastle amalgamated under the name of King's College. There are, however, proposals afoot that the Newcastle division should become an independent university; and it is anticipated that the new arrangement will come into force in August 1967. From its inception the university in the city of Durham was influenced by the collegiate pattern of Oxford and Cambridge, and eight of its halls of residence, in which over 65 per cent. of its students live, have the status of colleges of the university, the oldest dating from 1833. In 1960-61 there were 1461 full-time students in Durham itself, and 3733 in King's College, Newcastle. With the university there are affiliated Coddington College, Barbados, West Indies, and Founshay Bay College, Freetown, Sierra Leone, West Africa.

Like London and Durham, the University of Wales is federal. It was in 1872 that a university college was founded in Aberystwyth as the result of a movement for higher education supported, often from the most meagre resources, by all sections of the population of the principality. In 1883 a second college was established in Cardiff and a third in Bangor in 1884. The University of Wales was founded in 1893 with Aberystwyth, Cardiff and Bangor as its constituent colleges; a fourth college was established at Swansea in 1900; and in 1931 the Welsh National School of Medicine, originally an offshoot of the Cardiff college, was given the status of a school of the university. In 1960-61 there were 6431 full-time students in the university as a whole, Cardiff having 2002, Aberystwyth 1577, Swansea 1418, Bangor 1275 and the School of Medicine 159.

Even older than any of the colleges of the university of Wales is St. David's College at Lampeter in Wales which was established in 1822. Its royal charter empowers it to confer bachelor's degrees in arts (BA) and theology (BD and LTh). It is entirely residential and in 1960-61 had 199 students. Its recognition by the University Grants Committee for the purpose of grant dates only from 1961 when an agreement was reached

whereby the University College of Cardiff assumed (for a period envisaged as ten years) sponsorship for the academic standard of the St. David's degree of BA.

The 'modern' or 'civic' universities of England, which collectively had 37,600 full-time students in 1960-61, gained their full status only in the present century. Their rise and development has profoundly modified the whole pattern of university education in England.

They mostly had their origin in the university colleges which, under various designations, were established in large centres of population in the second half of the 19th century. These colleges themselves were in many instances the inheritors and successors of more loosely organized literary, scientific and cultural societies, many of which had been influenced by the extension courses and lectures provided by Oxford and Cambridge. The primary purpose underlying the establishment of these colleges was to provide centres of higher learning at a university level for the young people of the area in which they were founded. By their very nature they were not conceived as being residential on the Oxford and Cambridge pattern; the idea of halls of residence took root slowly; and though the universities which have emerged from them now draw their students from all parts of the country, few provide accommodation for more than 25 per cent. of their undergraduates. In some places the driving force which led to their foundation was an individual benefactor, in others the local community as a whole was inspired to provide itself with a college. The earliest of these newer institutions was Owen's College in Manchester (1851), followed by the Yorkshire College of Science in Leeds (1874), University College, Bristol (1876), Firth College, Sheffield (1879), Mason Science College in Birmingham (1880), University College, Liverpool (1881), University College, Nottingham (1881), Reading University College (1892) and Exeter University Extension College (1894). Within the 20th century Hartley University College was founded in Southampton (1902), a University College in Leicester (1918) and a University College in Hull (1927). Where there was also a local school of medicine, it generally became closely linked with the university college and so formed the nucleus of a future faculty of medicine.

Until they attained the status of full universities, these colleges prepared their students for the external degrees of the University of London. The first move was in the direction of federation. By a charter of 1880 the Victoria University was founded with a federal constitution and Owen's College, Manchester, was made the first constituent college, to be joined subsequently by University College, Liverpool (1884), and the Yorkshire College, Leeds (1887). In 1900, however, Mason College in Birmingham obtained its own charter as a university, and any trend towards federation was abruptly halted. Liverpool obtained its own charter in 1903, and Leeds in 1904,

leaving the title of Victoria University in the sole possession of Manchester. Sheffield was granted a charter in 1905 and Bristol in 1909. The other university colleges had longer to wait, and apart from Reading, which obtained full status in 1926, no other university colleges were elevated to full university status until after the end of the second world war. There then followed in quick succession Nottingham (1948), Southampton (1952), Hull (1954), Exeter (1955) and Leicester (1957). In 1960-61 Manchester had 4944 full-time students, together with 1956 in the affiliated Manchester College of Science and Technology, Leeds had 4860, Birmingham 4457, Liverpool 4113 and Bristol 3366, Sheffield had 3009 and Nottingham 2506; Hull, Southampton and Reading had 1660, 1654 and 1257 respectively; Exeter reached 1410 and Leicester 1374.

With the civic universities we can include the Queen's University of Belfast. It was founded by royal charter as Queen's College in 1845, and, together with colleges in Cork and Galway, became part of a federal Queen's University in 1850. In 1880 the title of the university was changed to the Royal University of Ireland; and in 1908 a fundamental reorganization led to the establishment in what is now Eire of a National University of Ireland consisting of University College, Dublin, and the colleges in Cork and Galway, and to the conferring of full and separate university status on the college in Belfast under its present title. The income of the Queen's University is now largely derived from the government of Northern Ireland, which since 1945 has relied on the advice given by the University Grants Committee. The number of full-time students in the university in 1960-61 was 3295. (For the University of Dublin (Trinity College) see Appendix 1.)

The University College of North Staffordshire (now the University of Keele) was founded in 1949 at Keele Hall near Newcastle-under-Lyme, largely on the initiative of the late Lord Lindsay of Birker, master of Balliol College. It is exceptional in several respects: the broad aim of its curriculum is to provide an integrated course of study in the humanities, the social sciences and the natural sciences, even before it gained full university status (in 1962) it was nevertheless empowered to confer the degree of BA, and major academic matters were controlled by a board, the majority of whose members were representatives of the universities of Oxford, Manchester and Birmingham. It is a self-contained and almost entirely residential academic community and in 1960-61 had 769 students.

The youngest member for the time being of the university family is the University of Sussex at Brighton which was formally constituted as a university college in 1959 and was accorded full university status by royal charter in 1961. It owes its origin to a scheme formulated locally, in support of which the University Grants Committee agreed to make grants for capital expenditure and maintenance. Sufficient progress was

made with the recruitment of staff for a small number of students in arts to be admitted in October 1961 and a full entry of 300-400 in arts and science in October 1962. To begin with, students will be accommodated in lodgings in Brighton itself. The new university will grant its own degrees of BA and BSc and standards will be guaranteed by an academic advisory committee of five or six outside persons of recognized standing. A distinctive feature of the curriculum in arts will be the grouping of subjects under the headings: English studies, European studies and social studies.

Approval has also been given for the foundation of six other universities; but it is convenient to make fuller mention of these in connexion with the problems of expansion (see pp. 900-901).

It was only belatedly that women achieved full status within the universities. Although Bedford College for Women was established in London in 1849, it was not until 1878 that the University of London led the way for other universities by admitting women to degrees. At Oxford, Lady Margaret Hall was founded in 1878, Somerville in 1879, St Hugh's in 1886, St Hilda's in 1893 and St Anne's (formerly the Society of Oxford Home-Students, established in 1879) in 1952. Of the Cambridge colleges, Girton originated at Hitchin in 1869 and was removed to the near neighbourhood of Cambridge in 1873. Newnham was founded in 1871. Oxford admitted women to examinations in 1884, to degrees and full membership in 1920 and to university teaching posts in 1927. Cambridge admitted women informally to tripos examinations in 1872 and to 'titles of degrees' in 1923, in 1926 women were declared eligible for university teaching posts and therefore for membership of boards of faculties, but not until 1948 were they admitted to actual degrees and full membership of the university. Women have been admitted to the universities of Scotland since 1892, to Durham since 1896 and to all the modern civic universities from their foundation.

**UNIVERSITY CONSTITUTIONS.** All the universities of the United Kingdom exercise their rights and functions in virtue of royal charters, which in the case of the older English and Scottish universities superseded the earlier papal bulls which authorized their foundation. Supplementary to the charter of each university, and in conformity with it, are statutes (in Scotland, ordinances) which are approved by the sovereign in council. A charter defines the powers, privileges and constitution of the university in broad general outline; the statutes, which within the framework of the charter can be amended on the initiative of the university subject to the approval of the privy council, provide for the more important and permanent constitutional details which need to be clearly set forth. Subsidiary to the charter and statutes, there are ordinances, decrees, graces and regulations which the university itself finds it convenient to promulgate from time to time for

the orderly conduct of its affairs; and it is under these headings that, for example, the particular requirements for entrance and for the award of degrees are laid down.

Each university has as its official head a chancellor, a person distinguished in rank, in public service or in scholarship, who is elected for life by one of the statutory bodies of the university. Though the office is in the main honorific, the chancellor normally presides at the largely formal meetings of the supreme governing body of the university and at congregations where he confers degrees. Many universities provide for a limited period of one or more pro-chancellors for the absence of the chancellor, though in the case of the latter, except in the matter of conferring degrees, which then becomes a function of the vice-chancellor. In the four Scottish universities, in addition to the chancellor, there is also a rector elected for a period of three years by the matriculated students for the time being; he may be a person of great distinction, a popular figure, or a transient notoriety; he is *ex-officio* president of the university court, though in most instances he does not exercise this right; he also appoints to the court an assessor who may in fact act for a succession of rectors. In most universities the chief academic and administrative officer is the vice-chancellor, who holds a permanent appointment (except in Oxford, Cambridge, London, Durham and Wales, where the tenure is for two or three years); in Scotland the official title is principal, though the holder of the office is usually nominated as vice-chancellor by the chancellor; in London there is also a permanent officer with the title of principal who shares administrative and academic duties with the vice-chancellor. The chief executive functions are in the hands of the registrar or secretary, who prepares the official business for the university bodies, keeps the university records and ensures the carrying out of official enactments. At both Oxford and Cambridge there are two proctors (appointed annually from amongst the fellows of colleges) whose primary function is the control of undergraduate discipline but who are also *ex-officio* members of certain university bodies.

In the universities of England (apart from Oxford and Cambridge), Wales and at the Queen's University of Belfast there also exists by charter the office of 'visitor' which (except at Durham) is held by H.M. the Queen in Council. The visitor has the right to direct an inspection of the university and its work; but only in the most extreme circumstances would this right be exercised. At Durham, as at many of the individual colleges of Oxford and Cambridge, the office is held *ex-officio* by a lord bishop.

The academic side of university government is based on faculties each of which is concerned with the affairs of a group of related studies, and for the minor details a faculty is often advised by boards of studies. The number of faculties varies from one university to another, as to some extent does the grouping of subjects within faculties of

the same name in different universities. The work of the faculties is co-ordinated and approval given to their recommendations by some higher academic body, which in the majority of universities is called the 'senate'. The conduct of financial affairs is very generally entrusted by charter or statute to a university body for which the commonest name is the 'council'. Ultimate authority within the university is, in most instances, vested in a supreme governing body for which 'court' is the most usual name.

When we turn to the individual universities or groups of universities we find not only that there are many confusing divergences of nomenclature but that within the broad pattern outlined above the precise distribution of function as between the various bodies is far from being identical. Furthermore, very important distinctions can be drawn according to the size and composition of the university bodies and the powers and influence within the university constitution which is exercised by the academic staff, by the graduates of the university or by lay members nominated and appointed from outside the university.

At Oxford and Cambridge the government of the university is entirely in the hands of members of the university and there is no representation of any outside authority on any of the statutory bodies. At Oxford the chief legislative functions are in the control of the 'congregation', a very large body comprising the resident teachers and administrators in the university; every measure submitted to it, however, has to be initiated by the 'hebdomal council', a smaller body of between twenty and thirty members elected from within the university, which digests the great volume of business coming from the general board of the faculties. Financial administration, though not financial policy, is entrusted to the 'curators of the chest', an elected body of twelve academic persons, who must be consulted by the hebdomal council when finance is involved in its proposals. When a statute is passed by congregation by less than a two-thirds majority it must be submitted to 'convocation', a body to which belong masters of arts and holders of higher degrees who have kept their names on their college books and paid their dues. Convocation, however, has only a suspensory veto and that for a limited time. Its other functions are to elect the chancellor and to approve honorary and official degrees. In view of the fact that most of its members reside far from Oxford, it is only rarely and only on the most controversial of issues that more than a fraction of its members assemble.

At Cambridge the pattern is very similar to that at Oxford. The chief legislative body is called 'regent house', to which belong the teachers and administrators resident in the university. The much smaller initiating and executive body which sits the proposals of the general board of the faculties is called the 'council of the senate', it consists of the chancellor and vice-chancellor together with sixteen resident graduates elected by regent house. Corresponding to convocation

at Oxford there is the senate, consisting of bachelors of divinity, masters of arts and doctors; apart from some formal duties, it elects the chancellor and is a court of appeal in certain cases from decisions of regent house. Financial affairs are in the hands of a financial board comprised of a small number of academic persons elected or appointed by the other university bodies.

In quite sharp contrast to the self-contained form of university government at Oxford and Cambridge are the constitutions of the modern 'civic' universities. At Oxford and Cambridge the government of the university has in essence evolved from the closed corporations or guilds of teachers and students. In the modern universities the pattern was determined by other considerations, not the least of which was the large spread of interested bodies which were concerned in their foundation and development. Here the three major bodies are the court, the council and the senate. The court is the supreme governing authority; it is a large body, in some cases between 300 and 400 in number, containing not only the professors and representatives of the graduates of the university and heads of schools, but persons nominated by other universities, by local authorities and educational organizations within the university area, by religious denominations and by learned societies. It meets annually to receive the financial accounts and other reports on the work of the university and to appoint certain university officers; it may also meet specially for other purposes; and in most cases it is the body which elects the chancellor, and in a few cases appoints the vice-chancellor. The council, generally containing between 30 and 40 persons, is the body which administers the finances of the university; it confirms the recommendations of senate for academic appointments, usually but not invariably its formal approval is necessary for academic regulations proposed by senate, and in most universities, generally in consultation with the senate, it appoints the vice-chancellor. The largest single element in its composition consists of members appointed by the court; a restricted number is nominated by senate or faculties from amongst the professoriate and other teaching staff, and some are nominated by local authorities; the chancellor and vice-chancellor are *ex-officio* members. The council is thus not a predominantly academic body, though some or many of its key members may in fact be graduates of a university. Though it has wide powers which could be used to thwart the considered advice and recommendations of the senate, it refrains in practice from interfering in matters of purely academic policy, and in academic appointments; and it is generally agreed that the worldly wisdom and experience of affairs collectively possessed by the council has in many ways brought very considerable advantages to the newer universities. The senate, of which the vice-chancellor is *ex-officio* chairman, is, subject to such supervisory or confirmatory powers as the council possesses, the chief academic body; it approves and

co-ordinates the work of the faculties, makes recommendations for the filling of professorships and other academic posts, and is responsible for the teaching and discipline of the undergraduates. Its membership consists of the professors of the university with the addition in most cases of a limited number of representatives of the other teaching staff, who apart from their wide representation on faculties and boards of studies do not have a share in the university government comparable to that afforded by the congregation at Oxford or regent house at Cambridge. The graduates of a modern university are members of a statutory body generally called convocation which meets annually and may discuss and express an opinion on any matter concerning the university but has no powers corresponding to those of the convocation at Oxford or the senate at Cambridge.

The government of the Scottish universities is defined by the Universities (Scotland) Acts of 1858 and 1880, modified in the case of St. Andrews by an act of 1953. The supreme governing body is the court, which, unlike the body of the same name in England, is a small but powerful one consisting of the rector, the principal, the lord provost of the city, three members nominated by the chancellor, the rector and the lord provost, four members elected by the academic senate and four by the general council; it administers the property and finances of the university, makes academic appointments, and can review any decision of senate against which there is an appeal. In St. Andrews the court is of the same general pattern but consists of 21 persons. The '*senatus academicus*', which has responsibility for instruction and discipline, and has the sole power of granting degrees, consists of the professors of the university together with a limited number of other members of the teaching staff; its *ex-officio* chairman is the principal, who is appointed by the crown except at Edinburgh, where his appointment (like that of a small number of professors) is in the hands of a special body of curators of patronage. The general council, which consists of the chancellor, the members of the court, the professors, the graduates, and renders and lectures of one year's standing, meets twice annually and may make representations to the court on any matter affecting the university; it elects the chancellor and appoints its own four representatives to the court.

The underlying principle of the constitution of the federal universities of London, Durham and Wales is that in academic and financial matters which concern the whole university the central authority has control, leaving the constituent colleges and institutions to manage all other matters for themselves. In London the court, which has 17 members including representatives of the senate, persons appointed by the crown and persons nominated by the London County Council, controls the finances; it is the body which applies to the University Grants Committee, local authorities and other public bodies for grants and distributes them to the constituent schools and

institutes of the university. The senate is the supreme governing and executive body in academic matters, and appoints, in consultation with the school concerned, the professors, readers and all but the more junior members of the teaching staff. Its fifty or so members include representatives of the constituent schools, of the faculties and of the graduates, amongst its important standing committees are the academics council and the collegiate council. Convocation, which consists of the graduates who have paid a prescribed fee, elects 17 members to the senate, and may discuss and express its opinion on any university matters; it is a point of significance that its elected chairman is *ex officio* a member of the court and of the senate. Each of the constituent schools of the university has its own internal form of government, consisting in general of a governing body with lay representation, an academic board composed from members of the teaching staff and a finance committee.

The governing bodies of the University of Durham are a court of about 30 members, the senate, boards of faculties and convocation, all of which have functions closely similar to the corresponding bodies in London. In the composition of these bodies the two divisions of the university at Durham and Newcastle (as at present constituted) have appropriate representation and the court contains a number of lay members. The warden of the Durham Colleges and the rector of King's College, Newcastle, alternately act for periods of two years each as vice-chancellor. For its internal affairs each division is governed by a council and an academic board.

The University of Wales is governed centrally by a large court of over 250 members, including representatives of local authorities and public bodies in Wales and of the graduates of the university. Its finances are controlled by a council of about 20 members, on which in addition to the vice-chancellor and heads of the constituent colleges there are members appointed by the court and by local authorities. Academic matters are in the hands of an academic board consisting of representatives of the faculties in the constituent colleges. The guild of graduates is constituted similarly to the convocation of the modern universities, and has the same right of expressing its opinion on university matters. Each of the constituent colleges has its own board of governors, council and senate for the conduct of its internal affairs. The principals of the four constituent university colleges act in rotation as vice-chancellor, each for a period of two years.

**RELATIONSHIP TO GOVERNMENT.** The universities of the United Kingdom are independent self-governing bodies which do not come within the jurisdiction or control of any ministry. It is from royal charters that they derive their rights and privileges, and any amendment of their charters or statutes is made by the crown acting through the privy council on the application of the universities themselves. It is true that, from time

to time, royal commissions have been appointed and acts of parliament passed to deal with situations which the universities themselves for one reason or another were unable to resolve: such, for example, are the Oxford and Cambridge University Acts of 1854, 1856 and 1877, the Durham University Acts of 1861 and 1935, the London University Acts of 1898 and 1926 and the St. Andrews University Act of 1953; but the initiative in setting these exceptional procedures in motion has generally come from within the universities themselves and they have always been adopted with the co-operation or at least the concurrence of the universities concerned. Furthermore, whatever changes may thereby have been effected in the constitution or structure of a single university, the essential autonomy of universities both individually and collectively has invariably been preserved: they alone decide what degrees they shall award and the conditions on which they shall grant them; they alone decide what students they shall admit and what professors and other academic staff they shall appoint; they can hold property and they have unfettered discretion in the use of their own funds.

This freedom of the universities from any form of governmental direction is all the more noteworthy when viewed against the background of financial assistance which is now given to universities by the Treasury. Until the end of the first world war, such grants as were made to universities from governmental sources were sporadic and inconsiderable in amount. Universities relied for most of their income on endowments and private donations, on the fees paid by their students, and in many cases on grants from local authorities. In July 1919, however, when the financial stability of universities was causing great anxiety, the Treasury established a standing committee with the title of 'The University Grants Committee' which had the following terms of reference: 'To enquire into the financial needs of university education in the United Kingdom, and to advise the government as to the application of any grants that may be made by parliament towards meeting them'. For the session 1919-20 the total of the grants made available to the new committee for distribution to the universities and the independent university colleges was £215,000; by 1929-30 the sum had risen to £1,800,000; and it increased slowly to £2,224,000 in 1939-40, by which time it represented just over one-third of the entire income of the universities. During the second world war, when the contribution of the universities to the national effort, especially on the scientific side, was of paramount importance, the maintenance of the annual Treasury grant at much the same level saved the universities from undue worry about their finances.

By 1945 it had become clear that there would be in the future a greater demand and a greater need than ever before for university education; and that consequently not only must the subvention provided by the state be increased but also the

nature of the partnership which, for a quarter of a century, had been developing between the universities and the University Grants Committee should be made more explicit. In 1946, therefore, the terms of reference of the University Grants Committee were significantly revised, and with the further amendments approved in 1952 they now read as follows. 'To enquire into the financial needs of university education in Great Britain, to advise the government as to the application of any grants made by parliament towards meeting them; to collect, examine, and make available information relating to university education throughout the United Kingdom; and to assist, in consultation with the universities and other bodies concerned, the preparation and execution of such plans for the development of the universities as may from time to time be required in order to ensure that they are fully adequate to national needs'. The declared function of the University Grants Committee is no longer formally restricted to the distribution of grants; and the co-ordinated development of the universities in the post-war years has been firmly founded on the information and advice which the committee has placed at the disposal of the universities and on the continuous consultations which have taken place on matters of broad policy no less than on details of planning. The extent to which parliamentary grants made available to the committee and so to the universities have increased in the post-war period is indicated by the following figures. Apart from grants for buildings and equipment, the amount given towards recurrent expenditure for the five-year period 1947-52 was £54,630,000; for 1952-57 it was £120,000,000; in March 1957 the chancellor of the exchequer announced that the grants for 1957-62 would be £173,500,000, rising from £130,600,000 in 1957-58 to £30,500,000 in 1961-62, further supplementary grants were subsequently added; and in the spring of 1962 it was announced that the grants for 1962-67 would be £320,000,000, rising from £26,000,000 in 1962-63 to £76,500,000 in 1966-67. The recurrent Treasury grant in the session 1947-48 represented 35.8 per cent. of the total income of universities, in 1960-61 it accounted for 70.5 per cent.

There are three reasons why this vast increase in the actual sums given to universities and the striking change in the proportion such sums bear to total income have not brought with them any diminution in the autonomy of the universities. In the first place, informed public opinion is convinced that universities could not do their work effectively if there were any encroachment on their freedom; secondly, there is a firmly established feeling of confidence between the universities and the government; and thirdly, the wisdom and impartiality of the University Grants Committee itself and the effectiveness of the committee's procedures in relation both to the Treasury and the universities have provided a practical solution

for a situation which could have raised problems of great magnitude.

The University Grants Committee (abbreviated as U.G.C.) as now constituted has two full-time officers, a chairman (Sir Keith Murray, KCB, BSc PhD MA BLitt\*) and a secretary (Sir Cecil Sykes, KCMG, CVO, MA), who are assisted by a small number of permanent officials. In addition to the chairman there are sixteen members of the committee who are appointed by the chancellor of the exchequer after consultation with the minister of education and the secretary of state for Scotland, are part-time and unpaid, and individually serve for a term of years only. Rather more than half of these members are university professors or other persons of high academic distinction and sound judgment who have an intimate knowledge of universities; and though they are appointed as individuals and not as representatives of particular universities or of particular fields of study, they are so selected that collectively they can assess academic needs of all kinds. The other members of the committee include a headmaster or headmistress, a local authority director of education and prominent leaders of commerce and industry. Generally at least one member of the committee is a woman. Since 1956 two eminent non-academic persons have been appointed to sit as members of the committee when academic salaries are being considered. The main committee appoints sub-committees consisting of a nucleus of its own members who sit with the appropriate experts to advise it on particular topics. There are standing sub-committees on medicine, dentistry, technology, agriculture and veterinary science. From time to time special sub-committees on particular topics are set up, e.g. halls of residence, university teaching methods. The offices of the committee are at 38 Belgrave Square, S.W.1 (tel.: Belgravia 4801). The committee publishes annually a statistical abstract entitled *Returns from Universities and University Colleges*, which contains a report on the activities of the committee during the previous year and deals with the various categories of students, the degrees and diplomas awarded and the staffing and finances of the individual universities. After the end of each quinquennium the committee also publishes a lengthy report entitled *University Development* which is much less statistical than the annual returns but provides an invaluable survey of the whole field of university affairs; it is here that one gets the clearest picture of the broad lines of progress, of the needs that are emerging and of the problems that still await solution.

The recurrent grants made through the University Grants Committee are based on a five-year period. A year or so before the beginning of each quinquennium members of the committee and of some of the sub-committees visit each university institution to gain by personal contact with the governing body, the professors, the non-professional staff and the students an insight into the

\* who from Oct. 2, 1963, will be succeeded by Sir John Wolfenden, at present vice-chancellor, University of Reading.

working of the university, its achievements, its needs and its programme for development. So far from being inquisitorial, these visits are a fruitful source of mutual understanding. By a fixed date each university subsequently submits to the committee a detailed estimate of its income and expenditure for the ensuing quinquennium, and on the basis of these estimates the committee makes its own consolidated recommendation to the Treasury. When the chancellor of the exchequer has announced to parliament the amounts he proposes to include in the annual Treasury estimates for the next five years, the committee makes an allocation to each university in England, Scotland and Wales. In the case of Oxford and Cambridge the colleges do not participate in the allocation, which is made for university purposes only; in London, Durham and Wales the central university authorities distribute the allocation made to the university amongst the constituent colleges and institutions.

It is at this point that the freedom of the universities is made particularly manifest. The assistance provided is given as a block grant for each of the five years and is not divided under sub-headings; and apart from an understanding that academic salaries shall be paid within agreed ranges, each university expends its grant alongside its other income in the way it thinks best. For their part, the universities are very conscious and jealous of the trust thus reposed in them, and no one of them would contemplate embarking on a major change of policy involving heavy future commitments without previous consultation with the committee. This quinquennial system of grants also affords a valuable element of flexibility in the conduct of university affairs, within reasonable limits a university can plan with some confidence for five years ahead and husband its resources accordingly.

Non-recurrent grants made by the Treasury towards the cost of new buildings and their equipment, the adaptation of older structures and the acquisition of sites, are assessed on an annual basis, though the total amounts to be made available for each year are announced well in advance so that planning can proceed in an orderly fashion. The proposals made by the universities for such capital expenditure are given an order of priority by the University Grants Committee and approved within the limits of available finance. Before final approval is given, the plans for each separate building are scrutinized and commented upon by the committee's own staff of experts and panel of advisers; from time to time also, on the basis of its accumulated experience, the committee indicates what standards of accommodation for various purposes it considers reasonable in normal circumstances. In the earlier post-war years, when the resources of the universities were at a low ebb, most of the non-recurrent grants covered the whole cost of a project. More recently, as universities have in varying degrees been able to secure funds for themselves by public appeals, they have found

it possible to contribute something towards the cost of new buildings from their own resources; but for the major part of such expenditure they have still to rely on Treasury aid.

Between 1947 and 1957 approximately £42,000,000 was expended by way of non-recurrent grants; for each of the calendar years 1958 and 1959 the sum of £12,000,000 was made available, and for 1960 and 1961 £15,000,000. Early in 1961 it was announced that £25,000,000 would be provided for each of the years 1962 and 1963, and that planning for 1964 and 1965 could proceed on the basis of £30,000,000 per annum.

**FINANCE.** In the session 1960-61, which is the latest year for which complete returns are available, the total income of the universities of Great Britain amounted to £68,706,388. The chief items within this sum were interest on endowments, £1,963,347 (2.9 per cent.), of which £1,139,019 was for particular purposes and £824,328 for general purposes, donations and subscriptions, £306,806 (0.7 per cent.), grants from local authorities, £1,577,564 (2.3 per cent.), Treasury recurrent grants, £48,390,076 (70.5 per cent.), grants from other government departments, £1,228,302 (1.7 per cent.), tuition, examination and other fees, £6,317,803 (9.2 per cent.) including £244,045 from the Ministry of Education for the fees of teachers in training, payments for research, £6,215,400 (9.1 per cent.), of which £3,212,605 came from government departments and £3,002,795 from other bodies; and various miscellaneous items, £2,498,200 (3.6 per cent.).

For the same session, 1960-61, the total expenditure of the universities, apart from £647,358 allocated to reserves, amounted to £67,822,988. The major items within this sum were: administration, £4,541,767 (6.7 per cent.); salaries and payments for superannuation of teaching staff, £29,013,872 (42.1 per cent.); departmental and laboratory maintenance, including wages of technical staff, £14,307,646 (21.1 per cent.); libraries and museums, £2,877,328 (4.2 per cent.); repairs and maintenance of buildings, £2,192,072 (3.2 per cent.); other maintenance costs including light and heating, £6,643,680 (9.8 per cent.); capital expenditure met from income, £553,467 (0.8 per cent.); general educational expenditure including examinations, publications and student amenities, £3,461,722 (5.1 per cent.); and miscellaneous items, £3,331,423 (4.9 per cent.). As from August 1962 universities will be reimbursed from special earmarked funds for their expenditure on local rates and taxes, amounting in 1960-61 to almost £1,500,000 (2.2 per cent.).

**PRE-UNIVERSITY EDUCATION.** All but a relatively small minority of the English and Welsh students who enter the universities have been educated up to the age of 18 or over in one or other of three types of grammar school. First there are the grammar schools maintained or assisted and controlled by local education authorities with the aid of grants from the Ministry of Education; pupils in these schools pay no fees

and with rare exceptions will have had their primary education up to the age of 11 or 12 in a school maintained by a local education authority; they account for about 78 per cent. of the whole grammar school population; and pupils from such schools account for about 60 per cent. of the university population. Secondly, there are direct grant schools which receive aid directly from the Ministry of Education and not through a local education authority; it is a condition for receiving a grant that at least one-quarter of the pupils shall have free education and that the fees payable by the remainder shall be related to parental income; these schools are controlled by a board of governors on which local education authorities must be represented; many, but not all, of the pupils will have previously attended a local education authority primary school up to the age of 11 or 12, which is the normal age for entry to direct grant schools; the pupils in these schools account for about 12.5 per cent. of the whole grammar school population, and pupils from such schools account for about 13.5 per cent. of the university population. Thirdly, there are the independent schools which receive no grant from the Ministry of Education or from local education authorities but depend on their endowments and fee income; the control of these schools is vested in a self-perpetuating governing body which in some instances may include a person nominated by the Ministry of Education; apart from the holders of scholarships awarded by the school, all pupils pay whatever fees may be fixed by the governing body; the age of entry to these schools is normally 13 and most of the pupils will previously have attended a fee-paying and privately owned preparatory school; the pupils in independent schools account for about 10 per cent. of the whole grammar school population; and pupils from such schools account for 18.5 per cent. of the university population.

Separate schools for boys and for girls is the predominant pattern of grammar school education, just over 30 per cent. of the local education authority schools, but less than 4 per cent. of direct grant and independent schools, are attended by both sexes. The local education authority grammar schools are almost exclusively for day pupils and the number of boarding places provided in such schools throughout the country is only about 1 per cent. The direct grant schools are also mainly for day pupils, but many of them have some boarding provision for pupils whose homes are outside the school area; all told, about 9 per cent. of the pupils at such schools are boarders. In the independent schools, on the other hand, 70 per cent. of the pupils are boarders. There is nothing to preclude the transfer of a pupil from one type of grammar school to another, but such transfers are not in fact common.

The frequently used term 'public school' is not current in the official documents of the Ministry of Education. It came into use in the early 18th century to describe those grammar schools of good standing, often originating in charitable

foundations for poor scholars, to which well-to-do parents were beginning to secure entrance for their sons as boarders in preference to having them educated by a tutor or in a small private school. The term is now popularly used, with social as well as educational connotations, mainly in reference to the independent boarding schools for boys; but a more precise and generally agreed description, which includes most direct grant schools, defines a public school as one which is represented on the Governing Bodies' Association or the Headmasters' Conference. There are in fact about 190 such schools and their eligibility for representation on the organizations just mentioned depends upon how free their governing bodies are from outside control, on the proportion of senior pupils in the school, and on the number of their former pupils who have gone on to universities. By analogy the term 'public school' is used, though much less frequently, in reference to girls' grammar schools of comparable standing.

The statutory age below which a pupil is not permitted to leave school is 15; but the full grammar school course extends to the age of 18 or a little over. The most important stage in the education of grammar school pupils is the Vith form, which is entered at about the age of 16 and extends over two or three years. It is here that pupils can begin to develop their own special interests, learn to some extent how to work by themselves, and prepare for entry to the universities or the professions. Generally the Vith form is organized in sections with distinctive titles, e.g. classica Vith, science Vith, modern Vith, according to the main emphasis of a particular field of study. Some form of daily religious observance is a feature of all grammar schools and some schools of all three categories are particularly associated with the Anglican, Methodist or Roman Catholic denominations. In day schools the activities of the day begin with a brief service of morning prayers conducted by the headmaster or headmistress in the school assembly hall; schools which provide for an appreciable number of boarders have their own chapel, sometimes a building of great beauty, where services are conducted by a chaplain who is generally a full member of the staff of the school.

Public education in Scotland, exclusive of the universities, is administered centrally by a government department, the Scottish Education Department, and locally by 35 education authorities. Many of the grammar schools in Scotland, though now often assisted from public funds, are old foundations endowed by benefactors by whose names they are still known (e.g. George Watson's College in Edinburgh); the newer ones, officially designated as senior secondary schools, have been established by the local authorities. Few of the older Scottish schools have developed a boarding side to any considerable extent. Some dozen or so schools (including several wholly for boarders and outside the official system) are represented on the Headmasters' Conference and are included in the list of public schools. Apart from the older

grammar schools in the large cities, most schools are co-educational.

In Northern Ireland school education is administered by the Ministry of Education for Northern Ireland and by local education authorities. An important feature of the educational system is the number of schools which are managed by religious denominations though generously assisted from public funds.

**ADMISSION.** In Appendix III a comprehensive and detailed account of university requirements for entry to first degree courses will be found; but something may here be said about the broad outlines. To qualify for admission to a university in order to read for a degree, a prospective student must have passed an examination or examinations which satisfy the minimum academic requirements for matriculation. Except for the Queen's University of Belfast, the universities do not hold a separate matriculation examination of their own, but rely upon the results of examinations conducted in England and Wales by nine examining bodies approved by the Ministry of Education for the General Certificate of Education (G.C.E.). At Oxford a specific matriculation examination called 'responsions' was held for the last time in 1960; and a similar one at Cambridge known as the 'previous examination' was discontinued in 1961. In Scotland the Scottish Education Department awards a Scottish Certificate of Education and in Northern Ireland the Ministry of Education awards a Senior Certificate, both of these are recognized by all universities as providing evidence which can be used for purposes of matriculation. It has to be noted, however, that the General Certificate of Education, the Scottish Certificate of Education and the Senior Certificate of Northern Ireland are intended to serve a variety of purposes, of which qualification for university entrance is only one; and it is only under specified conditions that these certificates are accepted by universities. Thus, the subjects for the General Certificate of Education are examined at three levels of attainment: the ordinary level, which is taken at about the age of 15 or 16, the advanced and scholarship levels, which are taken two or three years later; and in general the minimum entrance requirements for universities when based on the General Certificate of Education involve the passing of five or six subjects selected from a prescribed list, two at least of which must be passed at the advanced or scholarship level. Similarly there are special conditions under which the Scottish Certificate of Education and the Senior Certificate of Northern Ireland are accepted for university entrance.

In 1961 the Minister of Education accepted a recommendation of the Secondary School Examinations Council that from 1963 or 1965 at the latest the type of paper now set at scholarship level should be modified and the name changed to 'special'. The syllabuses of the advanced level papers are also being reconsidered. In 1962 the Committee of Vice-Chancellors and Principals

made public certain proposals which are still under discussion for a new pattern of entrance requirements designed to test not only a pupil's specialized interests but also the continuance of his general education throughout the Fifth form.

Although the minimum entrance requirements of all universities are very much the same in principle, there are many differences in detail as between universities. The Scottish Universities Entrance Board, however, defines requirements which are common to the four universities in Scotland and the Northern Universities Joint Matriculation Board (which is also an approved examining body) defines those which are common to Manchester, Liverpool, Leeds, Sheffield and Birmingham. A partially successful attempt was made in 1948 to ensure complete interavailability of minimum entrance requirements; but it cannot now be assumed that the requirements laid down by one university will automatically be accepted at other universities. While it is still true to say that in very many cases it will be found that the passing of examinations which satisfy the minimum of one university will also satisfy most other universities, it is quite essential to enquire directly from the particular university concerned whether its own minimum entrance requirements have in fact been satisfied.

The satisfying of minimum entrance requirements does not for any university carry with it the right of entry, it is a general academic prerequisite and no more. Whether a person who has satisfied these minimum requirements will be admitted depends upon a number of factors. In the first place some faculties and departments require that particular subjects shall have been included in the qualifying examinations and often that they shall have been passed at the advanced level, e.g. mathematics at the advanced level is required generally for degrees in science and engineering and Latin at the ordinary level is widely, though not universally, required for an arts degree, and these particular faculty or departmental requirements can only be ascertained with certainty by consulting the calendars and prospectuses of the individual universities. Secondly, a bare pass even at the advanced level may not be thought to justify admission if the subject concerned is intended to be one of the candidate's main fields of study, the achievement in the qualifying examination must show clear promise of success in the university course. Thirdly, even though a student may have satisfied the general university and the particular faculty and departmental requirements, and have reached a respectable standard in the crucial subjects, the limited number of places available may introduce an element of competition between candidates; indeed, special entrance examinations of a high standard are held by the majority of Oxford and Cambridge colleges and a few London ones to enable a selection to be made from amongst the applicants. Furthermore, consideration is always given to confidential reports from heads of schools; and personal interviews are very frequently arranged before a final

decision is taken about admission.

For certain courses of study for a first diploma or certificate in some universities it is not necessary to have satisfied the same kind of academic requirement as is demanded for courses leading to a first degree, this is particularly so in the case of those courses in subjects such as social science which are intended to be taken by rather older persons whose formal education has not followed the normal pattern or whose personal experience gives them special claims for admission.

To be accepted for postgraduate study and research leading to a higher degree, a candidate must in general possess a first degree which is relevant to his proposed field of study, though that degree need not in most cases have been taken in the same university. Whether an applicant is admitted to postgraduate study and research is a matter which in the first instance is within the control of the head of department concerned, but registration as a candidate for a higher degree has to be approved by the faculty or a special board of the university. The number of qualified applicants who can be accepted depends in departments of pure and applied science upon the accommodation available in research laboratories and in all departments on the number of members of staff who are free to supervise research.

Overseas students who wish to read for a first degree or a first diploma must submit evidence of academic attainments comparable to those demanded of British students and satisfy the university that their knowledge of English is adequate for the purposes of the course they wish to pursue; any documents they submit should be properly attested by a responsible educational authority in their own country. In the case of some countries, it is also advisable that applications should be submitted through the official representative in the United Kingdom of the country concerned. Each application is judged on its individual merits, but the number of vacancies is limited and, in general, overseas students are recommended wherever possible to take their first degree in their own country. Those who wish to pursue a course leading to a higher degree or diploma must submit evidence of their attainments to the satisfaction of the head of the department concerned and of the university.

In June 1963, after consideration of proposals made by an *ad hoc* sub-committee of the Committee of Vice-Chancellors and Principals, the universities decided that it had become necessary to establish a central organization to handle the increasing number of applications for admission. This organization, the Universities Central Council on Admissions (U.C.C.A.), of which J. S. Fulton, vice-chancellor of the University of Sussex, is chairman, has its offices at 29 Tavistock Square, W.C.1 (secretary, L. R. Kay, BA). A scheme of procedure has been evolved to deal with all applications submitted by United Kingdom candidates for admission to first degree and first diploma courses at all universities other than Oxford, Cambridge, Aberdeen, Glasgow,

St. Andrews, Belfast and the medical and dental schools of London. The principle underlying the scheme (of which details are given in Appendix III) is that, while the central office provides a machinery which, by collecting, collating and controlling the distribution and interchange of relevant information regarding applications, will minimize uncertainties, confusions and delays in reaching decisions, a wide choice of university is nevertheless still open to candidates and each university remains wholly unrestricted in its selection of students from amongst those who include it in their list of preferences. The 1962-63 session is being treated as a running-in period, and though all applications for admission in October 1963 to the participating universities will be made to the central office, it is only applications for courses in technology which will be handled by the office beyond the stage of distribution to the individual universities. The full scheme will come into operation for all applications made for entry in October 1964 and later years.

#### STRUCTURE OF DEGREE AND DIPLOMA COURSES.

In the interests of clarity it is essential to refer to the degrees awarded by United Kingdom universities as being either first degrees or higher degrees. In the actual nomenclature of degrees there is a very confusing diversity: for example, BA and BSc are the titles of first degrees in arts and science respectively in most universities, but at Oxford and Cambridge the BA is awarded to students of both arts and science, in Scotland the first arts degree is called MA; at Oxford the BSc is a higher degree; but at Cambridge the title BSc is not used at all, and at Oxford and Cambridge the MA is granted without any further course of study or examination to any BA of the university after a specified number of years and on payment of a fee. The courses of study for a first degree demand full-time attendance at the university except in the case of evening students at Birkbeck College of the University of London and candidates for the external degrees of London. The period of study for a first degree in arts and science is a minimum of three years and may be four; in other faculties and for some professional courses, such as architecture in the faculty of arts, the period is generally longer and in the case of medicine and dentistry may be as much as six years. Exemption from first-year lectures and examinations is sometimes available on the basis of passes at the advanced level of the General Certificate of Education, but no first degree is awarded until the completion of three years of university study. It is only very exceptionally that a student transfers from one university to another during his course of study for a first degree; the credit allowed to him for courses previously taken depends upon the regulations of the university to which he transfers and upon the individual case; and in no circumstances, not even if he already has a first degree of another university, can he graduate without at least two years' full-time attendance at the university to which he goes.

In the faculties of arts and science the curricula and the first degrees awarded are of two main kinds: those which involve the study of a number of subjects not all of which need be pursued for the whole three years and in none of which is very highly specialized work required; and those which concentrate on a single field of study and its immediate ancillaries. The first of these types of degree is designated as *pass* or *ordinary*, and success depends upon the passing of the various subjects separately at the appropriate standards, failure in a subject can be retrieved by re-examination or by the substitution of another approved subject. The second type is called *honours* and is further particularized by mention of the field of specialization, e.g. honours in classics, history, natural science, physics, etc., success depends upon the candidate's performance in a comprehensive final examination (known at Oxford as 'schools' and at Cambridge as the 'trips') which can be attempted on only one occasion, successful candidates are normally awarded their degree as class I, II or III, the second class often being divided into two sections, the unsuccessful are either awarded a *pass* degree or allowed some credit towards the requirements for such a degree. In some universities the two types of degree are known as *general* and *special* respectively, and it is there possible for distinction or honours to be awarded for exceptional merit in the examination for the general degree. Since the curricula for the two kinds of degree in arts or science diverge considerably, it is usual for a student to be admitted on an honours or special course immediately on entry to the university or possibly at the end of his first year. In other faculties the courses of study for the ordinary and honours degrees are not so distinctive in the earlier years at least, and in some instances, e.g. medicine, there is indeed a final examination common to all students on the results of which a candidate of unusual merit may be awarded his degree with honours.

The courses for first diplomas and certificates are relatively simple in structure. Usually there is a closely defined curriculum covering one or two years which is followed by all candidates for a given award, though exemptions may be granted from particular parts of the course on the basis of previous attainments or experience. Most courses demand full-time attendance but some, e.g. in public administration, are part-time and extend over a longer period.

Higher degrees can be divided into three categories: masterships, the doctorate in philosophy (PhD or DPhil), and the senior doctorates. Candidates for a master's degree (e.g. MA, MSc, etc., with which should be classed the BPhil and BLitt of some universities) are normally required to possess a first degree, though it need not have been gained in the same university. Work for the degree most generally involves full-time attendance at the university for two years, it may involve the taking of special courses of study and seminars; it almost always involves the writing under supervision of a thesis or dissertation on

some particular topic within the student's special field of interest; a written examination is sometimes required in lieu of or in addition to a dissertation; and an oral examination is rarely dispensed with. It is possible, however, in many universities for a mastership to be awarded on the basis of a thesis to a person who has taken a first degree at that university (but not elsewhere) without further full-time attendance. The degree of PhD, which is common to all faculties and for which a first degree (or an approved equivalent, e.g. a diploma in technology awarded by the National Council for Technological Awards) is a prerequisite, is awarded after two or, more frequently, three years' full-time work within the university; though attendance at seminars may be required, the main test is the writing of a thesis which makes an original contribution to knowledge; an oral examination is very commonly required. In many universities members of the teaching staff are eligible for the degree of PhD under special conditions. The senior doctorates, which are designated on a faculty basis (e.g. DLitt, DSc, MD, etc.) and for which the possession of at least a master's degree is a normal prerequisite, are awarded to more mature and established workers on the basis of published contributions to knowledge.

Higher diplomas, e.g. in various branches of technology, in public health, etc., may be awarded, according to the subject and the university, either on a full-time or less frequently on a part-time basis. The possession of a first degree or first diploma is the normal prerequisite, attendance at formal courses of instruction with the passing of a written examination is the basis of the award, and a dissertation is not required. A certificate or diploma in education is awarded after one year of full-time study to graduates who are training to become teachers.

Except at Oxford and Cambridge where the examining is mainly done by panels of teachers drawn from the various colleges, one or more external examiners for each subject are appointed from the staffs of other universities to take part in the assessment of the work of candidates for a first degree or first diploma. This system helps to ensure a uniformity of standards throughout the universities. For all higher degrees a small panel of two or three persons, one at least of whom is from another university, is appointed to adjudicate on the dissertation or published work and, when necessary, to conduct an oral examination.

Quite outside the university system are the degrees conferred by the Archbishop of Canterbury which are called 'Lambeth' degrees from the official residence of the archbishop. The archbishop was given the power of granting degrees by the Peter Pence Act of 1533. There is no restriction on the type of degree which the archbishop may confer. Until about fifty years ago the archbishop conducted examinations for certain degrees. This is no longer the case and he gives degrees in virtue of contributions to scholarship, taking care to avoid disparity with academic standards. The degrees given recently

have been confined to DD, LLD, DLitt, MusDoc and MA. In past years degrees were given by archbishops in virtue of nomination to ecclesiastical office, but this is no longer the case. By tradition the hood and gown of a degree given by the archbishop are those of the same degree in the archbishop's own university.

**STAFF** The normal grades of the teaching staff are: professor, reader, senior lecturer, lecturer, assistant lecturer and demonstrator. In most university departments there is only one professor who is responsible for the organization of the instruction given in his subject and, where laboratories are involved, for the requisitioning and proper use of materials and equipment. In some of the pure and applied sciences the various branches are organized as separate departments, e.g. physical chemistry alongside of organic chemistry. When there are two or more professors in a single department, one of them is either permanently or for a period in administrative charge. The titles 'associate professor' and 'assistant professor' have never had any wide currency in the United Kingdom and are now very exceptional. Until the end of the second world war, the title of reader was mostly conferred on persons in independent charge of a subject or branch of a subject for which a professorship and separate department were not yet provided or alternatively on persons who had quite unusual distinction in a particular field of work; and in status the reader had precedence of a senior lecturer. Since 1945, however, in some universities the title of reader is awarded more readily than formerly in recognition of merit in research and the distinction between the two grades in status and salary is becoming less significant. At present the number of readerships and senior lectureships combined is restricted, in accordance with an understanding reached with the University Grants Committee, to about 22 per cent. of the total full-time non-professional teaching staff. Lectureships represent the career grade in university teaching and the maximum salary (now £1050) is reached at about age 40-45; but a lecturer has a reasonable prospect of securing promotion to a higher post in his own or another university. The post of assistant lecturer is usually held on an annual basis for three years and is regarded as being either temporary, and so not renewable after three years, or probationary, in which case promotion to a lectureship follows. Demonstratorships in most universities are temporary posts normally held for only one or two years. Most of the teaching work of the universities is done by full-time members of staff, of whom in 1960-61 there were in England, Scotland and Wales 1627 professors, 888 readers and independent lecturers, 1490 senior lecturers, 5770 lecturers, 1460 assistant lecturers and demonstrators and 1182 persons in other subsidiary categories; these figures, however, exclude 742 lecturers, assistant lecturers and demonstrators at Cambridge, and 421 at Oxford who combine university with college work; they

also exclude those college tutors who hold no university appointment. In some special departments and faculties, notably in medicine, an appreciable amount of instruction is given by part-time members of staff. It is impossible, therefore, to give precise figures for staff-student ratios, but, taking full-time staff alone, the proportion varies from 1.75 to 1.11 according to the special circumstances of an individual university or faculty.

At Oxford and Cambridge the traditional method of undergraduate instruction is the tutorial, a device which demands a high ratio of staff to students and imposes a heavy burden on the teacher. Every junior member of a college is placed by the college in the care of a senior member of the university who guides his studies, suggests to him what books he should read, what lectures if any he should attend, asks him essays and other written work, and week by week discusses with him, either individually or in small groups, what he has read and the work he has written. At the end of a term or vacation a more rigorous but still informal probing by the college may take place into a student's progress. Both the university and the colleges provide an abundance of formal lectures open to all members of the university, but attendance at them is not made compulsory by any regulation. In the case of science subjects involving experimental work in laboratories the instruction is inevitably more formalized than in the humanities.

In the other universities in general the basis of undergraduate instruction is the formal lecture, reasonable attendance at which is compulsory; in some of the more popular subjects in the larger universities a class of a hundred or more is not abnormal. The amount of written work which can be demanded from the students and dealt with by the staff differs greatly from subject to subject. The virtues of a more intimate form of instruction have, however, long been recognized, and wherever the ratio of staff to students permits, small tutorial groups to supplement or replace formal lectures have become a normal part of the programme of instruction. Written 'terminal' examinations are usually conducted by the departments at least once within the session and there is normally a statutory university examination in some part of the student's curriculum at the end of each session.

Candidates for postgraduate degrees involving research are in all universities assigned to the care of a supervisor who helps in the selection of a topic within the candidate's chosen field and places his experience as an original investigator at the disposal of the student. The departmental seminar for the reading and discussion of papers written by the students and for surveys of current progress in the subject is often an important part of the postgraduate training.

It is frequently stated that about a third of a university teacher's time is or should be available for his own researches. During term the pressure of teaching duties and, in the case of the more

senior members of the staff, of administrative and committee work, often make it difficult to achieve anything like this standard, and investigations which demand continuous application have often to be reserved for vacations. Conditions differ, however, very greatly not only from university to university but from one department to another. In this connexion it may be noted that there is no established practice of granting sabbatical leave, but members of staff are fairly frequently released for a term or their teaching load is reduced in order to enable them to finish a particular piece of original work or widen their experience.

The salaries of the academic staffs of universities are based on scales or ranges approved for purposes of grant by the Treasury after consideration of recommendations of the University Grants Committee to whom representations are made from time to time by the universities and the Association of University Teachers. As at Oct. 1, 1962, in faculties other than medicine a professorial salary is within the range of £2600 to £3600, that of readers and senior lecturers may have a maximum of £2425 or in special circumstances £2525, that of a lecturer rises from £1150 by annual increments of £50 and later of £75 to £1950 (extended to £2000 for a limited number of posts), and that of an assistant lecturer rises from £900 by £50 annually to £1050. For posts in London an additional allowance of between £60 and £100 is paid, according to grade. The salaries of clinical professors rise to £3900. The salaries of medically qualified non-professorial teachers in the faculties of medicine are higher than those in other faculties and there is a uniform annual increment of £100. The government announced in December 1962 that an additional grant, sufficient to raise expenditure on salaries by 10 per cent, would be made with effect from April 1, 1963; the cost in 1963-64 would be about £3,500,000. The University Grants Committee was asked to recommend how this additional money should be distributed among the various grades of staff. At the same time it was announced that the general question of salaries in universities (and in colleges of advanced technology) was being referred to the National Incomes Commission for review.

Superannuation for members of the academic and senior administrative staffs of all United Kingdom universities has, since 1919, been dealt with under the Federated Superannuation System for Universities (F.S.S.U.). The institution contributes a sum equivalent to 10 per cent. of the member's salary, the member himself contributing 5 per cent. The combined sums are paid as premiums on insurance policies of various types (endowment assurances, deferred annuities, etc.). To meet his individual requirements, the member has the choice between a number of policies issued by an approved list of insurance companies. If he moves to another institution within the scheme he takes his accrued rights with him. The policies mature in the member's 60th year and the capital and further contributions then accumulate interest

until the actual date of retirement (normally at 65 in most universities in England and Wales, but at 67 in Oxford, Cambridge, Liverpool, London and Manchester and, for professors, at 70 in the Scottish universities). The capital available on retirement is normally used for the purchase of an annuity of a kind appropriate to the circumstances of the member, though it is within the discretion of the institution to agree to other arrangements. It is inherent in the scheme that the amount of the annuity is directly related to the totality of a member's emoluments during his whole career as a university teacher, and bears no necessary relationship to his salary at retirement. To alleviate the hardships which arise under F.S.S.U. in a period when costs of living have been rising, the Treasury approved some years ago a scheme for a modest supplementation of F.S.S.U. annuities. In 1960 a new scheme was introduced whereby the supplementation is directly related to years of service and to the average salary received during the three years immediately preceding retirement.

When a person joins a university staff from some other service, any cash he is able to withdraw from another pension scheme may be accepted as a single premium under the F.S.S.U. towards an eventual annuity.

No generally applicable statement can be made about the method of filling vacant academic posts in universities. In the case of professorships at Oxford and Cambridge there is usually a formal announcement that a chair is vacant, and persons interested are invited to forward their names to the vice-chancellor for consideration by a duly constituted board of electors who need not confine their attention to the names submitted and whose decision is final. Elsewhere a variety of circumstances may determine whether a chair shall be advertised or filled on the basis of private enquiries; and a mainly or wholly academic *ad hoc* committee, variously constituted in different universities, makes a recommendation to be confirmed by the appropriate higher bodies. A small number of chairs (mostly in the older subjects) at Oxford and Cambridge and in the Scottish universities, known as regius professorships, are within the patronage of the crown, but it is believed that academic advice is normally sought before appointments are made to them. In all universities many chairs are specially associated with the names of benefactors, etc. (e.g. the Wykeham professorship of logic at Oxford). Many posts as reader, senior lecturer and lecturer are filled by promotion from within the university, but a considerable number are publicly advertised and appointments are made on the recommendation of a committee of the faculty concerned. The majority of posts as assistant lecturer are advertised. When an important post is advertised many universities take steps to ensure that the announcement is made not only at home but overseas. In no U.K. university is there any restriction as regards nationality, religious belief or political opinion to deter candidates from appointment. The overwhelming majority of

university teachers have in fact taken their first or a higher degree in a U.K. university, but apart from Oxford and Cambridge, each university has on its staff a substantial number, and generally an appreciable majority, of teachers who have graduated at some other university in the U.K.

**STUDENTS** In 1960-61\* there were 107,699 full-time students in the universities of the United Kingdom (apart from Belfast); of these 84,999 were reading for a first degree and 1958 for a first diploma, 17,836 were engaged in research or other advanced work (including 3551 who were taking the postgraduate courses for a teacher's diploma), and 906 were attending courses not leading to a degree or diploma. Of these full-time students 6932 came from overseas Commonwealth countries and 4676 from foreign countries. The number of men students was 81,330 and of women 26,369. The over-all percentage of those in arts faculties (including social studies and law) was 43, in science and technology 30.3, in medicine and dentistry 14.5; but for the students engaged in research and advanced work (apart from teachers in training) the percentages were 35.2, 53.8 and 7.9 respectively.

The number of part-time students in 1960-61 was 17,831 of whom 2407 (mostly evening students) were reading for a first degree or first diploma, 6234 were engaged in research or advanced work and 9190 were 'occasional' students taking intra-annual courses (including 'refresher' courses) not leading to a degree. Of the part-time students 2525 came from overseas Commonwealth countries and 2335 from foreign countries. Of the 6234 part-time advanced students 38 per cent were in arts, 15.5 per cent in science and technology and 45.5 per cent in medicine and dentistry.

The number of full-time students residing in colleges or halls of residence in 1960-61 was 27.4 per cent. of the total, in lodgings 30.7 per cent and at home 21.9 per cent; of the men 23.5 per cent. were in colleges or halls, 54.3 per cent. in lodgings and 22.2 per cent. at home, the percentages for women were 39.3 in colleges and halls, 30.7 in lodgings and 21 at home. These figures, however, need further interpretation. At Oxford and Cambridge (where the number of home students is quite insignificant) all lodgings used by students who cannot be accommodated within their college are approved by the authorities, and students who live in them dine regularly in their college, participate fully in the life of the college and are under the academic supervision of the college. At Oxford 50.2 per cent live in college and 49.8 outside; at Cambridge the percentages are 55 and 45. Apart from Oxford and Cambridge (and Durham) the provisions which universities themselves make for the accommodation of their students is by way of

halls of residence which are in the charge of a resident warden appointed by the university, the warden is in most cases a full-time or part-time member of the academic staff of the university and is assisted in hall by a small number of resident tutors drawn from the staff. The students who live in hall take their main meals there, use the common-room and library facilities provided and enjoy the full benefits of a corporate life in a homogeneous community with an ethos of its own. There are two major respects, however, in which halls differ from the colleges of the older universities though the warden and tutors take a keen interest in the personal welfare of the students in residence, it is not part of their function to supervise their studies, and when a student ceases to reside in hall he has few, if any, continuing rights or obligations, and, except in the most favourable circumstances, his connexion with it ceases, even though he may still be a student within the university. The provision of halls varies very greatly: e.g. in the Durham Colleges 67.6 per cent. of all the students are in halls, at Reading 59.9, at Bristol 29.9, in Wales 29.6 (Aberystwyth 45.1, Cardiff 21.7), at Newcastle 19.5, in London 18.3, at Liverpool and Manchester 20.5, at Sheffield 15, at Leeds 14.7, at Birmingham 10.8; in Scotland 12.4 (colleges in St Andrews 54.5, Aberdeen 6.8). In a number of these universities, however, the percentage is likely to rise in the near future as new halls are completed. Outside of Oxford and Cambridge the lodgings used by women not living in hall or at home must be approved by the university; men are generally free to make their own arrangements, though lists of approved lodgings are usually available.

Social life at Oxford and Cambridge centres in the college, and within each college there are athletic, debating and other societies confined to members of the college. Almost all colleges have their own athletic grounds. There is also a great proliferation of university societies open to all members of the university who wish to join; some of them are of long standing, others exist for a brief space and are heard of no more. Apart from the athletic and boating clubs and the dramatic societies, the best known are the Union at Oxford and the Union Society at Cambridge, both of which provide for their members a good library and the usual amenities of a club, but which are even more famous for their debates at which many who later achieved eminence in public life have first made their quality known. In most other universities there is a guild of undergraduates or students' representative council, the establishment of which is prescribed by charter. The students themselves elect their own officers to conduct the affairs of the guild. The social activities of the guild are centred in a union building, owned by the university but managed mainly by the students themselves, in which are provided dining-rooms, cafeterias, a library for leisure reading, a hall for

\* The latest detailed figures published by the University Grants Committee in their official *Reviews* relate to 1960-61, see also 'The Year' section of each university entry below.

debates and dancing, a gymnasium, lounges and quiet rooms. Normally there is a single union for men and women; in some places student meals are provided in a refectory run by the university. Membership of the guild and the payment of the subscription to the union (at present about £6 to £7 per annum) are compulsory for full-time undergraduates. The major societies, debates and the athletic clubs are organized as part of the guild activities, and the other student societies, religious, political, literary, or departmental, hold their meetings in the union. Athletic grounds are provided by the university, but in large cities they are often some considerable distance from the union. In all universities there is an officers' training corps which is the responsibility of the army authorities and in some there is also an air squadron; membership of either of these is entirely voluntary.

Particularly since 1945 universities have developed student health services in order to ensure that a student's academic progress shall not be unnecessarily impeded through lack of medical attention; in some cases there are one or more full-time medical officers in charge of this work. The extent to which students are under an obligation to avail themselves of these services varies; but at least a general overhaul on admission and a chest X-ray are usually expected. Associated with the health services in almost all universities there is a voluntary or compulsory scheme of physical education for students. Care for other aspects of the personal welfare of students in non-residential universities is provided by some form of advisory service which ensures that a student who finds himself in some difficulty knows clearly to which members of the staff he may freely and confidently go for help and counsel. There is often a special adviser for overseas students. Most universities have at least one accommodation officer who has full charge of the lists of approved lodgings. There is also an appointments board with appropriate staff to help students to secure posts on graduation; and the good relations established between these boards and prospective employers of all kinds are of very great benefit to all concerned.

At Oxford and Cambridge the fees payable by a student include university and college dues, tuition fees and (if he lives in college) charges for rooms and meals; some colleges are more expensive than others, and living in lodgings is not necessarily cheaper than living in college. It is scarcely possible to reside at either university for the three terms each of eight weeks for much less than £350 even on the most economical basis. In the other universities the tuition fees are around £50 per session for an arts first degree course and £60 for other faculties. Tuition fees for higher degrees average £30 per session, but £40 is charged when laboratory work is involved. In Scotland these fees are somewhat lower. The fees for first diploma courses are in general less than those for degree courses. The cost of residence in a hall for a session of thirty weeks is within the

range of £140 to £160, but this sum often does not include the cost of lunches on weekdays. Reasonably good lodgings with partial board are not obtainable at much under £3:10s. per week, and in some places the minimum is above this figure. Apart from clothing, travel and personal expenditures, an overseas student would be well advised to plan on the basis that the minimum cost of a university session together with vacation expenses would be between £500 and £550 according to the university he attended and the course he was taking.

A considerable measure of financial assistance is now available for university students. Until the end of the first world war a poor student in England or Wales could not hope to get to a university unless he won a competitive scholarship offered by one or other of the universities, was awarded one of the few grants which his local education authority might provide, or gained a leaving scholarship from his school, if it had any to offer. The open entrance scholarships and exhibitions founded by benefactors at Oxford and Cambridge colleges were (and still are) the hallmark of brilliant promise and correspondingly difficult to win. The other universities also had a limited number of open scholarships. In Scotland the situation was somewhat easier because of the resources of the Carnegie Trust, which has, as one of its objects, the helping of needy students. Between the wars, however, the Ministry of Education instituted a system of state scholarships tenable at any university, and local education authorities expanded their schemes for scholarships and grants. Since 1945 the number of state scholarships and corresponding awards in Scotland have been very greatly increased, as have the local education authority awards. The Ministry of Education also supplemented the value of all university open scholarships and exhibitions up to that of state scholarships, and many local education authorities made awards within the same range. In 1961 the Ministry awarded about 2400 state scholarships and supplemented about 1530 open university scholarships, while local authorities awarded about 21,000 scholarships or grants for university students. From this variety of awards there emerged a clear hierarchy of academic merit: open award at Oxford or Cambridge, open award at other universities, state scholarship, local authority scholarship, local authority grant.

Following upon the report in 1960 of a committee appointed by the Minister of Education and the Secretary of State for Scotland, the government has decided that state scholarships (but not mature state scholarships) should be abolished after the selections to be made in the summer of 1962, and that awards by local authorities should be made available automatically to all students admitted for the first time to university first degree courses who have two G.C.E. passes at advanced level or the equivalent. A Standing Advisory Committee on Grants to Students was also appointed by the Minister of Education and the Secretary of State for Scotland to review the

standard grants to students for maintenance. It has always been and remains a firm principle that the actual financial benefit accruing to an undergraduate student shall be assessed in all cases according to the income of the family from which the student comes - to the poorer, more; to the richer, less. For a student who holds a state scholarship at Oxford or Cambridge the *assessum* maintenance allowance in addition to tuition fees is now £345, at London £335 and at other universities £320, but the rates are somewhat lower for students in lodgings and still less for those living at home, in addition, special vacation allowances are payable in some circumstances and provision is made for certain courses of vacation study and for study abroad. Additional payments may be made to married students.

Financial support is also available for postgraduate students. In 1960-61 the universities themselves made over 1100 research awards (called postgraduate studentships or fellowships) from their general funds or special endowments. The Department of Scientific and Industrial Research awarded 2000 postgraduate studentships, and the Ministry of Education awarded 260 state studentships (in addition to extending the tenure of a number of existing undergraduate state scholarships). Most of the universities' awards are of the value of £300 per annum or over, and parental income is generally not taken into account. From 1962 the standard grant (not depending on parental income) for D.S.I.R. and Ministry of Education postgraduate awards will be £450 per annum for students living in college, hostel or lodgings and £340 for those living at home, grants for dependants are also available. In addition to all these awards, the funds donated by various research associations and by industry in support of the academic research of individual departments in universities can often be used by agreement to finance postgraduate students.

There are two important consequences of these arrangements for assisting students: first, straitened circumstances at home are no longer any serious barrier to a university education, and secondly, since the tenure of state and local education authority awards is not restricted to particular universities, students are free to go to the university of their choice if it is willing to accept them. Oxford and Cambridge can no longer be characterized as in the main the universities for the prosperous; and the civic universities no longer draw as large a proportion of their students as formerly from their immediate area. In 1960-61 the percentage of full-time students in Great Britain who were being assisted (mostly from public funds) was 82.4, at Oxford the percentage was 84.9, at Cambridge, 81.2, at London, 74.7, at the other English universities 89.2, in Wales 92.6 and in Scotland 72.8. It should be emphasized, however, that the maximum maintenance allowance is not awarded to every assisted student. Exact statistics are not available; but it is estimated that under regulations in force from October 1962 about 40 per

cent of university students will be receiving the maximum.

In recent years more and more students have taken paid employment for some part of the long vacation: some, e.g. engineers, do work which has direct relevance to their studies, but some others undertake jobs which are of little or no benefit either mentally or physically; some do the work to eke out their finances, some to secure the means for continental travel, some for the wider interest and experience they hope to gain thereby and some because of the sense of independence which the earning of money brings. The universities are alive to the dangers inherent in this trend, and, whenever possible, tutors seek to dissuade their students from unsuitable kinds of work and above all to restrict the number of weeks they devote to it at the expense of the reading they ought to do in connexion with their studies.

Since the length of first degree courses varies from three to six years it is not feasible to relate the proportion of students to national age groups in a really significant manner; it can be noted, however, that full-time students represent rather less than 1 in 500 of the whole population.

**ACADEMIC YEAR.** The academic year is divided into three terms of which the first (called the Michaelmas, Martinmas or autumn term) begins, so far as students are concerned, in the first week of October, the second (the Hilary, Candlemas or Lent term) in the second week of January and the third (the Easter, Trinity, Whitsun or summer term) in the second or third week of April. At Oxford and Cambridge the required period of residence is eight weeks each term; elsewhere each term extends over nine or ten weeks. The programme of undergraduate instruction at Oxford and Cambridge continues for the full length of each term, since only a part of the student body will be sitting university examinations at any one time; elsewhere most undergraduates have examinations in the second half of the third term and formal instruction comes to an end by the beginning of June. Most honours students at Oxford who have taken their final written examination in late May or early June have to present themselves for a *viva voce* examination in July, and it is only towards the end of that month that class lists are published; the Cambridge lists are made known about the middle of June; elsewhere examination results appear at the end of June. In all universities graduation ceremonies are held several times during each session; but except at the older universities of England the majority of degrees are conferred at large public ceremonies at the beginning of July.

**SUMMER SCHOOLS,** such as are a well-established feature of the academic year in the U.S.A., form no part of the British pattern. In a few instances and only rather sporadically special courses, e.g. in English studies, for overseas students, are arranged, but whatever their content they do not

count towards a United Kingdom degree or affect the number of normal terms to be kept before proceeding to such a degree. Students, however, who wish to continue their reading within the university during part of the long vacation can generally do so, and in the case of postgraduate students who need laboratory facilities arrangements are made for them to work throughout most of the summer.

**EXTRA-MURAL CLASSES AND UNIVERSITY EXTENSION.** The concept that universities had some obligation to spread the gospel of learning widely throughout the community took really practical shape in 1873 when James Sturt, fellow of Trinity College, persuaded the University of Cambridge to organize university extension courses to be delivered up and down the country by members of the university. The educational movement thus started was also fostered by Oxford and the newer university colleges, and additional momentum was gained when in 1903 Albert Mansbridge founded the Workers' Educational Association (W.E.A.). The *Final Report of the adult education committee of the Ministry of Reconstruction* published in 1919 (and reissued in 1956 in an abridged form as *A Design for Democracy*) focused attention on the achievements up to that time and suggested many of the lines along which subsequent development has taken place.

Nearly all universities now have a department of extra-mural studies headed by a director who in a number of instances has the status of professor of adult education. The work of these departments is carried on partly by staffs of full-time tutors of whom there are about 250 in all, partly by part-time tutors (e.g. school teachers) and not least by members of other university departments. The courses, almost all of them conducted in the evenings, are arranged not only in university towns and the immediate vicinity but often in places at a considerable distance away, indeed wherever a need in adult education has to be met. Many universities have tutors resident in outlying areas, part of whose duty it is to assess and stimulate the demand for adult classes. In many of their activities the extra-mural departments work in close collaboration with the W.E.A.

Broadly speaking, three types of course have been developed: extension courses consisting of something between 3 and 18 lectures on a particular topic given by a single lecturer or by a team of lecturers; sessional classes which, generally under the guidance of a single lecturer, have weekly meetings from the end of September to the end of March; and tutorial classes each of which is planned as a three-year course and involves not only lectures but discussions and written work. In the 1950-61 session almost 2700 extension courses and 1733 sessional classes were organized and 813 tutorial classes were in being; in all, nearly 100,000 students were enrolled. The fees charged to students are merely nominal. The courses most frequently given are in history,

international affairs, government, social studies, philosophy, psychology, religion, musical history and appreciation, literature, the fine arts, and the physical and biological sciences. In recent years the departments have also organized 'refresher' courses for qualified scientists to help them to keep abreast of the newer advances.

It has hitherto been the policy of extra-mural departments and of the W.E.A. not to enter for vocational and professional qualifications or to duplicate the work of the evening classes provided by local education authorities; consequently, although written work is encouraged in the longer courses, only in a small minority of instances is any examination offered at the end of a course or any certificate awarded. There is no restriction on the membership of a course or any academic prerequisite: the sole requirement is a genuine interest in serious study; it is therefore not unusual to find the policeman, the housewife, the shop-assistant, the manual worker and the bank manager sitting side by side at an extra-mural class. A small number of scholarships are available, some of them provided by the Ministry of Education, to enable students who wish to carry their studies further to go on to universities. Mention should also be made here of the dozen or so residential adult education colleges up and down the country which provide full-time courses of a week or fortnight up to a few months' duration; with some of these colleges the extra-mural departments have a close though generally informal link.

The finances of the extra-mural work of the universities are somewhat complicated by the fact that some of the courses given qualify for a direct grant from the Ministry of Education, or are assisted by local education authorities, but the proportion of the cost covered by the grants varies from case to case. When allowance is made, however, for such contributions it is estimated that the net cost met from general university funds is of the order of £100,000 per annum.

The *Universities Council for Adult Education* (hon. secretary, T. Kelly, MA PhD, departments of extra-mural studies, University of Liverpool, Liverpool, 3), on which all universities are represented, publishes a brief *Annual Report* containing figures relating to the activities of extra-mural departments. The *National Institute of Adult Education* (England and Wales) has headquarters at 35 Queen Anne Street, London, W.1 (secretary, E. M. Hutchinson, MA, tel. Langham 3155). It is an independent consultative body which has a council representing universities, local education authorities and voluntary agencies. It convenes an annual conference and publishes quarterly *Adult Education* (annual subscription, 10s. 6d.).

**INSTITUTES OF EDUCATION.** Since 1947 and arising out of the report of the McNair committee on *Teachers and Youth Leaders* (1944) most universities in England and Wales have established an institute of education to promote co-operation between the university, teacher training colleges,

local education authorities and other educational agencies within the university area. The institute acts as an area training organization for the training of teachers on behalf of the Ministry of Education, conducts examinations recognized by the ministry for the teachers' professional qualification, arranges refresher and other courses, and fosters educational research. The director of the institute is a full-time university officer and often has the title and status of a professor. The committee of management of the institute includes representatives of the university, the training colleges, local authorities and practising teachers. The institute, however, has no responsibility for the control, financial or otherwise, of the individual colleges, which are maintained in the majority of cases by the local education authorities, though many are the responsibility of religious denominations. Throughout the country there are 119 colleges, with a total of 31,867 students, which provide a general course of education and pedagogical training. From 1960 the course of study in these colleges was increased from two to three years; and a programme of building has been approved for an increase of over 20,000 in the number of places. A further 40 or so colleges, with a total of 4424 students, give more specialized three-year courses in, e.g., physical education, domestic science. The students who attend these various types of college are admitted at the age of about 18 in accordance with standards of achievement in the General Certificate of Education approved by the ministry and the institute; and they are financially assisted, on the basis of parental income, by grants from public funds. The university's department of education, which is itself a constituent member of the institute, provides a one-year course of professional training for graduates, who frequently migrate to another university for this year of training; in 1960-61 there were 3207 graduates attending these one-year university courses in England and Wales.

In Scotland the work of the colleges and centres for the training of teachers has since 1950 been co-ordinated by a Council for the Training of Teachers under the aegis of the Scottish Education Department. In 1960-61 there were just over 3300 students enrolled.

In Northern Ireland about 1600 students were enrolled in 1960-61 in colleges for the training of teachers.

**INTER-UNIVERSITY ORGANIZATIONS** The Committee of Vice-Chancellors and Principals of the Universities of the United Kingdom is a consultative body with no executive powers. It originated in occasional meetings of the academic heads of universities convened for special purposes and did not begin to take on its present shape and functions until after the first world war, when the need for more frequent inter-university consultation became apparent. It was formally established as a standing committee of what was then the Universities Bureau of the British Empire by the

governing bodies of the universities in 1931, and its present constitution was approved and adopted in 1950. Its membership is confined to the vice-chancellors of the universities in England, Wales and Northern Ireland, the principals of the Scottish universities and the principal of the University of London. The pro-vice-chancellor of Durham, the principal of a second Welsh university college and the registrars of Oxford and Cambridge also attend. For a particular meeting a member may appoint a deputy to attend in his place, but rarely does so. The committee meets in London every month except in August. The chairman of the committee is elected annually and usually serves for three years in succession, the chairman for 1962-63 being Professor W. Mensfield Cooper, LL.M, vice-chancellor of the University of Manchester. The Association of Universities of the British Commonwealth (secretary, J. F. Foster, MA LL.D) provides the secretariat for the committee towards the cost of which the home universities make a special contribution, and the official address for the committee is 36 Gordon Square, London, W.C.1 (tel.: Euston 8374).

The function of the committee is simply to consider matters of common interest to universities, but it is not restricted to topics specifically referred to it. It is not empowered to commit the universities in any way and it studiously refrains even from appearing to do so; when matters arise which call for positive action or the formulation of a policy, all the committee can do or desires to do is to seek special authorization or make a recommendation which the universities individually may accept or reject. By its consultative activities, however, the committee holds an influential and central position in university affairs; for, apart from the initiative it frequently takes in making recommendations regarding a common policy on matters of purely internal concern to the universities, it is the channel through which not only the University Grants Committee but many ministries (e.g. education, health) which have contacts with the universities can ascertain the reaction of informed and responsible university opinion to proposals they have in mind or to problems they would like to discuss; and it is inevitable that the views which, within its terms of reference, the committee is willing to express should carry great weight with the outside agencies which consult the committee and with the authorities of the individual universities. The committee also, at its discretion, nominates representatives, not always from within its own membership, to outside bodies with educational interests, and from time to time it enters into informal discussions with such bodies as the Association of University Teachers and the Headmasters' Conference. Since 1946 it has organized an annual Home Universities Conference, held in London in December, at which a widely representative gathering of university teachers, administrators and members of governing bodies discusses broad topics of current interest. The committee issues no report

or annual statement; occasionally it sponsors special inquiries which are published, e.g. *The Planning of University Halls of Residence* (Clarendon Press, Oxford, 1948), *Report on an Inquiry into Applications for Admission to Universities* (1957). A *Report of an ad hoc Committee on Procedure for Admission of Students* was published in 1958, further *Reports* in 1960 and 1961, and the *Report of a Sub-Committee on University Entrance Requirements in England and Wales* in 1962. These reports (except the first) are published for the committee by the A.U.B.C. as are also the verbatim reports of the proceedings of the Home Universities Conferences and a *Code of Practice for the protection of persons exposed to Ionising Radiations in University Laboratories* (1961).

The Association of University Teachers (A.U.T.), a professional association established at the end of the first world war, has as its objects 'the advancement of university education and research, the promotion of common action among university teachers, and the safeguarding of the interests of its members'. Membership is open to all full-time teachers (including professors) and research workers in institutions of university rank in the United Kingdom; the proportion of eligible members of staff who belong to the association varies from university to university, but the total membership is such that the association has been accorded the right of making direct representations to the University Grants Committee on salary matters. The work of the association is conducted through local branches and a central council. The hon. general secretary is Lord Chorley and the executive secretary is K. Urwin, MA DU, Laure House, 21 Dawson Place, London, W.2 (tel.: Bayswater 9011). The interests of the association range over a wide variety of topics including university entrance requirements, selection of students, organization of curricula, student health, inter-library services, sabbatical leave, international co-operation at university level, salaries, income-tax and superannuation. From time to time it issues reports to its members on these subjects.

The National Union of Students (N.U.S.), founded in 1922, is a body to which are affiliated the guilds of undergraduates and student representative councils in most of the universities of England, Wales and Northern Ireland, to it also belong similar student associations in certain other institutions of higher education (teachers' training colleges, technical colleges). Its purpose is to provide a focus for the expression of the corporate opinion of students on matters which they feel to be particularly their concern, its main interests are in entrance requirements, curricula, maintenance grants and fees, student health, halls of residence and other student accommodation, and international co-operation at the student level; it also arranges for student travel and for vacation work. It has a small permanent secretariat (3 Endeavour St., London, W.C.1; tel.: Euston 2184); its affairs are managed by a council on which the affiliated guilds are repre-

sent, and it organizes an annual congress, held in a university centre, at which several hundred delegates and others discuss current student problems. In Scotland there is a separate National Union of Students.

**THE UNIVERSITIES TO-DAY.** In the 1938-39 session there were 50,250 full-time students in the universities of Great Britain, of these 44.7 per cent. were in arts faculties, 25.9 per cent. in faculties of science and technology and 29.4 per cent. in the other faculties. Immediately after the war preference in admission was given to ex-service men and women and there was a great influx of such students, some of whom were returning to resume their interrupted studies while others were enabled by generous grants to embark upon a university course which they had not previously contemplated. By 1949-50 the total number of students had consequently risen to 85,400. It had at first been thought that the great increase in numbers would be temporary and that, allowing for some 'normal' expansion, universities would eventually settle down to a total of about 70,000. In May 1946, however, a government inter-departmental committee under the chairmanship of Sir Alan Barlow published a *Report on Scientific Manpower* which called for a drastic increase in science and technology graduates together with a corresponding increase in the humanities. From that time onwards the universities have accepted the need for a considerable permanent expansion; their numbers have never fallen below 80,600 (in 1953-54); and with the assistance of Treasury non-recurrent grants they have made some appreciable progress towards the provision of new academic buildings and halls of residence, though they are not yet satisfied that the rate of building has been sufficient to keep up with the demands that face them. The balance of the faculties has changed during these post-war years: in arts there are now 43 per cent., in science and technology 39.3 per cent and in the other faculties 17.7 per cent.

In October 1956 the government published a report on *Scientific and Engineering Manpower* which emphasized once again the need from the point of view of the national welfare for a further increase in the number of university persons trained in the pure and applied sciences. The target for expansion was then fixed as 124,000 to 125,000 full-time students by the middle 1960s, and it was proposed that two-thirds of the expansion should be in science and technology. Early in 1960, after a reassessment of the probable need for university places, the University Grants Committee was authorized to discuss with the universities the practicability of providing 170,000 to 175,000 places by the early 1970s as a minimum first instalment. In March 1962 the government announced that it was its wish that a figure of 150,000 should be reached by 1966-67 and about 170,000 by 1973-74. Plans for expansion on this scale are currently under consideration. This could mean that by 1974 in arts there would be

about 35 per cent., in pure and applied science 52 per cent. and in the other faculties 13 per cent. In other words, science and technology would then occupy the predominant position which arts had in 1938-39, but the humanities themselves would nevertheless be stronger in absolute numbers than the pure and applied sciences are at the present time. The prospect of this further change in the balance of faculties causes some anxiety, and much thought is being given to the problem of ensuring that, whatever faculty a student enters, his education at the university shall be as broadly based as possible. In this connexion considerable attention is being paid to the relation between studies in the VIth form at schools and the university curriculum.

The future supply of students who can meet the standards set by the universities for admission will be affected by two important factors. The effects of the war-time increase in the birth-rate are now being felt at the university age, for every 100 people aged 18 in 1957 there will be 144 in 1964. And since 1956 the annual number of births has again shown a marked upward trend. The other factor is that in recent years there has been an annual increase of 5 per cent in the number of grammar school pupils who stay on to complete the VIth form course and so qualify for university entrance. The cumulative effect of these two factors is likely to be such that the problem of the universities is not the supply of applicants but the selection of those best fitted to enter. This complex problem of achieving the most satisfactory selection procedures is one which has engaged the attention of the universities continuously since 1945. What emerges from all discussions of selection problems is that the development programmes of the universities as regards both academic buildings and halls of residence are urgent; and even the increased provision for capital expenditure announced for 1960-1961 will do no more than meet the cost of top-level priorities. It is anticipated also that there will be real difficulty in recruiting a sufficient number of properly qualified staff, especially in the sciences, in the face of competition from industry and government departments; yet the universities must have the teachers to enable them to cope with the increased numbers from whom eventually an enhanced supply of university teachers may be expected.

Finally a word may be said about the distribution amongst the universities of the forthcoming expansion. A simple uniform percentage increase is scarcely feasible. Oxford already has 3950 and Cambridge 3000 more students than they had in 1938-39, and it is realised that any further large increase would either wreck the collegiate system or involve the foundation of new colleges. In 1958 proposals were approved at Oxford for the establishment of a new college as a development of the existing St Catharine's Society and at Cambridge for a new foundation to be called Churchill College. Each of these will provide for about 400 students and each will cost between

£2,000,000 and £3,000,000 to build and endow. An effective solution of the general problem of university expansion, however, cannot be found on as high a cost basis as £5,000 per student place. On the other hand, there are 10 institutions including constituent colleges of federal universities (apart from London) whose present student population is less than 1600, but even if these were willing to double their capacity within the next few years and given the resources to do so, there would still be a prospective deficiency of the order of 50,000 places. The immediate burden of meeting the growing demand is therefore likely to fall on those institutions which now have between 2000 and 4500 or 5000 students. Developments along these lines have been agreed by the universities and the University Grants Committee, and their implementation now depends on the provision by the Treasury of funds for the building of laboratories, classrooms, libraries, halls of residence and student amenities.

A concurrent but more fundamental alleviation of the problem is also being found in the foundation of new universities analogous to the new University of Sussex at Brighton. An authoritative account of the principles and procedures involved in the foundation of these new universities will be found in the U.G.C. *Returns for 1958-59 and 1959-60*. The granting of a charter to a new institution of university rank is a matter for the royal prerogative. The financing of such an institution, however, would in modern conditions fall mainly on the Treasury, which would wish to satisfy itself about the proposed location, the availability of a suitable site and the measure of local enthusiasm and support on which the institution could rely. The University Grants Committee therefore set up in 1959 its own sub-committee on new university institutions. In general the policy adopted by the U.G.C. is that new institutions should be multi-faculty and should from the start have the power, under proper safeguards for academic standards, to grant both first and advanced degrees. In March 1960 the U.G.C. recommended to the Treasury that steps should be taken to establish new universities in Norwich (University of East Anglia) and York, from both of which cities formal applications had been received. In both cases academic planning boards, consisting of eight or so persons most of whom are eminent in education, have already been appointed to be responsible for the preliminaries necessary for the effective inauguration of the institutions. The vice-chancellors have also been appointed, discussions are taking place as regards curriculum and it is anticipated that the first groups of students may be arriving in 1963 or 1964.

During 1961 the University Grants Committee considered the formal applications made by ten other localities, together with tentative approaches from eight more. In consequence decisions were taken to set up new universities in Canterbury (University of Kent), Colchester (University of Essex), Coventry and Lancaster, academic plan-

ning boards have now been established and the appointments of vice-chancellors have been made or are imminent. It is already clear from pronouncements they have made that these are newest universities, all of which aim at a student population of around 3000 within ten years, will not only increase the number of available university places, but like Keele and Sussex (see above, p. 88a) will also make valuable use of the opportunity afforded of breaking down the traditional departmental organization of studies; and their charters may also provide for interesting constitutional arrangements in the sphere of academic government.

**OTHER PROVISION FOR HIGHER EDUCATION** An entirely false impression would be formed if it were thought that higher education in the United Kingdom is confined to the provision made in universities, indeed an appreciable amount of work which is elsewhere done within universities is here done in other institutions. In England and Wales alone, in addition to students in universities and in teacher training colleges associated with university institutes of education (see p. 89f), there were in 1961, of the age of 18 or over, 53,000 full-time, 324,000 part-time day students and 662,000 evening students taking courses in colleges of technology, technical colleges and other recognized vocational institutions (e.g. colleges of art, of agriculture, of commerce). When these figures are compared with the 15,000 or so full-time students of technology in universities, the importance of this other provision in the educational system of the country will be realized. Apart from the Manchester College of Science and Technology, which is partly financed through the University Grants Committee, there are 6 specialised 'national colleges' (e.g. for horology, rubber technology), 10 institutions designated as 'colleges of advanced technology' (CATs) and 25 regional colleges of technology; in addition there are over 500 other recognized establishments of higher education which vary considerably in size and importance. All, however, are maintained or aided from the public funds administered by the Ministry of Education and local education authorities; but from April 1965 the colleges of advanced technology will be placed in charge of independent governing bodies which will receive grants direct from the ministry. In order to improve and expand the provision for technical education, especially where advanced work is or could be done, the government embarked in 1956 on a five-year building plan (including some provision for hostel accommodation) which will cost £70,000,000; and a further plan for expansion is

being worked out at the present time. In Scotland and in Northern Ireland also, comparable provision is made for higher education in institutions other than universities.

Though there are in general no formal academic prerequisites for entry to technical colleges corresponding to the minimum university entrance requirements, many full-time students with suitable attainments are assisted financially, the Ministry of Education having increased in 1958 the number of their technical state scholarships to 254 and the local education authorities the number of their awards to 12,000. Of the part-time day students over the age of 18 about 80 per cent. are released by their employers to attend vocational and other courses for one or more days each week. Most of the senior and advanced courses prepare students in a wide range of subjects for the examinations of the City and Guilds of London Institute or the regional Examining Unions, or for an Ordinary or Higher National Certificate. In a minority of instances students present themselves for an external degree of the University of London. In 1956 there was also established on a national basis a diploma in technology (DipTech) which is intended to represent a level of achievement comparable to an honours degree in a university, and universities in general have agreed to regard the holder of the diploma as being *pari passu* qualified to enter on a course leading to a higher degree in pure or applied science.

Mention should here be made of the appointment early in 1961 by the prime minister of an influential committee under the chairmanship of Lord Robbins to enquire into the present state and future scope and organisation of the whole field of higher education in Great Britain, including universities, teacher training colleges and colleges of technology. The findings of this committee are expected to be promulgated in 1963 and are likely to be of crucial importance.

In Scotland, corresponding broadly to the colleges of technology and similar institutions south of the border, there are 16 institutions (including the Glasgow Royal College of Science and Technology, which is on the University Grants Committee's list) which arrange advanced or specialized courses and about 75 other further education centres. In all, some 12,750 full-time students over the age of 18 are enrolled, together with about 37,700 part-time day students and 223,750 evening students.

In Northern Ireland 4600 full-time, nearly 7000 part-time day students and more than 24,000 evening students are enrolled at 165 centres of technical instruction.

INTER-UNIVERSITY COUNCIL FOR HIGHER EDUCATION OVERSEAS, 29 Woburn Square, London, W.C.1 (tel. Museum 8916). **Chairman**—Sir Charles R. Morris, KCMG, MA LL.D. **DLitt. Secretary**—I. C. M. Maxwell, MA. The Inter-

University Council was constituted in 1946, at the invitation of the secretary of state for the colonies, by the universities of the United Kingdom and colonial institutions of full university status. Its terms of reference are those recommended by the

#### UNITED KINGDOM

Asquith commission on higher education in the colonies. The general purpose of the council is threefold:

- (a) to strengthen co-operation between the universities of the United Kingdom and the universities already existing in colonial and formerly colonial territories;
- (b) to assist in the development of universities and university colleges in those territories;
- (c) to assist generally by giving advice and by taking other action to promote university education and research in those territories.

In 1954 the responsibilities of the council were extended at the request of the secretary of state for Commonwealth relations to include university education in the Federation of Rhodesia and Nyasaland. More recently countries such as Nigeria, Sierra Leone, Tanganyika, Uganda, Jamaica and Trinidad have achieved independence within the Commonwealth but the relationship between the university institutions in these

territories and the Inter-University Council remains close.

The council consists of one representative of each of the universities, together with co-opted members and the educational adviser to the secretary for technical co-operation, Sir Christopher Cox.

COLONIAL UNIVERSITY GRANTS ADVISORY COMMITTEE, 29 Woburn Square, London, W.C.1 (tel. Museum 8016) Chairman—Sir Hector Hetherington, GBE, MA LL.D. DLitt DSci. Secretary—I. C. M. Maxwell, MA. The committee was constituted in 1946 by the secretary of state in accordance with a recommendation of the commission on higher education in the colonies. It is charged with the duty of advising the secretary of state on expenditure of United Kingdom funds on the development of higher education in the colonies. The committee works in close co-operation with the Inter-University Council, upon which it relies for advice on the academic aspects of proposals under consideration.

## DIRECTORY TO SUBJECTS OF STUDY\*

FIRST DEGREES. Each university (except East Anglia, Keele, Sussex and York) awards first degrees with honours, or special degrees, in all the following subjects: botany, chemistry, classics (Greek and Latin), economics, English, French, geography, geology, German, history, mathematics, philosophy, physics, zoology. For East Anglia, Keele, Sussex and York, see below.

The Table on pages 904-909 shows which universities provide first degree courses in certain other subjects. In some cases, courses of instruction leading to degrees which, though having the title of bachelor, are in fact open only to graduates, are also indicated in the Table, e.g. references have been included to degrees of bachelor of education and bachelor of divinity.

The symbol ✓ means that the subject mentioned may be studied as part of the course leading to a first degree.

The symbol √ means that the subject forms a main part of the course leading to a first degree, and that a degree (usually—but not always—a degree with honours or a special degree) can be obtained in that subject either alone or in combination with one or two other principal subjects. The symbol √ has not been used for subjects taken only in a course for a general degree or a general degree with honours.

Each subject indicated in the column for the University of London may be studied at one or more schools of the university, see the special London Table on pp. 1070-1072. A pamphlet

entitled 'General Information for Internal Students', which gives details of the schools of the university and the particular subjects which can be studied at them, may be obtained from the Academic Registrar, University of London, Senate House, Malet St., London, W.C.1.

Some of the newly established universities have organized their degree courses differently from those of other universities in the United Kingdom. (For fuller details, the university 'Prospectus' or 'Calendar' should be consulted). The universities of Keele and Sussex do not award honours degrees, or special degrees, in single subjects. At Keele, students are normally required (following the 'foundation year' common to all students) to study two principal subjects for three years. The courses provided at Sussex are integrated multi-subject honours courses and in 1962-63 the following subjects are being offered as major subjects in these courses: American studies, chemistry, economics, English, French, German, geography, history, mathematics, philosophy, physics, politics and sociology, Russian. Additional subjects may be offered from 1963-64.

The University of East Anglia will provide arts courses leading to an honours degree of BA. There will be schools of English studies, European studies and social studies, and for the first year courses in all schools will be designed broadly, narrowing to greater specialization in years two and three. Studies will be as closely integrated as possible. BSc degree studies will include biology,

\* Note.—A fuller directory is to be found in *Higher Education in the United Kingdom: a Handbook for Students from Overseas and their Advisers* (Longmans, Green & Co., 1962).

chemistry, mathematics and physics. In 1963-64 only courses in the schools of English studies and of biological sciences will be available.

The University of York will award single subject and combined subject degrees. In 1963, possible subjects for single subject degrees will be economics, English, history, mathematics and politics. In addition, any of English, history and politics, as well as education and philosophy, may be studied as one of two subjects in a combined subject degree.

The Table on pp. 904-909 also shows in which of the subjects listed the Manchester College of Science and Technology provides courses leading to first degrees awarded by the University of Manchester, and similarly in which subjects the Royal College of Science and Technology, Glasgow, provides courses leading to first degrees awarded by the University of Glasgow. Both colleges also provide other courses, which are not shown in the Table.

The Table on pp. 904-909 does not purport to be anything more than a signpost to direct the reader to the 'General Information' sections of the appropriate university entries, where further particulars as to title of degree, length of course, etc., will be found.

**DIPLOMAS, CERTIFICATES, ETC.** The following lists show which universities offer diplomas, certificates, testamurs, licences, etc., in the subjects named. In some cases the qualification is awarded by a constituent college of the university mentioned and not by the university itself.

The title of the qualification is given in each case. It should be noted that some of these qualifications are open to graduates only. Information as to whether particular qualifications are postgraduate or not and as to length of courses will be found in the 'General Information' section of the entry for each university or college.

For the convenience of the reader the qualifications have been grouped under general headings, which are not, however, necessarily identical with the names of the faculties under which the subjects fall in any particular university.

## AFFILIATED INSTITUTION

The MEDICAL SCHOOL OF THE UNIVERSITY COLLEGE OF RHODESIA AND NYASALAND (see p. 856) is recognized as an affiliated instn. of the Univ. Holders of full-time chairs in the med. sch. in Rhodesia are associated in an honorary capacity with the appropriate depts. in the fac. of med. of the Univ. of Birmingham. Full-time non-professional staff of the med. sch. in Rhodesia are also appointed members supernumerary to the

establishment of the depts. in the med. sch. of the Univ. Attendance upon courses of study in the med. sch. of the Univ. Coll. of Rhodesia and Nyasaland and the performance of exercises and other exams. there are accepted as qualifying for the award of the degree of MB ChB of the Univ., without the need for further attendance or exam. in the Univ. itself.

## GENERAL INFORMATION

Mason Science Coll., founded in 1880 by Sir Josiah Mason, was renamed Mason Coll. in 1894 when it merged with the med. fac. of Queen's Coll. In 1894 the Birmingham Training Coll. for teachers in elementary schs. was transferred to Mason Coll., which was incorporated by act of parliament 4 yrs later as 'The Mason Univ. Coll.'. This instn. was absorbed in the Univ. of Birmingham, incorporated by royal charter in 1900. The Univ. had then a staff of 70 and 678 students of whom only 189 were registered undergrads.

Considerable additions to bldgs and facilities were made from 1900 to 1913 and between 1926 and 1939, and the no. of undergrads. increased steadily. In June 1939 the academic staff numbered 159 and there were 1465 full-time students. During the war of 1939-45 devel. con-

tinued and a considerable contribution was made to the war effort by res. conducted at the Univ. From 1946 to 1961 expansion in both bldgs and numbers proceeded at such a rate that in Oct. 1961 there was an academic staff of 632 and 4600 full-time students registered for courses during the 1961-62 session.

**CONSTITUTION.** The governing body of the Univ. is the court of governors (preluded over by the chancellor), whose executive cttee. is the council, which submits an annual report to the court; the senate, which consists of the vice-chancellor and principal, vice-principals, deans of all facs. and all profs., regulates academic matters and its activities are subject to review by council. The pro-chancellor presides over the council and the vice-chancellor over the senate. There are

5 facs., presided over by the deans, which have their own advisory bds and exco. The delegacy of the inst. of educ. reports direct to senate.

**INCOME (1960-61).** Total income, £3,072,425 (endowment, donations and subscriptions, £166,092; grants from local authorities, £65,450; parliamentary grants, £2,196,731; students' fees, £249,577; contributions for services of staff, etc., £6875; research grants, etc., £365,969; other income, £21,731).

**FACULTIES AND DEANS (1962-63)** Arts, Prof. A. C. Lewis (music), *conv. & soc. sci.*, Prof. H. S. Ferns (pol. sci.); law, Prof. O. Hood Phillips, *senr.*, Prof. A. L. d'Abreu (cardiac surg.), *senr.*, Prof. S. G. Ward (mining & minerals engin.)

**UNIVERSITY PREMISES** The bldgs. of the univ. are at Edgbaston, about 3 miles from the centre of Birmingham, on a site which now covers nearly 240 acres. The first bldg. at Edgbaston were completed in 1909.

Bldgs. for arts, maths/phys., chem., civil engin., highway engin. and law, together with an extension to the students' union and a new wing at the clin. res. block were opened in 1960. A new refectory and staff house were started in 1959 and completed during 1962. A new bldg. for biol. sci. is due for completion in 1963 and it is hoped that pt. of the fast pan. of new halls of residence will be ready for occupation in 1963. Other new bldgs. started recently include a bldg. for the fac. of comm. & soc. sci. and a new dental hosp. together with the first stage of a phys. educn. centre, and addnl. playing fields and pavilions outside Birmingham. Accomms. for phys. and a radiation centre, for phys. metall., mining and minerals engin., will be started during 1962 and 1963 together with further halls of residence. A further extension of the clin. res. annex will be completed towards the end of 1962.

**LIBRARY** About 550,000 vols., incl. Bailes lib. (med. sch.), 70,000 vols.; Harding law lib., 10,000 vols.; music lib. (Barber Inst.), 35,000 items; other sections in depts. of bot., biochem., chem. engin., engin. prodn., geol., Russian econ., mining and phys. The fine arts lib. is part of the Barber Inst. Special features: papers of Joseph Chamberlain and Sir Austen Chamberlain, Galsworthy MSS., Wedgwood philol. lib., Wigan lib. of 17th- and 18th-cent. theol. works, lib. of St. Mary's Church, Warwick, and Baskerville collection.

**MUSEUMS** Anat., dent, geol., mining, pathol., physiol., zool.; herbarium (bot.).

**LABORATORIES** Chem. (special org., phys., electro-chem., analyt. and pub. health depts.); phys. (incl. electron phys.), biol., genetics, engin. (incl. electr., mech., prodn., civil and chem.), metall. (phys. and indusct.), mining & minerals engin. (exceptionally well equipped, exper. coal-mine), making & brewing; biochem.; med.; physiol.; pathol.; cancer res.; pharmacol.; bacteriol., power-station supplying whole univ.

with lighting, heat and power. A small Observatory is attached to the dept. of phys.

**HOSPITALS** 1200 for clin. instructn.—United Birmingham Hosps (General, Q Elizabeth, Birmingham and Midland Hosps for Women, Children's, Nerve and Dental), and 14 other hosps. for sp. teaching under the control of the Birmingham Regional Hosp. Bd.

**BARBER INSTITUTE OF FINE ARTS**, Edgbaston, Birmingham, 13 (tel. Selly Oak 0562, music dept., Selly Oak 0622). The inst. was founded by the late Dame Martha C. H. Barber, who created a trust to promote the study of the fine arts and of music in the univ. Courses in fine arts are given for the cultural benefit of all students, and in some cases form pt. of work required for degrees in other depts. Concerts of chamber music are arranged by the prof. of music, and the univ. musical soc. holds mudday concerts during term. The inst. contains several galleries and rooms for the exhibition of paintings, drawings, prints, furniture, art-objects and tapestries; a small concert hall, and libraries and admin. offices. (For dir., see p. 912).

**INSTITUTE OF CHILD HEALTH** (completed 1961) was built with funds provided by Nuffield Provincial Hosps. Trust. The inst. co-ordinates the activities of the univ. dept. of paediatrics & child health, the Birmingham Children's Hosp., the Birmingham maternity & child welfare and sch. health services, and the coll. of General Practitioners. Principal functions are undergrad. and postgrad. teaching, paediatric res. and liaison with local authority med. officers and general practitioners.

**SHAKESPEARE INSTITUTE**, Stratford-upon-Avon, Warwickshire (tel. Stratford-upon-Avon 3138). The purpose of the inst. is primarily to promote advanced work in Shakespeare studies and in related subj.,—the Elizabethan age, drama and theatre. See also p. 915.

**INSTITUTE OF EDUCATION** (see also 'Teaching Staff', above). The inst. exists primarily to co-ordinate the training of teachers in the W. Midlands area under the general responsibility of the univ. and to recommend to the Ministry of Educn. for qualification those students who have satisfactorily completed their training. A cert. in educn. is granted to students after 1-yr., 2-yr. and 3-yr. courses of trg. A 1-yr. full-time or 3-yr. pt.-time course for dipl. in educn. has been instituted, and is open to qualified teachers with not less than 5 yrs' approved professional experience. A supplementary cert. is offered to candidates who successfully complete 1-yr. full-time supplementary courses. The inst. also offers courses in youth service (2 yrs. full-time), maths. (2 yrs. pt.-time) and sch. librarianship (2 yrs. pt.-time).

The inst. maintains a strong res. dept., the staff of which are members of the univ. educn. dept. The res. dept. includes a dept. of child study situated at Selly Wick House, Selly Wick Rd., Birmingham, 29. The inst. publishes a journal,

*Educational Reviews*, 3 times a yr. The governing body of the inst. is the delegation, which is responsible to senate.

Constituent and associated colls. of the inst. (a) *Constituent colls.*: Anstey Coll. of Phys. Educn, Sutton Coldfield; City of Birmingham Coll. of Art and Crafts, Margaret St., Birmingham, 5; City of Birmingham Trg. Coll., Westbourne Rd., Birmingham, 15; City of Coventry Trg. Coll., Henwick Grove, Worcester, dept. of educn.; The Univ., Birmingham. (b) *Associated colls.*: Birmingham & Midland Inst. Sch. of Music, Paradise St., Birmingham, 1; William Temple Coll., Rugby.

The inst.'s headquarters are at Institute House, 50 Wellington Rd., Edgbaston, Birmingham, 15 (tel.: Calthorpe 3332).

**INSTITUTE FOR ENGINEERING PRODUCTION**, Southfield, Norfolk Rd., Edgbaston, Birmingham, 16 (tel.: Edgbaston 0390). The inst., which is under the direction of the hd. of the dept. of engin. production, was opened in 1953, and provides a series of short courses of study and discussions on a residential basis for production engineers, operational res. personnel and indust. managers. See also p. 915.

**INSTITUTE FOR ADVANCED STUDIES IN ENGINEERING SCIENCES**. The inst. was established in 1962 as a centre of inter-dept. res. and inter-dept. postgrad teaching in engin. sci. It consists initially of a division for machine tools, materials and management, involving the collaboration of a number of depts. in the fac. of sci. (which incl. appl. sci.). It is intended to establish further divisions in due course to cover other fields of engin. devel. which require the co-operation of several depts.

**INSTITUTE FOR THE STUDY OF WORKSHIP AND RELIGIOUS ARCHITECTURE**. This inst. was established in 1962 within the fac. of arts, in close assoc. with the dept. of theol.

**ADMISSION** See Appendix III.

**NON-MEMBERS OF THE UNIVERSITY**. Occasional students, who are not matriculated or of grad status, who wish to enter the univ. for the purpose of attending individual courses, must supply evidence, satisfactory to the dean of the fac. and the hd. of the dept., that they are qualified to enter

upon such courses. Such students will be subject to the univ. regns., but are not entitled to wear academic dress.

**FIRST DEGREES**. 3 yrs.—BA (spec.), BA (combined subjs.), BSc in pure sci., BSc in appl. sci., BCom, BScSc, LLB; 3 or 4 yrs. according to qualifn. on entry—BMus;  $\frac{5}{2}$  yrs.—BDS; 6 yrs.—MB ChB.

Candidates who do not reach the required standard for an hon. degree in any fac. may qualify for an ord. degree.

BA with hon. may be obtained in any one of the following ap. scis.: classics, Latin, Greek, anc. hist. & archaeol., anc. & mediev. hist., mediev. & mod. hist., Engl., French, German, Italian, Russian, Spanish, philos., soc. & pol. philos., math., geog., theol., linguistics. Hon. may also be obtained in the exam for the BA degree in combined subjects.

BSc hon. in pure sci. may be taken in any of the hon. scis. in math., math. phys., phys., chem., zool., bot., genetics, bacterial, microbial, geol., geog., anatomical studies, physical studies, med. biochemical studies. BSc hon. in appl. sci. may be taken in engin. (mech., civil, elect., chem., petroleum prodn.), metall. (phys. or indust.), mining (coal or metal) & materials engin. and biotech. Courses in mining involve practical work underground.

Candidates who, before admission, pass certain exams of other approved univs. in sci. or engin., may be permitted to take the final exam. for the BSc (hon.) at the end of their 1st yr. and to do advanced or res. work in their 3rd yr.

Subject to certain provisos, grads of Oxford with hon. in the final hon. sch. of nat. sci. (engin. sci.) or of Cambridge with 1st or 2nd class in mech. sci. types are eligible for the BSc degree in mining after a yrs' study at Birmingham; suitable engin. grads of other approved univs. are also eligible for the degree under similar conditions.

**Prelim. science year**. There are ap. arrangements whereby candidates who have taken arts subjs. as their main subjs. at sch. may obtain a univ. trg. in the sci. Consideration for admission to this 1st yr. (of a 4-yr. degree course) may also be given to candidates from sch. where the facilities for teaching sci. are limited.

BCom with hon. (a) general course, (b) sch. of Russian studies, (c) for qualified sci. students. BScSc with hon. in sch. of econ., pol., & sociol.; soc. study, Russian studies; maths., econ. & statistics; geog.

Med. students may spend their 1st yr. at any sch. or schs of med. recog. by the univ., and the senate may recognize exams passed therein as exempting from the 1st med. exam. They may obtain the BSc as well as their med. degrees by devoting 7 yrs. instead of 6 to study in the univ.

**HIGHER DEGREES**. MA (by thesis resulting from res., or by prescribed course of study and exam.), MEd (1 yr. full-time or 3 yrs. pt-time prescribed course, exam and thesis), MCom,

**MSocSc** (by prescribed course of study and exam), **MMus**, 1 or 2 yrs. after bachelor's degree, **MSc** (may be taken in appl. geophys., engin. prodn., chem. engin., indust. metall., electr. machinery, radioactivity, radiobiol., thermodynamics, coal precipitation, reactor phys. & technol., foundation engin. & highway engin., information engin., operational res., biol. engin., as well as in other sci. subjects), 1 yr. after BSc honours or 2 yrs. after BSc in sci., several depts. provide courses of study and exams. (as distinct from res. facilities) for **MSc**; **LLM**, 2 yrs. (exceptionally, 1 yr.) after **LLB**; **BD**, not less than 2 yrs. after a bachelor's degree approved by the fac. of arts, **MD**, **ChM**, **MDS**, 5 yrs (grade of other approved univs. must have completed 2 yrs.) approved 1st. at **Birm**) after bachelor's degree, **PhD** (in any fac.), 2 yrs.; **DLatt**, **DMus**, **DSc**, **LLD**, **DD**, **DSocSc**. With the exception of **DLatt**, **DMus** and **LLD**, the above higher degrees are open to grads. of other univs. who fulfil fac. requirements for the degree.

The **DMus** or **LLD** may be taken 3 yrs. (**DLatt** 5 yrs.) after the **MA**, **MMus**, **MSc** or **LLM**, or 5 yrs. (**DLatt** 7 yrs.) after the corresp. bachelor's degree; **DSc**, 4 yrs. after **MSc**, or 3 yrs. after **PhD**, whichever time is shorter; grads. of other approved univs. after not less than 2 yrs.' postgrad. work in this univ. provided that at the time work is submitted for degree they are at least of 5 yrs.' standing from bachelor's degree; **DD**, 5 yrs. from date of **BD** or other second degree, **DSocSc** may be taken 3 yrs. after **PhD**, or 5 yrs. after master's degree or 7 yrs. after bachelor's degree.

**HONORARY DEGREES** **MA**, **MEd**, **DLatt**, **DD**, **LLD**, **MD**, **DSc**, **DSocSc**.

The univ. does not award **EXTERNAL DEGREES**.

**DIPLOMAS** Theology, normally 2 yrs for grads. of approved univs., education, 1 yr full-time or 2 yrs. pt-time; psychol. of childhood, 1 yr. for grads. and other approved persons; educnl. psychol., 1 yr. postgrad. for grads. of approved univs. who have obtained BA or BSc honours in psychol. or who have pursued approved courses in psychol. and who have had not less than 1 yr.'s teaching experience; for teachers of educationally sub-normal children, 1 yr.; commerce, 1 yr. for grads. of approved univs. subject to approval by fac., pub. admin., 1 yr. for grads. (in any fac.) of univs. in the United Kingdom; soc. study, 1 yr. for grads. preparing for work in the soc. services; soc. work, 1 yr. for grads.; malting & brewing, 3 yrs., 1 yr. for grads., engin. production & management principles, 1 yr. postgrad. course; dipl. in grad. studies, biol. engin. (1 yr.), petroleum prodn. engin. (1 yr.), indust. metall. (1 yr.), thermodynamics & related studies (1 yr.), mathl. phys. (1 yr.); civil engin., foundation engin. & traffic engin. (1 yr.), highway engin. (1 yr.), mathl. statistics (1 yr.); electr. engin. (information engin. & electr. machines) (1 yr.), mining (1 yr.)

**CERTIFICATES** Educn. (1-yr. postgrad. and

2-yr. non-grad. courses), theol. (2-yr. non-grad. course), malting & brewing (2 yrs.), malting (2 yrs.); soc. study (2 yrs. for non-grads.), child service (1-yr. course to train suitably qualified persons as children's officers and their assts.); supplementary certs. in divinity, school librarianship and for teachers of blind children (1-yr. courses). See also 'Institute of Education', above.

**RESEARCH.** A pt. standing citize. of senate and council co-ordinates res. work in all facs., formulates policies of res., obtains funds and co-operates with govt. agencies and external bodies. Its *Annual Report* gives general summary of each yr.'s depts. res., lists publd. work and titles of theses approved for higher degrees.

**STUDY LEAVE** is given as frequently as possible, usually for 1 term.

**FEEES** *Compounds annual fees* (covering tuition, exam and graduation fees, and membership of guild of undergrads.). Bachelor's degrees: **BA** and **BMus**, £68, **BD**, £68; **BSc**, £83, **MB ChB**, £83, **BDS**, £83 (6th yr., 1 term, £27.13s.4d.); **BCom** and **BSocSc**, £68, **LLB**, £68. Higher degrees: **MA**, **MMus**, **MCom**, **MSocSc**, **LLM**, **MSc** (without lab. facilities), £68, **MSc** (with lab. facilities) and **MSc** (grad. studies except in engin. prodn. & radiobiol.), £88, **MSc** (grad. studies: engin. prodn. & radiobiol.), £98, **PhD** (without lab. facilities), £68; **PhD** (with lab. facilities), £88. *Dips. and certs.*: dipl. in theol., 1st yr.—£43, and yr.—£8, dipl. in psychol. of childhood, £68; dipl. in educnl. psychol., £78; dipl. for teachers of educationally sub-normal children, £68, dipl. in engin. prodn. & management principles, £98; dipls. in grad. studies, £88 (mathl. phys. and mathl. stats, £68); dipl. in malting & brewing, postgrad. dipl. in malting & brewing, £68; cert. in malting & brewing, £68; cert. in malting, £68, *graduates' commence dipl.*, £68, dipl. in pub. admin., £68, soc. study dipl., separate class fees with an addnl. charge of £7.5s., soc. study cert., £45, child service cert., £88, dipl. in soc. work, £88; cert. in educn., £68, dipl. in educn., £50; supplementary certs. in divinity, £58; for teachers of blind children, £78, and in maths., £38.

**ACADEMIC YEAR** Oct. to July: 3 terms of 9 or 10 wks each.

**VACATION COURSES** A 6 wks' summer sch. on Shakespeare and Elizabethan lit. is held annually at Stratford-upon-Avon during July and Aug. It is concerned with the detailed study of Elizabethan and Jacobean drama and theatre with particular reference to Shakespeare, together with the historical and cultural background of the plays. The summer sch. is primarily intended for grads. and other advanced students from Commonwealth, American and European univs. who have specialized in Elizabethan and Jacobean lit. The dept. of extra-mural studies also possesses its own archaeol. centre based on work at the Roman city of Viroconium at Shrewsbury; during the summer a no. of residential courses in excavation techniques and ancillary subjs. are held. Other

courses are arranged with the residential colls. for adult edn in the W. Midlands. An annual summer sch. is also held, in England or on the continent, in conjunction with the W.E.A. Study tours are arranged annually.

**UNIVERSITY BOARD OF ADULT EDUCATION** (see also 'Teaching Staff', above). The bd. supervises all the extra-mural work of the univ. Univ. extension courses, tutorial, seasonal and short courses, summer schs. and other residential courses are held in Birmingham and at centres throughout the W. Midlands. There is a jt. cttce for work with the W.E.A. and another for services edn.

**POSTGRADUATE AWARDS** open to grads. of other univs. - see p. 910.

**RESIDENCE.** (For wards, see 'Admin. and Other Staff', above). For women: Univ. House, Edgbaston Park Rd., Birmingham, 15 (tel. Sel 0115) (155 students), fees £137 to £151 per session. For men: Chancellor's Hall, Augustus Rd., Edgbaston, Birmingham, 15 (tel. Edg. 2464) (130 students); fees £166-2s. 6d. with rebate to those sharing rooms. Chad Hill, 125 Humber Rd., Birmingham, 15 (tel. Edg. 0155) (32 students), mainly intended for grad. and res. students; fees: from £4-15s to £5-5s. per wk., plus small extras. The Manor House, Bristol Rd. South, Birmingham, 31 (tel. Pri 1631) (150 students), fees £4-15s. 6d. to £5-5s. per wk., plus small extras.

**APPOINTMENTS BOARD** (For officers, see 'Admin. and Other Staff', above). The functions of the bd. are to provide information and advice on careers and to assist grads. of the univ. to obtain suitable employment. The services of the bd. are available without charge to all grads. and undergrads. of the univ. *Postal address* (see), The Univ., Birmingham, 15; tel. Selly Oak 1301.

**GUILD OF GRADUATES.** The guild is entitled to appoint one rep. for every 250 of its members to serve on the univ. court of governors, the present number of reps being 31. One rep. of the guild is a member of the univ. council. A *News-letter* is circulated annually to all members.

**UNIVERSITY OF BIRMINGHAM OFFICERS TRAINING CORPS.** Cadets may join for various periods of service which are flexible to enable them to undertake trg. without interfering with their univ. degree course. The contingent comprises the following sub-units: Royal Signals, Infantry, Royal Electrical and Mechanical Engineers. Minimum trg. obligations are laid down for each yr. Suitable cadets may be recommended to War Office Selection Bd. Further information from the adjutant, U. of Birm. O.T.C., Edgbaston, Birmingham, 15 (tel. Selly Oak 0249).

**UNIVERSITY OF BIRMINGHAM AIR SQUADRON** is established to promote interest in R.A.F. at the univ. and to maintain close liaison in tech. and res. problems affecting flying; also to attract entrants of good calibre and learning into R.A.F.

by providing facilities for undergrads. to become acquainted with flying and its assoc. problems. Further information from the C.O., Univ. Air Squadron, The Univ., Edgbaston, Birmingham, 15 (tel. Edgbaston 4053).

**UNIVERSITY HEALTH SERVICE.** The purpose of this service, which is administered by a full-time univ. medical officer with one full-time asst. med. officer and two dent. surgeons, is to reassure students about the state of their health, to offer them opportunities for maintaining and improving it, and to help to secure early treatment for any disorders which may occur. All freshmen, excepting those eligible for exemption under the regns., are required to attend for a routine med. overhaul and to have a chest X-ray; the X-ray is repeated annually. Ophthalmic treatment under the national health scheme is also available.

**GUILD OF UNDERGRADUATES.** The guild, establd. under charter of univ., is the organized assocn. of the undergrads. for furtherance of their common interests, recog. by court, council and senate of univ. for this purpose; represented by 3 members on court of governors. Income of guild, derived from membership fees, is applied to upkeep of the union and univ. athletic union. There is full, assoc., external and hon. life membership.

**UNION.** All members of guild of undergrads. are entitled to use of the union, which adjoins the univ. bldgs. at Edgbaston.

**UNIVERSITY ATHLETIC UNION.** Membership of union open to full and assoc. members of guild of undergrads. provided they are amateurs. The union includes following clubs: *For men:* assoc. and rugby football, cycle-racing, golf, rowing, cross country running, weight-lifting. *For women:* lacrosse, netball. *For men and women:* athletics, basketball, badminton, cricket, hockey, judo, tennis, swimming, table tennis, sailing, squash, racquets, fencing, gymnastics, rifle. Extensive grounds, with pavilions, are at the service of the athletic union.

**UNIVERSITY STAFF CLUB.** Westmore, Edgbaston Park Rd., Edgbaston, Birmingham, 15 (tel. Edgbaston 0290).

**UNIVERSITY BOOKSHOP.** A small univ. shopping centre (opened 1962) includes a bookshop.

## GENERAL INFORMATION

Univ. Coll., Bristol, was establd. in 1876 and in 1893 the Bristol Med. School, which dates from 1833, became incorporated in it. The univ. received its charter in 1909.

Bristol is situated on the borders of Gloucestershire and Somerset, with a population of about 440,000.

**CONSTITUTION.** The court, comprising some 450 reps. of local authorities and organizations, learned institutions, benefactors, staff and grads, meets annually to receive a report from council, pass accounts and a balance sheet, appoint univ. officers and amend ordinances. Executive control rests during the yr. with council, whose 46 members are nominated by court, the local authorities of the region, the Soc. of Merchant Venturers, senate, the non-professional teaching staff and convocation. Senate, numbering over 60 and consisting of the *profes.* and a no. of other members of the teaching staff, controls, under council, the academic affairs of the univ. and receives reports from the fac. boards. There are 5 facs. (see below) each having at its head a dean, who holds office for 2 or 3 yrs. The principal academic officer of the univ. is the vice-chancellor, whose appt. is permanent. The grads. of the univ. form convocation, which meets annually and may discuss and pronounce an opinion on any matter relating to the univ.

**INCOME (1960-61).** Total income, £1,975,631 (Treasury grants, 70 per cent.; other grants and contributions for services rendered, 15 per cent.; fees, 11 per cent.; grants from local authorities, 2 per cent.; other sources, a per cent.).

**FACULTIES AND DEANS.** *Arts*, Prof. W. McC. Stewart (French); *engin.*, Prof. W. M. Shepherd (theoret. mech.); *law*, Prof. J. A. Courts

(jurisp.), and, Prof. J. M. Yoffey (anat.); *sci.*, Prof. F. C. Frank (phys.)

**UNIVERSITY PRECINCT.** The facs. of arts and law are chiefly housed in the main bldg., which was opened in 1925; it includes the library and admin. offices and its tower occupies a commanding site close to, but well above, the centre of the city. In the same area are most of the scientific depts., incl. the H. H. Wills phys. lab. (opened in 1927 and now extended) and Queen's Bldg. (opened in 1958 and housing the depts. of maths., geol., civil engin., mech. engin., elect. engin., aeronaut. engin. and theoret. mechs.), and the sites for new med. sch. and new chem. sch. Canynge Hall, within easy reach, accommodates the depts. of pathol., pub. health and bacteriol. The vet. field station, opened in 1952, is at Langford, Somerset.

**LIBRARY** 263,525 vols. other than pamphlets (including arts, 145,615; sci., 58,000; med., 42,800; engin., 12,600; law, 4400) Sp. collections: British local hist. and records; early Engl. novels; Engl. philos. writers; courtesy books; hist. of educn.; early Engl. dictionaries; cartography; landscape gardening; Maria Mercer phys. lib.; Exley math. lib.; Worsley chem. lib. (including early works on chem. and alchemy); Wilesworth ornithol. collection; early med. books and works on mineral waters and spas.

**LABORATORIES, ETC.** *Anat.*, bacteriol., bot., org. chem., phys. & inorg. chem., engin. (civil, mech., elect. & aeron.), geol., pathol., pharmacol., phys., physiol. vet. anat., vet. physiol., vet. surg., zool., geol. museum. Long Ashton res. stn. (agric.), see p. 937. Hort. sci. lab. Univ. bot. garden at Bracken Hill.

**TEACHING HOSPITALS.** Clin. study is undertaken in the United Bristol Hosps. (comprising the Bristol Royal H., Univ. of Bristol Dental H., Bristol Royal H. for Sick Children, Bristol Eye H. and Bristol Maternity H.) and partly in the following hosps. under the control of the S.-W. Regional Hosp. Bd.: Southmead H., Harn Green H., Bristol Mental Hosps., Stoke Park Colony and Winsley Sanatorium.

**INSTITUTE OF EDUCATION** (see also p. 936). Founded in 1947 to supervise the trg. of teachers and generally to foster work in the field of educn. in the region. *Associated institutions:* univ. dept. of educn.; Coll. of S. Matthias, Fishponds, Bristol; W. of England Coll. of Art, Bristol; City of Bath Trg. Coll., Domestic Sci. Trg. Coll., Bath; City of Bath Academy of Art; St. Paul's Trg. Coll., Cheltenham; St. Mary's Trg. Coll., Cheltenham, Gloucestershire Trg. Coll., Gloucester, Diocesan Trg. Coll., Salisbury, Redland Trg. Coll., Bristol.

**A SCHOOL OF MANAGEMENT STUDIES** was established in Aug. 1962 to provide residential courses in management studies and to conduct res. into problems of bus. management and admin. First admissions to sch. took place in Sept. 1962. For staff, see p. 930.

## GONVILLE AND CAIUS COLLEGE

Founded in 1348 as Gonville Hall by Edmund Gonville, the name of the college and its situation were both changed by William Bateman, Bishop of Norwich, his executor, in 1353, when it became the Hall of the Annunciation of Blessed Mary the Virgin. In 1558 John Caius obtained a royal charter confirming the earlier foundations and establishing his own, and by this charter the college received its present name. ## KING'S COLLEGE

Founded in 1441 by King Henry VI. Under the founder's statutes, which remained in force until 1861, every vacancy had to be at once filled by the admission of a scholar from the sister foundation of King Henry VI at Eton. In 1861 provision was made for the admission of undergraduates other than scholars of Eton. Junior members in residence (1961-62): BAs and Research Students, 125; undergraduates, 283. Telephone: Cambridge 50417.

## TRINITY HALL

Founded in 1350 by William Bateman, Bishop of Norwich, and especially designed by him for the study of law. This has been recognized by the establishment of law lectureships, law studentships, open scholarships for intending students of law, and foundation scholarships, but members of the college are not restricted to any particular subject of study, and a normal balance of numbers is maintained among all the usual subjects. Junior members in residence (1961-62): BAs and Research Students, 61; undergraduates, 289. *Telephones:* Cambridge 59447.

## GENERAL INFORMATION

The univ. received formal recognition as a *studium generale* from Pope John XXII in 1318, but it was well established by that time and had already been given important privileges by King Henry III. Its origins probably date from 1200 when, following disturbances at Oxford, a no. of scholars migrated to Cambridge. The first coll., Peterhouse, was founded by Hugo de Balsham, Bishop of Ely, in 1284, and was followed by most of the others in the next 3 centuries.

In the period from the foundation of King's Coll. (1441) to the foundation of Trinity Coll. (1566) the univ. expanded considerably, and achieved a European reputation. The high-water mark was perhaps reached during the chancellorship of John Fisher (1504-35), who introduced Erasmus to Cambridge. The Reformation, and in particular the dissolution of the monasteries, had a disturbing influence, and ushered in a series of constitutional changes, the chief result of

which was to give the colls a more important place in the constitution of the univ. The constitution of the univ. was stabilized when it received a new code of statutes from Queen Elizabeth in 1570, and was incorporated by act of parliament in 1571. Under the new statutes, which remained in force for nearly 300 years, all students had to be members of colls., and the govt. of the univ. was largely in the hands of the heads of colls.

There were few major devels. in the 17th or 18th cents. No new colls were founded between 1536 (Sidney Sussex) and 1800 (Downing). The decline in the no. of students which was brought about by the civil war was temporarily checked by the Restoration, but in the next 100 yrs the average no. of students matriculating each yr fell by two-thirds. But a no. of professorships were founded, and under the influence of Sir Isaac Newton, who was Lucasian prof of maths for 33 yrs., maths became the main subj. of study, from 1750 onwards it was compulsory.

By the end of the 18th cent. written exams had taken the place of the earlier 'disputations'. Most of the official teaching was done in colls but undergrads who wished to do well in the tripos exams were resorting more and more to private tutors. There were a few endowed univ. professorships and univ. lectureships, but the trust deeds governing them were often out of date, and the stipends attached to the posts very low. The Elizabethan statutes were so far unrelated to the conditions of the time that many were ignored.

Changes were urgently required, and the univ. did not escape the reforming agitation of the 19th cent. Its affairs were investigated by royal commissions in 1850 and 1872, and the univ. statutes were subsequently revised by statutory commissions. The classical tripos was introduced in 1824, and, after the maths. tripos had ceased to be compulsory in 1850, the range of subjs. of study was steadily widened. In 1856 nonconformists were allowed to graduate; in 1858 the local exams (for schools) were instituted; in 1869 the first women's coll., Girton, was founded (though women were not admitted to full membership of the univ. until 1948); in 1871 all religious tests were abolished by the Universities Tests Act, and in the same yr. the Cavendish phys. lab. was established; in 1872 the bd. of extramural studies was instituted to organize univ. extension lectures. During the cent. the average annual total of admissions increased by nearly 6 times.

In the early yrs. of the present cent. the univ. was in serious financial difficulties, which were aggravated by the war of 1914-18. The univ. received a Treasury grant in 1919 on the condition that there should be an enquiry into its resources and orgn. A royal commission apptd in 1920 recommended that the univ. (but not the colls.) should receive an annual Treasury grant, and should be reorganized so as to take over some of the teaching previously done by colls. In conse-

quence the statutes were again revised, the facs. reorganized, and many more univ. lectrs. apptd. Thenceforward all lectures and other public teaching were organized by the univ., and the colls. retained responsibility only for managing the individual teaching of their students by coll. supervisors. The system of coll. supervision had developed from about 1900 and by the 1920s had superseded the private tutors of the previous cent.

Since the royal commission reported in 1922 the no. of undergrads has increased by half to about 7500; the no. of res. students has increased from about 150 to over 1000; new courses for degrees, dipls. and certs. have been establd. and new subjs. introduced into the old courses. In recent yrs. a new foundations have been establd.: New Hall, for women, and Churchill Coll., for men.

The city of Cambridge (pop. 95,000) lies on the river Cam, or Granta, 51 miles N. of London, and is the county town of Cambridgeshire. Before the univ. was establd., the borough was already an important admin. and trading centre, and the site had been occupied since Roman times.

**CONSTITUTION.** The univ. is a self-governing body; the legislative authority is the *regent house*, which consists of those members of the teaching and admin. staff of the univ. and colls. who have the MA or a higher degree. The senate, which consists of all the holders of the MA or higher degrees, has the right of voting on certain formal matters. The chief admin. body of the univ. is the *council of the senate*, which is elected by the regent house. The *general board of the faculties* co-ordinates the educn. policy of the univ. and the *financial board* supervises its financial affairs.

The nominal and ceremonial hd. of the univ. is the chancellor, who is elected for life. The vice-chancellor is a head of a coll. who normally holds office for a yr. He presides over *congregations* (meetings of the regent house or the senate) and is chairman of the council of the senate and the more important of the many *boards* and *synods* which manage the affairs of the univ.

Changes in the *ordnances*, or regns. of the univ., are proposed by the bd. or syndicate concerned in the form of reports which, after being approved for publi. by the council of the senate, are publd. in the *Cambridge University Reporter*. Such reports can be criticized by members of the senate at *discussions* which are held once a fortnight in full term. A report may be amended after remarks made in the discussion. Subsequently a *grace*, which is a motion for the approval of its recommendations, is submitted to a vote of the regent house. Minor amendments of ordnances are proposed in *graces* which the council of the senate submit for the approval of the regent house without the formality of report and discussion. Ordnnances may not infringe the *statutes*. Procedure for amendments of statutes is the same, but such amendments require the approval of the Queen in Council, after the approval of the regent house has been obtained.

The COLLEGES are independent self-governing corporate bodies quite distinct from the univ., with their own property and income. Their affairs are regulated by their own statutes, though these cannot be altered without the approval of the univ. and the Queen in Council, and they are also bound by some of the univ. statutes. The governing body of a coll. consists of a *master* (or *provost* or *president*) and a group of *fellows*. Most of the fellows are also members of the staff of the univ.; most of the staff of the univ. are either fellows or members of colls.

There are 19 colls for men and 4 colls. (or similar instns.) for women. In addition there is a collegiate instn. for men, Fitzwilliam House, which is under the direct control of the univ. With the exception of Hughes Hall, which is reserved for women reading for the cert. of educn., all colls accept both undergrad. and postgrad. students in any suby. The colls provide lodgings, corporate life and personal tuition. All students are required to be members of a coll. (or one of certain recog. instns.), all the univ. lectures, labs., libraries, extns., and degrees are open to members of any coll., whether men or women.

The principal coll. officers are the *tutors*, who are responsible for the welfare and discipline of the students assigned to them and advise them about their studies and any other problems that may arise. Each student is also allotted a *supervisor*, who gives him personal tuition, and corrects his written work.

The coll. bldgs. are usually grouped round one or more courts. Each coll. has a hall (in which meals are served), a chapel, a library, and jr. and sr. common-rooms. The rest of the bldgs. are divided into rooms for students and fellows. Because of the increase in the no. of students in recent yrs., only about half are able to live in rooms in their coll. The rest live in lodgings (which must, for undergrads., be recog. by the lodging-houses syndicate), but they continue to have access to all the other facilities of their coll. Usually undergrads. are able to live in coll. for 1 or 2 of the 3 yrs. required for a degree.

DISCIPLINE outside the colls. is maintained by the *proctors*, who are responsible for enforcing the *statutes* of the univ. Proctorial permission is required for such purposes as running a motor vehicle, holding a party for more than 15 persons, or organizing a club or soc. Students are required to have gowns, which must be worn at most lectures, in the univ. library, in the streets after dusk, for dining in hall and for official visits to members of the staff.

The INCOME of the univ. is derived mainly from the Treasury grant, partly from the fees of students, grants for res., endowments and contributions from the colls. which are graduated according to coll. revenues. In 1960-61 the income was £3,117,726 (Treasury recurrent grant, £3,272,385; fees, £461,666; grants for res., £612,267; endowments, £420,270; colls., £138,869; other sources, £230,269).

FACULTIES Teaching and res. are organized in 20 *faculties*, each under the supervision of a *faculty board*. The facs. are: classics, div., Engl., fine arts, mod. & mediev. langs., music, oriental studies, econ. & pol. hist., law, moral sci., engin., geog. & geol., maths., phys. & chem., agric., archaeol. & anthropol., biol. 'A' (comprising bot. & zool.), biol. 'B' (comprising anat., biochem., pathol., etc.), and med. Several of the facs. are further divided into depts., and there are also the following depts. independent of any fac. educn., chem. engin. and the observatories.

There is no UNIVERSITY PRESENT in the usual sense. The colls. and univ. bldgs. are spread out in the centre and to the W. of the city. The main ceremonial bldg. of the univ. is the senate-house, in King's Parade, where congregations of the senate and the regent house are held. Beside it are the univ. church, Great St. Mary's, and the Old Schools, which house the univ. combination room, the registry and other central admin. offices of the univ.

Bldgs. in course of constructn. incl. extensions to the new chem. and engin. labs., and new bldgs. for the arts facs. New bldgs. are also planned for Fitzwilliam House and New Hall and for several of the sci. facs.

The UNIVERSITY LIBRARY (tel. Cambridge 56261) contains about 2,000,000 vols., incl. many early printed books, and over 10,000 MSS. and 350,000 maps. It is entitled under the Copyright Act to a copy of every book published in Gt. Britain & Ireland, and a large no. of foreign books and periodicals are acquired by purchase. It contains, amongst others, the following notable collections: Asian libr. (medieval, eccles. and mod. hist., 60,000 vols.); W. G. Aston's Japanese libr.; Sir T. Wade's Chinese books; J. W. Clark collection (Cambridge books, pamphlets, papers, etc.). Annual budget: about £150,000.

In addition there are over 50 fac., dept. and sp. libs., containing in all about 500,000 books. Among the most important are the Balfour libr. (zool.), the Marshall libr. (econ.), the Seeley memorial libr. (hist.), and the Squire law libr. The Philosophical libr. is the libr. of the Philosophical Soc., but other members of the univ. may consult its books on maths. and the sci.

The colls. have their own libs. for the use of members of the coll. only. In addition to modern text-books for the use of students, most also contain important collections of old books or MSS.; these incl. the Robertson Smith collection of oriental books in Christ's Coll.; the Matthew Parker MSS. in Corpus Christi Coll., 800 MSS., 60 incunabula, heraldic collections of Dr. John Knight (17th cent.) and 1300 books and pamphlets of Dr. Wm. Branthwaite (d. 1619) in Gonville & Caius Coll., the Rowe music libr. and the Keynes libr. (which contains Newton MSS.) in King's Coll.; the Pepys libr. in Magdalene Coll.; the Pems libr. in Peterhouse, and

the Capel collection of Shakespeariana in Trinity Coll.

**MUSEUMS.** *The Fitzwilliam Museum* (Dir.—C. Winstanley, [Tun.], MA), Trumpington St., Cambridge (tel. Cambridge 59023), contains extensive art and archaeol. collections. The chief collections comprise Egyptian, Greek and Roman antiquities, coins and medals, paintings, prints, medallions and med. MSS., ceramics, textiles, medieval and Renaissance objects of art. The collection of paintings incl. examples of the Italian, Flemish, Dutch, French, British and Spanish schools, among which are a no. of masterpieces. The libr. contains about 25,000 vols. incl. 12,000 relating to the arts, a collection of early printed books and the music collection. The museum is open free to the public.

*The Museum of Classical Archaeology* (Curator—Prof. R. M. Cook, [Cln.], MA), Little St. Mary's Lane, Cambridge (tel. Cambridge 52410), contains a collection of casts illustrating the hist. of Greek sculpture.

*The Museum of Archaeology and Ethnology* (Curator—G. H. S. Bushnell, [Down.], MA PhD, Asst. Curator—Mary D. Custer, [Ginton.], MA Oxon & Camb.), Downing St., Cambridge (tel. Cambridge 59714), has a large and increasing collection, incl. Saxon urns and ornaments, casts of central American monuments, Egyptian stone implements, unique Fijian collections and numerous others resulting from scientific expeditions by Cambridge men.

*The Museum of Zoology* (Dir.—F. R. Parrington, [Sid.], ScD, FRSc), Downing St., Cambridge (tel. Cambridge 58717).

*Sedgwick Museum of Geology* (Curator—A. G. Brighton, [Chr.], MA), Downing St., Cambridge (tel. Cambridge 50129).

*Whipple Museum of the History of Science* (Curator—G. Buchdahl, [King's], MA MPhil & Camb.), Downing St., Cambridge (tel. Cambridge 50320).

**LABORATORIES.** The principal labs are: agric., anat., biochem., biol. and parasitol. (Molteno Inst.), bot., chem., chem. engin., colloid sci., engin., ethiol., exper. phys. (Cavendish), genetics, human anat., maths. (for res. on computing machinery), med., metall., mineral & petrol., pathol., phys. chem., physiol., psychol., statistical, vet. sci., zool.

**BOTANICAL GARDEN** (Dir.—J. S. L. Gilmour, [Cln.], MA, FLS), Bateman St., Cambridge (tel. Cambridge 50101).

**OBSERVATORIES** (for staff, see *Astronomy*, p. 943), Madingley Rd., Cambridge (tel. Cambridge 52413), are about a mile from Cambridge and have a 36-in. reflector, a 17-in. Schmidt telescope and a 12-in. horizontal solar telescope with spectrographic equipment. There are a no. of smaller instruments, a well-equipped workshop, a small optical shop and a good libr.

**SCOTT POLAR RESEARCH INSTITUTE** (Dir.—G. de Q. Robn, [Cln.], MSc *Adm.*, PhD *Bure.*, MA), Lensfield Rd., Cambridge (tel. Cambridge 56457), is the most important repository in the Commonwealth of information about arctic and antarctic regions.

**MADINGLEY HALL** (Warden—E. Miller, [Jeh.], MA), Madingley, Cambridge (tel. Madingley 307). A large country house, dating in part from 1540, about 4 miles W. of Cambridge. In term time accommodates about 30 grad. students (who must be members of one of the colls.) in study-bedrooms. In vacations the hall is made available to the bid of extra-mural studies (see below) for residential courses.

**DEPARTMENT OF EDUCATION** (for staff, see *Education*, p. 946), 17 Brookside, Cambridge (tel. Cambridge 55271). Prepares students for the cert. in educn. awarded by the Cambridge Inst. of Educn. (see below). The 1-yr. course incl. 1 term's teaching practice and is open to grads. of any univ. Candidates must obtain admission to a coll. (in the case of women, to Hughes Hall) before applying for admission to the dept.

The univ. dept. of educn. is a corporate member of the Cambridge Inst. of Educn., 8 Brookside, Cambridge (tel. Cambridge 56207/9). Dir.: W. O. Bell, [Cath.], MA; Dep. Dir. and Sec.: F. F. C. Edmonds, [Qu.], MA.

**ADMISSION.** See Appendix III. Students must be admitted to a coll., admission to a coll. automatically secures admission to the univ. Most colls. have entrance exams., but they may admit persons who have exceptional qualif., without requiring them to take an exam. Enquiries should be addressed to the tutor for admissions of the coll. concerned (to the soc. of Ginton. or Newnham Coll.). Candidates for admission to courses of res. must also obtain the status of res. student (see below).

*The Adviser to Overseas Candidates for Admission* (N. S. Wilson, [Pemb.], MA), at 17 Silver St., Cambridge (tel. Cambridge 58933), is able to give information and advice to applicants for admission resident outside the U.K. and to govt. depts. acting on behalf of such students.

**NON-MEMBERS OF THE UNIVERSITY.** Certain classes of persons who are not members of the univ. may be admitted to lectures or allowed to work in univ. labs. for limited periods. Enquiries should be addressed to the registry.

**FIRST DEGREE.** The BA is the first degree in all subjects. The qualif. for the BA hon. are: (i) 9 terms' residence; (ii) reaching the hon. standard in any 2 of the exams. known as 'tripes' exams. (in certain cases, noted below, one such exam. is a sufficient qualif.). In most subjects, there are 2 tripes exams., the first of which (pt. I) is taken after a 1 or 2-yr. course of study, and the 2nd (pt. II) after 1 or 2 yrs. of more specialized study in certain aspects of the subj. It is possible to take the 2 tripes exams. in different subjects.

There are the following tripos exams: *agric.*, pts I & II, Anglo-Saxon (which consists of one pt. only), *archaeological & anthropological*, pts I & II; *archaeol. & fine arts*, pts. I & II, *chem.*, *engin.* (which consists of one pt. only and can only be taken after obtaining honours in certain other exams), *classical*, pts I & II; *econ.*, pts I & II, *electr. sci.* (which consists of one pt. only and can only be taken after obtaining honours in another honours exam); *Engl.*, pts. I & II, *geographical*, pts I & II, *historical*, pts. I & II, *land econ.* (which consists of one pt. only and can only be taken after obtaining honours in another honours exam), *law*, pts. I & II; *mathematical*, pts. I, II & III (pt. II qualifies for the BA without further exam., pt. III is normally taken only by the most advanced students who have omitted pt. I), *music*, *scis.* (*engin.*), pts. I & II (pt. I qualifies for the BA without further exam.), *mod. & mediev. lang.*, pts I & II, *moral sci.*, pts. I & II, *music*, pts. I & II; *nat. sci.*, pts. I & II (pt. I qualifies for the BA without further exam., in pt. I a student must read 3 or 4 sci. subs., in pt. II he specializes in 1 sci. sub.), *oriental studies*, pts. I & II, and *theological*, pts. I, II & III (pt. Ia is intended for those who have previously obtained honours in another sub.).

If a student fails to reach the standard required for honours in his 1st tripos, he will not be admitted to a 2nd tripos, but may be given an allowance towards the old BA degree and, after passing 1 or 2 of the special exams, which are held in most of the subs. covered by the triposes, be admitted to that degree. The only course leading to the old BA degree is the course in *Christian theol.* (see also 'Certificates', below).

Most exams. are held at the end of the Easter term.

**AFFILIATED STUDENTS.** Grads. of many other univs., having degrees approved for the purpose by the council of the senate, may be allowed to proceed to the BA degree after 6 terms' residence and obtaining honours in one tripos exam. only, usually a pt. II. (For details, see *The Student's Handbook*).

**HONORARY DEGREES.** Without taking any further exam. a BA may be admitted to the degree of MA after 6 yrs. have elapsed from the end of his 1st term, provided that at least 3 yrs. have elapsed from his admission as BA. The MA does not represent any addnl. academic qualif., but confers seniority, including membership of the senate and certain privileges in the use of the univ. library and other univ. instns. An MA is conferred on the principal members of the staff who have degrees of other univs. (in some cases after an interval of 3 yrs.). Other members of the grad. staff have the status of MA, which confers most of the privileges of the MA except membership of the senate and regent house.

Grads. of Oxford at Trinity Coll., Dublin, who become members of the staff, may by 'incorporating' be admitted to a degree which corre-

sponds to that which they already held and confers the same seniority.

The main res. degrees are the Ph.D., M.Litt. and M.Sc. See 'Research Students', below.

**LAW.** A person may be a candidate for the LL.B. exam. if he has obtained honours in either pt. of the law tripos, or if he is a BA and qualified to practise as a barrister or solicitor in England or Ireland or as an advocate or law agent in Scotland, or if he has passed a law exam. in another univ. approved by the fac. bd.

**MEDICINE.** The course leading to the degrees of MB BChir normally lasts 6 yrs. At least 9 terms must be spent at the univ., during which the candidate must complete the 1st MB exam., the qualifying exam. in anat. and physiol., the exam. in pharmacol., and obtain honours in a tripos (usually pt. I of the nat. sci. tripos). At this stage he is usually qualified to proceed to the BA. He must then spend at least 2 yrs. 9 mos. in clinical study at a hosp. (usually in London) and pass the final MB exam. before proceeding to the degrees of MB BChir, which are qualifs. for provisional registration under the Medical Act, 1940. Not less than 2 yrs. after passing the final exam. for the MB BChir, a person may be a candidate for the degree of MChir.

**MUSIC.** The qualifs. for the MusB are (i) 9 terms' residence; (ii) passing 2 sections of the MusB exam. Candidates must first have obtained honours in one pt. of the music tripos.

**VETERINARY MEDICINE.** The course leading to the degree of VetMB normally lasts 6 yrs. The candidate must first complete the 1st MB exam., the qualifying exam. in vet. anat. and vet. physiol., the exam. in pharmacol., and obtain honours in a tripos (usually pt. I of the nat. sci. tripos). He must then spend 3 yrs. completing specified courses at the school of vet. med. and obtaining practical experience before being admitted to the final vet. exam.

The other higher degrees, which are open only to members of the univ., are: MusM—3 yrs. from MusB, LL.M.—2 yrs. from BA or LL.B. (but at least 6 yrs. from first term of residence); BD—3 yrs. from BA, DD, LLD, MD, ScD, LittD, MusD—8 yrs. from BA or other first degree.

**HONORARY DEGREES** may be conferred on persons who have done good service to the univ. or are of great distinction. They are normally one of the following DD, LLD, ScD, LittD, MusD or MA.

The univ. does not award EXTERNAL DEGREES.

**DIPLOMAS.** The following dipls. are open to grads. of any univ. whose qualifs. are approved (usually a degree in the same sub. is required): *agric. sci.*, 1–2 yrs.; *agric.*, 2 yrs.; *agric. studies*, 1 yr. (from 1965); *classical archaeol.*, 1 yr.; *criminol.*, 1 yr.; *mathl. stats.*, 1–2 yrs.; *numerical analysis and automatic computing*, 1 yr.; *Roman law*, 1 yr.; and *slavonic studies*, 1 yr.

Candidates are required to become members of the univ. and reside for 3 terms.

The dipls. in archit. and estate management are open only to persons with the Cambridge BA degree in those subs. (The exam for the dipl. in estate management will be held for the last time in 1966). The dipl. in educn. is open only to persons who have previously obtained the cert. in educn. at Cambridge.

The dipls. in compar. legal studies, econ. and internat. law are open only to registered res. students. See 'Research Students', below.

**CERTIFICATES.** The following certs. are open to grads. of any univ. whose quals. are approved: advanced study in chem. engin. and in engin. (either in theory of structures and strength of materials, or in control engin.), postgrad. study in chem. engin., engin., chem., metall., phys., chem. microbio. and plant biochem., hist. studies, and hist. and philos. of sci. Candidates are required to become members of the univ. and reside for 3 terms. For the cert. in educn. see 'Dept. of Educn.' above.

A cert. of proficiency and the ord. BA degree are awarded after a 3-yr. course in Chestnnt theol.

Certs. in soc. anthropol., phys. anthropol. and prehist. archaeol. are open to any member of the univ. who has been accepted by fac. bd. of archaeol. and anthropol. and who has received instruct. in Cambridge under direction of fac. bd. for 1 academic yr.

Certs. of competent knowledge in mod. langs. are open to any member of the univ. who has resided for 2 terms.

**RESEARCH STUDENTS.** Grads. of any univ., and in exceptional cases non-grads., who can give evidence of ability to profit from a course of supervised res. may be admitted as candidates for the degrees of PhD, MLitt or MSc. They must first obtain admission to the status of res. student, and become members of a coll. or Fitzwilliam House. Enquiries about admission to the status of res. student should be made to the sec. of the Bd. of Res. Studies (F. M. Aigbo, [Fitzw.], BSc(Econ) Lond., MA), The Old Schools, Cambridge (tel.: Cambridge 58933). Res. students are admitted to work in any fac.

Candidates for the degree of PhD are required to pursue a course of res. for 3 yrs., for the degrees of MSc and MLitt for 2 yrs.; and for the dipls. in compar. legal studies, econ. and internat. law or the certs. of postgrad. study in nat. scis. for 1 yr.; they are placed under the direction of a supervisor, and are required to reside in the univ. during full term, save that in certain cases a candidate for the PhD may be allowed to spend 1 yr. working under supervision elsewhere, or may be granted exemption from 1 yr. on the ground of res. done before admission to Cambridge. After completing the course, candidates are required to submit a dissertation, or thesis, embodying the results of their res., and also (except for the dipls.) undergo an oral or written exam.

Res. students may be admitted, normally for a

period of not more than 1 yr., as candidates for degrees of other univs.

The annual report of the Bd. of Res. Studies is published in the *Reporte* in Feb. or March each yr.

**EXPENSES.** Students are required to pay both univ. and coll. fees. The only recurrent univ. fee is the univ. composition fee (£16 a term in arts facs. and £20 a term in sci. facs.); this composition fee now includes the fees previously charged for matric. and BA degree. Since coll. fees vary from coll. to coll., it is not possible to give precise information. Total annual term-time expenditure is likely to be £450 or more; this would include some allowance for personal expenses. Attendance at long vacation courses would be addnl., and since the univ. terms only cover about half the yr., a student who has to maintain himself during vacation will usually need £700-£800 a yr. The following initial fees must be paid before coming into residence: coll. admission fee (£2 to £5); and, at most colls., 'caution money'. The latter is a sum of about £30 (increased by some colls. in the case of students not normally resident in the U.K.) which is returned when the student completes his course.

**ACADEMIC YEAR.** The academic yr. is divided into 3 terms. Michaelmas term: Oct. 1-Dec. 19; Lent term: Jan. 5-March 25; Easter term: April 10-June 18. In order to count a term towards the quals. required for a degree, a student is required to reside in the univ. precincts for three-quarters of the term. Most students therefore reside during full term, which also lasts for three-quarters of each term, since regular teaching and lecturing are only given in full term. Dates of full term for academic yr. 1963-64: Oct. 8-Dec. 6; Jan. 14-March 13; April 21-June 12.

During a period from the Thursday following July 6 to the Saturday following Aug. 12 there are addnl. lecture courses in agric., engin., langs., law and most sci. and med. subs., which students may attend. Students in other subs. may come into residence in this period to use libraries, etc., but will not receive formal teaching.

Most libraries and labs. are open throughout the yr. except for short periods at Christmas, Easter and in Sept.

The BOARD OF EXTRA-MURAL STUDIES undertakes the liberal educn. of adults, mainly in the eastern counties, and in a few centres further afield. The Workers' Educn. Assocn., together with other voluntary assocns. and the local educn. authorities, are represented on the bd. and are closely associated with the arrangement of its teaching work. Consultation also takes place, more especially with L.E.A.s, through the E. Anglian Regional Advisory Council for Further Educn. The teaching of the bd. consists mainly of: (a) univ. tutorial classes, extending over 3 winter sessions; (b) univ. seminar classes, usually of 20-24 meetings; (c) univ. extension lecture courses, usually of 10-12 meetings; (d) other special

courses, many of a pioneer type. Boussoles are awarded annually to men and women in the adult educ. movement who have shown themselves to be capable of profiting by a course of univ. study, but who, for various reasons, have not had the opportunity.

**Vacation Courses.** The bd. holds vacation courses, incl. (a) an annual summer sch., in co-op. with the W.E.A., mainly for students from tutorial and sess. classes, incl. a trg. course for potential tutors in adult educ.; (b) vacation courses for students from overseas, mainly Europe; (c) occas. summer schs., in co-op. with facs. or depts. of the univ. to meet special requirements. The univ. has placed Madingley Hall at the disposal of the bd. in vacations, and the bd. has arranged there a considerable no. of residential courses for adults. These incl. courses for army and R.A.F. officers, also for members of U.S.A.F., for managers, supervisors and apprentices in industry, trade unionists and teachers.

Further particulars from the soc., G. F. Hickson, [Cln.], MA, Stuart House, Cambridge (tel. Cambridge 56275). Asst. secs.: J. M. Y. Andrew, [Cuth.], MA; F. V. H. Ramsbottom, [Cuth.], MA; A. A. M. Stripp, [Trin.], MA. For names of full-time tutors, see p. 956. The bd. also has the services of about 50 pt-time tutors and lectrs.

**SCHOLARSHIPS AND STUDENTSHIPS.** There is a limited no. of univ. awards, but most are for postgrad. study and are open only to members of the univ. A large no. of awards is offered by the colls. These incl. many open entrance schols and exhibitions, which are competed for by exams. held in Dec. (Feb. for Fitzwilliam House). Full details are given in a sp. number of the *Cambs. Univ. Reporter* publ. annually in May and obtainable from the univ. press (for addresses, see p. 979) price 6d.

For postgrad. awards open to grads of other univs., see p. 970.

**APPOINTMENTS BOARD.** The bd. helps undergrads. to decide upon the careers which might suit them, and brings together employers seeking recruits and undergrads, seeking employment. 893 permanent appts. were obtained in 1961. For officers, see 'Adman and Other Staff', p. 957. Address: 6 Chaucer Rd., Cambridge (tel.: Cambridge 54423). Telegrams: Appointments, Cambridge.

THE WOMEN'S APPOINTMENTS BOARD is also at 6 Chaucer Rd., Cambridge (tel.: Cambridge 54423). 91 permanent appts. obtained in 1961.

**GRADUATE ASSOCIATIONS.** There is no soc. of univ. grads., but each coll. has its own grads. assocn.

**UNIVERSITY MILITARY AND AIR FORMATIONS.** Cambridge univ. officers trg. corps provides service trg. for students who wish to join regular army and for candidates for commissions in army emergency reserve and territorial army. H.Q.:

The Rifle Range, Grange Rd., Cambridge (tel.: Cambridge 50995).

Cambridge univ. air squadron is established to promote interest in R.A.F. at the univ. and to attract entrants of good calibre and learning into the service by providing facilities for students to become acquainted with flying and its associated problems. Flying instrcn. given at Cambridge airport. H.Q.: 2 Chaucer Rd., Cambridge (tel. Cambridge 56942).

THE UNIVERSITY HEALTH SERVICE (tel.: Cambridge 58217) is part of the dept. of human scol. (For staff, see *Human Biology*, p. 954). All students are invited to attend for a med. exam. in their 1st term. The univ. health centre includes a gymnasium, and is situated at *Fower's*, the univ. cricket and tennis grounds.

**UNION SOCIETY.** The Cambridge Union Soc. is open to all male members of the univ. Its chief activity is debating, but it also contains a lib., restaurant and rooms for soc. activities.

THE OXFORD AND CAMBRIDGE SCHOOLS EXAMINATION BOARD, established 1873, examines or inspects and reports on the work of schs. which provide educ. of the highest grade. It also holds yrly exams. and awards a General Cert. of Educn. (G.C.E.) which exempts the holder, under certain conditions, from the min. entrance requirements of univs., and the prelim. exams. of various profess. bodies, etc. Its exams. are held at schs. in the British Isles, and also in the Middle East, the W. Indies and British Guiana. The regus. of the bd. are publ. by the Cambridge Univ. Press (post free, 2s. 6d.), for addresses, see p. 979. Secs.: at Cambridge—A. E. E. McKenzie, [Trin.], MA, 10 Trumpington St. (tel.: Cambridge 50658); at Oxford—G. J. R. Potter, OBE, MA Oxon., 74 High St. (tel.: Oxford 43549).

THE UNIVERSITY OF CAMBRIDGE LOCAL EXAMINATIONS SYNDICATE is one of the examining bodies in England and Wales approved for sec. sch. exams. by the Min. of Educn. Its membership incl. univ. members, principals of schs. and reps. of local educn. authorities. The syndicate conducts sch. exams. in Gt. Britain and overseas, and exams. in Engl. for foreign students.

**General Cert. of Educn.** The exam. for the G.C.E. (at advanced level in June and at ord. level in July and Dec.) is entrusted to a sch. exams. cttee., one-half of whose members are teachers apptd. by the Jt. Cttee. of the Four Secondary Assns. Sch. teachers, as members of sub. cttees., and as examiners, take a prominent part in this exam. The cert. exempts the holder, under certain conditions, from univ. entrance requirements and the prelim. exams. of various profess. bodies, and is endorsed by the Min. of Educn. This exam. is not held in this form outside Europe. Sp. arrangements are made for the exam. of members of H.M. Forces.

**School Exams. Overseas.** The jt. exam. for the sch. cert. and G.C.E., and the higher sch. cert. exam. are held in Dec. in India and Pakistan,

Singapore and the Fed. of Malaya, Nigeria and E. Africa, the Fed. of Rhodesia and Nyasaland, the W. Indies, Mauritius and elsewhere in conjunction with the educn authorities, and in schs for the British community in some foreign countries. In Malaya, the H.S.C. exam. is conducted jointly with the Univ. of Malaya. The exam. for the Fed. of Malaya cert. of educn is held in conjunction with the sch. cert. exam. in the Fed. of Malaya. In Nigeria the sch. cert. is awarded jntly with the W. African Exams Council and is named W. African Sch. Cert. In the Sudan it is awarded jntly with the Sudan Exams. Council and is named Sudan Sch. Cert. Govt. scholps. to univs. are awarded on the syndicate's exams in a no. of countries of the Commonwealth. The subjs. of these overseas sch. exams. corresp. closely to those of the G.C.E. and normally carry the same exemptions in the U.K. In most areas where the exam. is taken candidates can obtain a G.C.E. cert. as well as or instead of a sch. cert. if they reach the necessary standard in 3 subjs.

**Exams. in English.** These exams for foreign students, which are conducted in assocn. with the British Council, are held in Gt. Britain and about 50 countries overseas. The cert. of proficiency in Engl<sup>1</sup>, which exempts the holder from the entrance test in Engl. at certain univs., and the dipl. of Engl. studies, which is intended to be of the same standard as a first exam. for a univ. hon. degree, carry the official approval of the Min. of Educn. There is also an exam. for a lower cert. in Engl.

The exam. for the *Cambridge Dipl. and Cert. in Religious Knowledge* is held in June, it is designed as a test of univ. standard for teachers, ordinands and others who desire evidence of having reached a high standard in their knowledge of the subj.

## GENERAL INFORMATION

The univ. was establd in 1832. The Coll of Medicine, founded in Newcastle in 1834, was associated with the univ. first in 1852 and more closely in 1870. The Durham Coll of Physical Sci., later Armstrong Coll., was founded in 1871 in Newcastle as a part of the univ. The reconstitution of 1908 brought the Durham Colls., the Coll of Medicine and Armstrong Coll into a closer relationship. The reconstitution of 1937 carried the process further, establishing a central financial control. It also merged the two Newcastle colls. in King's Coll, Newcastle upon Tyne.

A further reconstitution is now planned which will lead to the existence of separate univs in Durham and Newcastle. There is reason to expect that this reconstitution, which will require legislation, will take effect from Aug. 1, 1963. Under the proposed reconstitution Coddington Coll and the Univ Coll of Seacroft Leazes (Fouth Bay Coll.) would remain affiliated to the Univ of Durham as reconstituted and Sunderland Tech Coll would be affiliated in the schs. of mech., marine, civil and elect. engin. to the Univ. of Newcastle upon Tyne.

**CONSTITUTION** The univ. is governed by a visitor, chancellor, vice-chancellor, pro-vice-chancellor, convocation, court, senate and bds of facs. It includes two divisions, namely, the Durham division and the Newcastle division. The Durham division is governed by a council, an academic bd. and a warden, the Newcastle division by a council, an academic bd. and a rector. The warden and rector are alternately vice-chancellor and pro-vice-chancellor of the univ. for 2-yr. terms.

Convocation is the body of grads. which may make representations to the univ. on any univ. matter. The court appoint profs and readers on the recommendation of senate, determine the allocation of all funds at the disposal of the univ. and represent the univ. in all negotiations for obtaining grants from public bodies. Senate determine the conditions on which academic distinctions are awarded and are the supreme governing and exec. body of the univ. in all academic matters. The central activities of the univ. controlled by senate and court incl. all degree exams. and a no. of specialized activities such as the appts. bd., publications bd., sch. exams bd. and the inst. of educn.

The divisions control admission to courses and all teaching. The chancels are the governing and exec. bodies of the divisions and are advised on academic matters by the academic bds.

For the divisions and affiliated colls., see below and p. 981.

**INCOME** (1960-61) £3,711,954, incl. recurrent Treasury grant allocated to the divisions (Durham division, £484,339; Newcastle division, £1,630,635).

### GENERAL INFORMATION

For a note on the plan for separate univs. in Durham and Newcastle, see p. 982

The univ. was founded in Durham in 1832 after a abortive attempts in earlier centuries. Halls of residence were opened and were later recog. as constituent colls. at various times during the course of the last 100 yrs. Women have been admitted to Durham since 1896 and non-collegiate students since 1871. Until 1946 all Durham Colls.' students lived in coll., but post-war expansion has made this impossible, and approx. one-fifth of the total no live in licensed lodgings as members of St Catharine's Soc. (men) or St Aidan's Coll. (women). Teaching is organized centrally, and all colls. and socs take students for all courses. St. Chad's and St. John's Colls. are also recog. theol. colls. of the Church of England, and provide full postgrad. try for ordination candidates.

Various depts. of the division are now housed in different parts of the city, and a plan showing their position is pubd. in the *Durham Colleges Handbook*.

INCOME (1960-61) £562,000.

## GENERAL INFORMATION

For a note on the plan for separate notes in Durham and Newcastle, see p. 982

The Newcastle upon Tyne Sch. of Med. & Surg. was founded in 1834, became associated with the Univ. of Durham in 1852 and adopted the title of Univ. of Durham Coll. of Med. in 1870. Armstrong Coll., Newcastle upon Tyne, so named in 1904, was founded in 1871 as the Univ. of Durham Coll. of Physical Sci. In 1937 the two colls. were merged to form King's Coll., Newcastle upon Tyne, in the Univ. of Durham. The univ. court has decided to promote legislation to amend existing Univ. of Durham acts, so as to separate King's College, Newcastle, from the Univ. of Durham and to establish it as an independent univ. It is expected that this legislation will take place during 1963-64.

Income (1960-61) £2,156,947.

DEVELOPMENT OF COLLEGE AREA. Devel. is taking place on a site not far from the city centre, around the original bldgs. of Armstrong Coll. New bldgs. completed since the war include chem. block, Stephenson bldg. (various engn. depts. and maths.), civil engn. bldg., a new arts block, an extension to the chem. block, an extension to library, extension to halls of residence and a new phys. bldg. Work has begun on new bldgs. to accomm. depts. of agric., chem., engn., electr. engn. and maths. Extensions to the students' union are expected to be completed by 1963.

LOCATION OF DEPARTMENTS, etc., not in main college area. Cockle Park Exper. Sta. (agric.), Morpeth, Northumberland; Dove Marine Lab. (zool.), Cullercoats, Northumberland; dept. of educn., 11-13 Leazes Terrace, Newcastle upon Tyne, 1; Nafferton Farm, Stockfield, Northumberland; Sutherland Dental Sch., Northumberland Rd., Newcastle upon Tyne, 1; Close House Estate, Wylam, Northumberland.

LIBRARY, approx. 255,000 vols and approx. 65,000 pamphlets (incl. the med. libraries). There are also dept. libraries. Sp. collections: Heslop, Engl. dictionaries (277 vols.), Marx, philos., math. and general (3946 vols.), oriental, with sp. ref. to India (2762 vols., 2084 pamphlets); Gertrude Bell, oriental (1963 vols.); Robert White (c. 4000 vols.), Engl. and Scottish ballads, border hist.

MUSEUM OF ANTIQUITIES (in assocn. with Soc. of Antiquaries of Newcastle upon Tyne) houses collection of soc. and other exhibits. Opened Oct. 1939. Keeper & sec.: D. J. Smith, BA PhD, FSA.

DEPT. MUSEUMS. Asst., pathol., zool., geol., mineral, chem., mining, anthropol., Roman-British archaeol. Technol. specimens.

LABORATORIES with sp. facilities for res. in mech., marine, civil, electr. and chem. engn.

naval archit., mining and metall.; in chem., phys., geol., bot. and zool. (incl. marine biol. at Dove marine lab.), and in agric. (incl. agric. engin.)

The agric. dept. manages the coll. farm at Nafferton and the coll. exper. sta. at Cockle Park; it also has the use of other country and crown estates for teaching, res. and demonstration purposes.

**COMPETING LABORATORY.** Housed in Newcastle upon Tyne, with a Ferranti Pegasus electronic digital computing machine ('Ferdinand'). The lab. works in close contact with depts. in both divs. and is available for use by interests outside the Univ.

For staff, see p. 993.

#### ADMISSIONS. See Appendix III.

There are reduced requirements for admission to study for the univ. depts. in econ. studies, pub. admin., for the univ. cert. in soc. studies, and for the coll. certs. in archit., fine art, town planning and appl. sci.

Candidates for admission to the cert. in soc. studies course should be over 20.

Inquiries concerning courses should be addressed to the Registrar, King's Coll., Newcastle upon Tyne, 1, students wishing to read med. should write to the Asst. Registrar, the Med. ## GENERAL INFORMATION

The first serious proposal that there should be a univ at Norwich was made in 1910. Further attempts to found a univ. were made after both world wars but they failed owing to lack of adequate support. The proposal was revived in 1958 and at the beginning of 1959 a promotion citée was formed representing a wide range of interests in Norfolk and Suffolk. An applicn. was made to the Univ. Grants Citée and in April 1960 the estab. of the univ. was officially approved. An academic planning bd for the univ was appd. in July 1960 under the chairmanship of Dr C. H. Wilson.

**CONSTITUTION** A petition for a royal charter of incorporation will be presented in 1962-63. The univ will award its own degrees from the start.

**INCOME** The county authorities of Norfolk, E and W Suffolk, and Huntingdonshire, to-

gether with the councils of Norwich, Ipswich, Yarmouth and Lowestoft, have together contributed an annual sum of about £50,000. The Isle of Ely has also made a contribution. A public appeal was launched in May 1962 with a target of £1½ million.

**DEANS** Arts studies are organized into schs, e.g. Engl. studies, European studies, social studies, and other schs. will be estab. in due course. Each sch is presided over by a dean: Engl. studies, Prof. I. P. Watt, soc studies, Prof. C. R. Ross. In the area the organization will be similar: bus studies, Prof. T. A. Bennet-Clark, chem. sci., Prof. A. R. Katritzky.

**SITE AND BUILDINGS.** All the permanent bldgs. will be erected on the univ site at Earlham, about a mile from Norwich city centre. The site totals 165 acres and was given by the Norwich corporation as a free gift. The first bldg. phase will

commence during 1963, teaching during 1963-64 being carried out in Earlham Hall, leased to the Univ. by the corporation, and in temp. premises.

**ADMISSION.** See Appendix III.

**FIRST DEGREE.** Arts courses will be of 3 yrs' duration, leading to an honours degree of BA. There will be schs. of Engl. studies, European studies and social studies, and for the first yr. courses in all schs. will be designed broadly, narrowing to greater specialization in yrs. 2 and 3. Studies will be as closely integrated as possible. In 1963-64, only a course in the sch. of Engl. studies will be

offered. BSc degree studies will incl. biol., chem., maths. and phys., and will be of 3 yrs' duration. In 1963-64, only a course in the sch. of biol. scis. will be available.

**HIGHER DEGREE.** 4th-yr. course leading to MA will be available for those students who show special promise. Candidates for PhD can be accepted, the normal period of study being 3 yrs.

**STUDENTS.** The first undergrads. will be admitted in Oct. 1963 to the schs. of Engl. studies and biol. scis.

## GENERAL INFORMATION

The Univ. of Exeter had its origin in the local demand for a centre for higher education in the S.W. of England in the yrs. following the great exhibition of 1851. The successful establishment of a sch. of art in 1855 was followed by the erection in 1865 of a bldg. to house a county museum, library and sch. of art as a memorial to the Prince Consort. Univ. extension lectures were organized in this bldg., and candidates prepared for South Kensington sci. and arts exams. In 1893 classes were extended and Exeter Tech. and Univ. Extension Coll. was established, becoming in 1899 the Royal Albert Memorial Coll. The preparation of students for London Univ. external degrees began in 1901. In 1912 the coll. was reconstituted as the Univ. Coll. of the South West of England, and received its first Treasury grant as a recog. univ. main. The residential nature of the present univ. was early established, and there are now 9 halls of residence. In 1955 a royal charter founding the Univ. of Exeter empowered the univ. to incorporate the univ. coll.

Exeter (pop. 50,000) is situated on the river Exe 10 miles from the S. Devon coast, near several holiday resorts. A cathedral city, it is also the admin. centre of Devon county, and a market town.

CONSTITUTION. The supreme governing body of the univ. is the court, comprising some 230 reps. of local authorities and organs, learned bodies, benefactors and local schs., the officers, officials and reps. of staff and grads. The court meets annually to receive reports of council and senate, pass the audited statement of accounts, appoint univ. officers, and amend or repeal statutes. The chief exec. body is the council, whose members incl. the officers of the univ., reps. of court, senate, convocation and local authorities. Academic matters are controlled by the senate, which comprises the profs. and hds. of all teaching depts. and 6 reps. of the non-pro-

fessional staff. The hds. of the 4 facs., under the chairmanship of their deans, are responsible to the senate for teaching and exams within the facs. The deans, elected by the hds. of facs., hold office for periods of 1 to 4 yrs. The chancellor, as chief officer of the univ., presides over court and council. In her absence, a pro-chancellor acts as chairman of those bodies. The vice-chancellor, the chief academic officer, is ex officio chairman of senate. The registered grads. of the univ. form convocation, which elects reps. to serve on court and council, and meets annually to discuss and comment on any matters concerning the univ.

INCOME (1960-61) £586,493 (Treasury grant, 74.8 per cent., grants from local authorities, 5.5 per cent., fees, 13.6 per cent., misc., 6.1 per cent.).

FACULTIES AND DEANS (1962-63) : Arts, Prof. F. W. Clayton (classics), law, Prof. C. F. Parker, rev., Prof. D. Rees (pure maths.), soc. studies, Prof. A. Davies (geog.).

UNIVERSITY BUILDINGS. Accommodation was originally provided in extensions of the Royal Albert Memorial Bldg. in Queen St. In 1911 the univ. was moved to a new bldg. in Gandy St., which is now occupied by the fac. of law, the depts. of extra-mural studies and of psychol. and the inst. of educn. In 1924 the Streatsham estate was acquired, partly by gift of W. H. Reed, former mayor of Exeter. To this site, which now covers 270 acres on the N. side of the city, the univ. is being gradually transferred. Bldgs. already erected incl. the Washington Singer labs. (1931), the Roberough library (1940), the Hatherly hol. labs. (1952), the May Harris chapel (1958) and the Queen's bldg. (1958) housing the facs. of arts and soc. studies and the depts. of geol. ### GENERAL INFORMATION

The Univ. Coll. of Hull, incorporated in 1927  
and opened in 1928, was founded through the  
generosity of the Rt. Hon. Thomas Robinson  
Perens, High Steward of Hull and a leading in-  
dustrialist in the city, who in 1925 donated  
£250,000 to endow a univ. coll. This was  
followed by grants from the corp. of Kingston  
upon Hull who gave £150,000 towards the cost  
of bldgs. and equipment and also an annual grant  
towards maintenance; and from another in-  
dustrialist, Mr. G. F. Grant, who donated  
£100,000. In 1945 it was recognized by the  
Univ. Grants Ctee. for state grants and in 1954

was merged in the Univ. of Hull on the grant of a  
royal charter.

CONSTITUTION The supreme governing body  
of the univ. is the court, presided over by the  
chancellor and consisting of about 280 members  
rep. of educn. bodies, local authorities, parlia-  
ment, benefactors, churches, learned socs., pro-  
fessional bodies, comm. and industry. The  
executive body is the council, which consists of  
academic and lay members under the chairman-  
ship of one of the pro-chancellors. The academic  
authority is the senate, presided over by the vice-

chancellor, and consisting of all profs and hds of depts. of the univ. and 4 elected members of the non-professional teaching staff. The fac. hds are responsible under the senate for the teaching and exams. within the facs

**INCOME (1961-62)** Total income, £755,360 (Treasury grant, 76 1/2 per cent; local authorities' grants, 2 0 per cent; fees, 12 3 per cent; endowments, 5 5 per cent; other sources, 3 2 per cent)

**FACULTIES AND DEANS (1962-63).** Arts, Prof. G. Rees (Romance langs.); sci., Prof. N. F. Robertson (bot.); soc. sci. & law, Prof. J. S. G. Wilson (econ. & comm.)

**UNIVERSITY PRECINCT** The main site of the univ. is in Cottingham Rd., about 2 1/2 miles from the centre of the city, and includes teaching accomm. for all depts, except educ., maths, pol. studies, theol., German and adult educ., which occupy temporarily houses adjacent to the main site. The original bldgs for arts and sci. were erected about 1928. Permanent bldgs erected since the war include a chem. block, students' union and refectory, boiler house, changing rooms, library, health centre, extensions to halls of residence, and a new hall of residence completed in 1957. Extensions for chem., a new bldg for bot. and zool., a new bldg for phys., and a new hall of residence for grads. and sr. students are now in hand. The univ. has ample space on its present sites for all foreseeable development in teaching and res. accomm. The univ. halls of residence are all situated in the village of Cottingham, some 2-3 miles from the univ. The univ. coll. was developed on a fully residential basis, and although this is no longer possible with increasing nos. in the univ., it is hoped to continue to develop as a residential univ. in the future. The sites in Cottingham have ample space for bldg. addnl. halls, and new halls and extensions to the present halls are planned in the next few yrs. Future plans on the main site include an extension to the students' union and refectory bldg., an arts bldg., a concert hall, a bldg. for appl. sci. and a sports centre.

**LIBRARY.** Over 150,000 vols.; includes material for advanced res. More than 1700 periodicals and annuals currently taken.

**INSTITUTE OF EDUCATION** (see also 'Teaching Staff,' above) *Continuant call.* Univ. dept. of educn. (dir. F. W. Lord, MSc PhD Lond.), Endsleigh Trg. Coll., Hull (principal: Mary Guy, MA Oxon.), Kingston upon Hull Trg. Coll. (principal: C. Bibby, MA Camb., MSc Lit., PhD Lond.). The inst., inaugurated in 1948, was founded to establish closer relationships with instns. in Hull and the neighbouring area specifically concerned with the trg. of teachers. Students of the inst. prepare for the grad. cert. in educn. or the cert. in educn. Other major activities of the inst. are the organization and provision of refresher and advanced courses for practising teachers, and the planning of educn. investigation and res. The inst. bldg. contains a common room, an exhibition room and a library of 24,000 books. Annual journal *Studies in Education*.

**ADULT EDUCATION** (see also 'Teaching Staff,' above) The dept. of adult educn. provides courses in a wide range of non-vocational subjs. for adults in Hull and the B. Riding, pts. of the N. Riding and Lincolnshire (Lincs.). It also arranges short residential courses throughout the yr. for members of H.M. forces. The panel of external lectrs. includes members of the univ. staff and other recognized teachers.

**SCHOLARSHIPS AND EXHIBITIONS.** The scholrs. exam. has been discontinued.

**POSTGRADUATE AWARDS** open to grads. of other univs.: see p. 910.

**APPOINTMENTS BOARD.** The bd. advises students on the choice of careers and assists them

in obtaining appointments on the completion of their courses.

**RESIDENCE** (For wardens, see 'Admin. and Other Staff,' above) All full-time students must ordinarily live in one of the halls of residence or in approved lodgings unless living at home or with relatives. Halls for women—Clemenson Hall, Cottingham, Yorks., 130 places (tel. Cottingham 47326); Thwait Hall, Cottingham, Yorks., 171 places (tel. Cottingham 47410). For men—Ferens Hall (and hatted annex), Harland Way, Cottingham, Yorks., 223 places (tel. Cottingham 47396), Needler Hall, Cottingham, Yorks., 68 places (tel. Cottingham 47181). Fees: women, £146; men, £151, reduction of £6 for shared rooms.

**UNIVERSITY AIR SQUADRON.** The squadron, a regular unit of the R.A.F., is affiliated to the univ., membership is open to students who expect to be resident at univ. for a min. of a yr., and affords an opportunity for pilot and officer training at the squadron's airfield at Brough.

**UNIVERSITY HEALTH SERVICE.** The univ. has a student health service under a full-time med. officer. The service covers compulsory med. examination for new students, emergency attention as necessary, annual X-ray exam., etc. A new health centre near the main site was opened in 1961. It includes a sick-bay with 18-20 beds available for students in hall or lodgings.

**STUDENTS' UNION.** The students' union is the official orgn. to which all full-time students belong. Through cttcs. it arranges soc. and athletic events. The students' union bldg. contains common rooms, offices, and a refectory adjoining. The union co-operates with the univ. convocation in arranging an annual meeting.

## GENERAL INFORMATION

The Univ. Coll. of North Staffordshire was founded by royal charter in Aug. 1949 and was opened in Oct. 1950. The coll. was succeeded by the Univ. of Keele, which was founded by royal charter in Jan. 1962. Situated at Keele Hall, where there is an estate of 640 acres, it is about 2 miles west of Newcastle under Lyme.

**CONSTITUTION.** Under the charter the governing body is the univ. court of governors. The council is responsible to the court for the management of the univ.'s affairs. The senate, an academic body consisting entirely of members of staff, controls, under the council, the academic affairs of the univ.

**INCOME (1962-63)** £430,000 (endowments, etc., 8.7 per cent.; fees, 9.1 per cent.; govt., 71.7 per cent.; local authorities, 10.1 per cent.; other income, 0.4 per cent.).

**BOARDS OF STUDIES (1962-63)** *Humanities:* chairman, Prof. K. Brooke (med. langs.); sec., chairman, Dr. D. E. Davies (phys.); *see also* chairman, Prof. A. E. Teale (metal & pol. physics).

**LIBRARY** 200,000 vols.

**LABORATORIES** Biol., chem., geog., geol., phys.

**ADMISSION.** *See* Appendix III.

**FIRST DEGREE AND DIPLOMA COURSES.** The 1st yr. of the 4-yr. course consists of a compulsory course of lectures identical for all students but with tutorial work adjusted to individual needs. This course is concerned with the heritage of civilization, present-day problems and the methods and influence of the experimental sciences. During the last 3 yrs., students must select not less than 4 subs., which must include at least 1 from the humanities and soc. scs., and at least 1 from the scs., 2 of these 4 subs. must be studied at principal level throughout the whole of

the 3 yrs. Subs. taken at subsl. level are studied for 1 yr. The BA degree is awarded with honours where sufficient merit is shown. During these last 3 yrs., an educational dipl. course may be taken concurrently with the BA studies. This dipl. is recognized by the Ministry of Educn. A social studies dipl. may also be taken with the normal BA studies.

**Transfer courses** are provided in the 1st yr. of the 4-yr. degree course to enable students with no sci. qualif. at G.C.E. advanced level to offer at least 1 sci. subj. as a principal subj.

**HIGHER DEGREES.** MA, MSc—not less than 1 yr. full-time or 6 terms pt.-time. PhD—not less than 2 yrs. full-time or 12 terms pt.-time. DLitt, DSc—on public contributions to knowledge.

**EXTERNAL DEGREES** are not awarded.

**AFFILIATIONS.** The coll. has reciprocal arrangements with both Swarthmore Coll., Pennsylvania, and Reed Coll., Oregon, by which one student is exchanged annually with each coll.

**FEES.** *Inclusive annual fee* (covering matric., registration, students' union, tuition, exam. and graduation fees), £75. *Residential fees*, £162 per session of 30 wks.

**ACADEMIC YEAR.** Oct. to June: 3 terms of 10 wks. each.

**POSTGRADUATE AWARDS** open to grads. of other univs. *see p. 950.*

**APPOINTMENTS BOARD.** (For appts. officer, *see* 'Admin. and Other Staff', above). The functions of the bd. are to provide information and advice on careers and to assist grads. of the univ. to obtain suitable employment.

**ASSOCIATION OF PAST STUDENTS.** The Keele Soc., an assoc. of past students and other members of the univ.

**RESIDENCE** (For wardens, see 'Admin. and Other Staff', above) The Univ. is entirely residential and only under exceptional circumstances is permission given for residence outside. There are at present 2 halls of residence, Lindsay Hall (tel. Keele Park 358 (Miss Richards)) for women students and Horwood Hall (tel. Keele Park 303 (Mr. Rolo, the Hawthornes), 384 (Mr. Rayne, Home Farm Residences) and 219 (Mr. Day)) for men students. *Address* (of both halls) Univ. of Keele, Keele, Staffs.

**STAFF RESIDENCES** It is intended to build residences for all teaching and some other staff. A vice-chancellor's residence, 65 new houses,

15 bungalows, 4 lodges and 19 staff flats are available.

**STUDENT HEALTH SERVICE** All students examined after admission by coll. med. officer. A bldg. is set apart as a sick bay. Resident matron-nurse.

**STUDENTS' UNION** Sep. bldg. available for students' union purposes. All students are members, the annual fee of £3 being included in the composite fee (see above). 26 acres of playing fields laid out within the estate.

**PUBLICATIONS** *Prospectus* (annual), *Calendar* (annual).

## GENERAL INFORMATION

The Leeds Sch. of Medicine, founded in 1831, and the Yorkshire Coll. of Science, founded in 1874, were united in 1884. The coll. formed part of the Victoria Univ., Manchester, from 1887 to 1904, when a univ. was established in the city of Leeds by royal charter.

The univ. has for many years maintained the balance of its facs, arts being at present the largest numerically. Through close connexions with and generously sustained help from industry, however, special strengths in pure and appl. scs. have been developed. In recent yrs., the use of special supplementary Treasury grants for the devel. of higher technol. educn. has made possible further major advances in these fields. Recent devels. and a high energy radiation lab. at Cookridge and a fully staffed and equipped electronic computing lab.

**CONSTITUTION.** The court is the governing body of the univ. and is empowered to regulate and determine all univ. matters in the ways required by the charter and statutes. It includes in its membership the council, reps. of the senate, teaching staff, convocation, professl. bodies, local authorities, other univs., colls. and schs. The council also has a widely representative membership and is the exec. body of the univ., exercising such powers as are granted to it by the court and by statute, and the instn. after a report by senate, of teaching officers, and management of the financial affairs of the univ. Subject to statutes and ordinances and to review by the court, the senate controls and generally regulates instructn. and educn. The chancellor is the hd and chief officer of the univ. and is pres. of court and council. In her absence, the pro-chancellor presides at meetings of these 2 bodies; the vice-chancellor is ex-officio chairman of senate. The chancellor, pro-chancellor and vice-chancellor are elected by the court on the nomination of council.

**INCOME (1960-61).** Total income, £2,837,198 (parliamentary grants, 74 per cent.; local authorities' grants, 2 per cent.; fees, 10 per cent.; interest on investments, 1 per cent.; other sources, 13 per cent.)

**FACULTIES AND DEANS.** *Arts*, Prof. G. T. Clapton (French), *econ. & soc. studies*, W. T. Newlyn (econ.), *law*, Prof. P. S. James; *med.*, A. B. Pann (surg.); *sci.*, Dr. D. Bann (phys. chem.), *technol.*, Dr. J. E. Garside (fuel technol.).

## GENERAL INFORMATION

The Univ. Coll. of Leicester was founded in 1918. The original site and bldgs., which date from 1837, were given by the late T. Fielding Johnson in 1919, and a substantial endowment fund was subscribed by leading citizens. In 1945 the coll. was recognized by the Univ. Grants Cttee. and placed on the list of univ. instns. receiving grants from the Treasury; in 1950 it received a royal charter of incorporation as a univ. coll. The coll. was incorporated in the Univ. of Leicester, constituted by royal charter, in 1957.

CONSTITUTION. Under the charter the governing body is the univ. court. The council is responsible to the court for the management of the whole of the univ.'s affairs. The senate, an academic body consisting entirely of members of staff, controls, under the council, the academic affairs of the univ. The bds. of the facs are responsible to senate for the work of the respective facs. Convocation consists of all grads. of the univ., together with the officers and academic staff. It appoints reps. on court, and may communicate with court, council or senate on any matter affecting the univ.

INCOME (1961-62) £576,000 (principal sources: fees, 13 per cent., govt. grants, 78 per cent.).

FACULTIES AND DEANS (1962-63). Arts, Prof. P. H. Powell (German), sci., Prof. T. G. Tutin (bot.), soc. scs., Prof. I. Neustadt (sociol.).

UNIVERSITY RESIDENCE. The main univ. bldgs. are in University Rd., about 1 mi. from the city centre. The original bldg. has been considerably altered and extended; new bldgs. were opened for loc. in 1951, refectory and students' union in 1958, chem. in 1960, phys. in 1961, engin. and adult educ. in 1962. New bldgs. for maths, geog. and geol. are under constr. Vaughan Coll. (High St.) is the main centre in Leicester for the adult educ. dept. Halls of residence are situated at Oadby (for men) and at Knighton (for women); a new hall is under constr. The bot. gdns. are at Beaumont Hall, Stoughton Drive South.

LIBRARY. 142,000 vols., sp. collections: the Robyns collection of bibles, the works of Bunyan

and early printed books; the Hutton topographical library; transport hist. A large extension to the library was completed in 1954.

SCHOOL OF EDUCATION. The offices are at 152 Upper New Walk, Leicester (tel. Leicester 24710), and there is a centre for teachers' services at 328 London Rd., Leicester (tel. Leicester 78133), where there are lecture rooms, reading rooms, library (21,000 vols.) and an information service for teachers. The school is an area training organization for the trg. of teachers, for which purpose it includes Leicester Coll. of Art; City of Leicester Trg. Coll.; Leicester Domestic Science Trg. Coll.

## GENERAL INFORMATION

Univ. Coll., Liverpool, founded by royal charter 1881, was admitted into the Victoria Univ. Manchester, in 1882. In 1903 the Univ. of Liverpool was establd. by royal charter and the coll. was absorbed in it. Expansion was rapid, both in bldgs. and in nos. of students. To the older degrees in arts, sci., med. and law, degrees in archit., dent. surg. and engin. were soon added. A sch. of vet. med. was establd. in 1904, affiliated to the Royal Coll. of Vet. Surgeons, and in 1914 degrees in vet. sci. were establd. Devel. was halted by the outbreak of the first world war, towards the prosecution of which the univ. made notable contributions in the fields of sci. and med. Between 1918 and 1939 the nos. of students and staff increased steadily, and despite financial stringency, devel. included the bldg. of a geol. lab., an animal hosp., the extension to the students' union, a new lib. and a hall of residence for men students. From 1945 to the present day the univ. has been engaged in an unprecedented expansion and, in addn. to other bldgs., new chem. labs., a new med. sch., phys. bldg., civil engin. and bldg. sci. lab., a hall of residence (1

for men, 1 for women) and 3 annexes, maths. and oceanography bldg., and vet. sci. bldg. have been erected.

Liverpool (pop. 747,490) is one of the greatest world trading centres and principal U.K. port for Atlantic trade.

CONSTITUTION. The supreme governing body of the univ. is the court. It incl. among its members reps. of educn., profess. and municipal interests, in addn. to members of council and senate, and reps. of convocation and non-professional teaching staff. It meets annually to receive a report on the work on the univ. and accounts.

The council is the exec. body of the univ. and is composed of (i) ex-officio members, namely the chancellor, pro-chancellor elected by the court, vice-chancellor, treasurer, dep. treasurer and pro-vice-chancellors; (ii) lay members representing court and local authorities; (iii) academic members apptd. by senate, bds. of facs. and non-professional staff; (iv) reps. of convocation. The duties of the council include responsibility for

management and admin. of property and finances of the univ., drawing of statutes, ordinances and regis., and the appt. of the vice-chancellor and all members of teaching and admin. staff.

The senate, which incl. among its members the vice-chancellor, pro-vice-chancellors, all profs., deans of facs., the librarian and at least 6 members of the non-professional teaching staff, is responsible for recruiting and co-ordinating the work of the facs., submitting recommendations for filling of chairs and other teaching posts, making regis. governing courses of study and exams., and directing teaching and discipline of students and encouraging res.

Each of the facs. of the univ. is administered by a bd. which is responsible to the senate for teaching and courses of study within the fac concerned, for submitting recommendations to the senate for the appt. of academic staff, and for nomination of examiners. Bds. of facs. may constitute bds. of studies as necessary.

INCOME. (yr. ended July 31, 1961). Total income, £2,622,300 (parliamentary grants, 74.3 per cent.; local authorities, 2 per cent.; investment interest, 5.9 per cent.; students' fees, 9.8 per cent.; other sources, 2.0 per cent.)

## SCHOOLS AND INSTITUTIONS

Univ. teaching is carried on in: (1) univ. insts. of a specialized kind, mostly for postgrad. work; (2) 'schools of the univ.'; (3) other insts. at which there are 'recognized teachers of the univ.'

For the convenience of readers these have been

divided in the following reference list into university insts.; non-med. schools, undergrad. med. and dent. schools; postgrad. med. schools; insts. with recognized teachers.

For a more precise differentiation see the University of London Calendar.

**GENERAL INFORMATION**

*The universities wish it to be clearly understood that they can accept no responsibility for any information concerning exams or procedure except that contained in the latest edition of their own official regis., which can always be obtained on application at the univ. offices, Senate House, London, W.C.2.*

The univ. was constituted by royal charter in 1836 as a body empowered to grant degrees to students of approved institutions. After exam. and, until 1900, its work was confined to the examination of students. The system whereby entrance to its exams. was restricted to students of certain

\* Not in receipt of U.G.C. grants

affiliated colls. was abolished, except for exams in med., in 1858. In 1878 its degrees were thrown open to women, London being the first of the univs. of Gr. Britain to adopt this policy.

In 1900 the univ. was reconstituted so as to strengthen the ties between it and the instns. engaged in higher educn. in the London area. The senate was empowered to admit as schools of the univ. instns. situated within the admin. county of London and not carried on for the private gain or profit of the owners, which provide educn. of univ. standard, and was required to obtain reports at prescribed intervals on the efficiency of such schs. A sp. form of recognition could be given to an instn. within the same area founded for res. or the cultivation of any sp. branch of sci. or learning, and the Lister Inst. of Prev. Med. has been admitted in this category.

The two original colls. of the univ. have been incorporated in it, Univ. Coll. in 1907 and King's Coll. in 1910, by special acts of parliament.

There are now 14 non-med. and 15 med. schs. (incl. 2 postgrad.) in receipt of U.G.C. grants, and 4 schs. not in receipt of U.G.C. grants. In addition there are 10 univ. institutes. There are 17 non-univ. instns. having some recognized teachers.

**CONSTITUTION.** The univ. is governed under statutes made under the Univ. of London Act, 1926.

The court has the custody, control and disposition of all the property, funds and investments of the univ. and controls its finances. It comprises the chancellor, vice-chancellor, chairman of convocation and 14 other members, of whom 6 are apptd. by the senate, 4 by H.M. in Council and 3 by local authorities, 1 member being co-opted. One of its most important duties is to apply for the grants for univ. purposes to the Univ. Grants Comm., the London County Council, county councils and county borough councils of the home counties, and other public bodies, and to distribute the sums so received between univ. instns. and those schs. which receive financial aid from the univ.

The court is also responsible for the devel. of the univ. precinct (see below).

The senate is the supreme governing and executive body of the univ. in all academic matters. It is composed of reps. of the facs and of convocation, the principal, and certain hds. of schs. All appointed teachers at schs. of the univ. are apptd. by the senate, which also has power to recognize as teachers of the univ. members of the teaching staff of certain approved public educn. instns., whether schs. of the univ. or not.

Convocation consists of grads. of the univ. who have attained the age of 21 yrs., together with members of the 5 standing cities of the senate, who have paid the prescribed fees. It elects the chancellor, and 18 members of the senate in addition to the chairman of convocation, who is *ex officio* a member of the senate and court. Convocation may discuss any matter relating to the univ. and declare its opinion thereon to the court or senate.

**INCOME (1950-51).** The total income for recurrent purposes of the univ., incl. all its schs. and instns., was £19,164,481 (Treasury grants, 71.9 per cent.; grants from other govt. depts., 0.1 per cent.; grants in aid from local authorities, 2.2 per cent.; fees (incl. Ministry of Educn. tuition grants for teachers in trg.), 8.5 per cent.; endowments for both particular and general purposes, 1.5 per cent.; donations and subs., 0.5 per cent.; grants for res. and income from res. contracts, 10.1 per cent.; contributions for services rendered, 3.4 per cent.; other sources, 1.8 per cent.).

**FACULTIES AND DEANS.** *Arts*, Prof. J. S. Spink (Bedford Coll.), *econ. (incl. econ. of industry) and pol. sci.*, H. Tout (Univ. Coll.); *engn.*, Prof. A. D. Young (Queen Mary Coll.); *lawn*, Prof. R. Powell (Univ. Coll.); *med.*, Dr. H. B. May (London Hosp. Med. Coll.); *music*, Dr. F. T. Durrant (Royal Acad. of Music); *sci.*, Prof. J. A. B. Gray (Univ. Coll.); *theol.*, Rev. G. F. Nuttall (New Coll.).

**UNIVERSITY PRECINCT.** The administration of the univ. is centred at the Senate House, W.C.1, which provides accomm. for offices and the univ. library, as well as for the Insts. of Educn., Historical Research and Slavonic Studies. The bldg., designed by Charles Holden and opened in 1936, was erected on part of the Bloomsbury site, an area of 11½ acres purchased in 1927. A further 12½ acres were purchased from the Bedford estate in 1951. Substantial purchases of property have also been made on behalf of Univ. Coll., which now owns the greater part of the rectangle in which it is situated. This rectangle, together with the original Bloomsbury site and the areas purchased from the Bedford estate since the war, provides a compact area between the British Museum and the Euston Rd. for development for univ. purposes and a comprehensive outline development plan for the area has been prepared by Prof. Sir Leslie Martin.

The **UNIVERSITY LIBRARY** is a general library incl. all subjs. studied in the univ., but it is specially strong in the humanities, particularly in Engl. lit., incl. large Shakespeare collection. It contains about 750,000 vols. and 4000 current periodicals, and provides reading accomm. for 450 readers and an extensive loan service for members of the univ. Among its sp. collections are the Goldsmiths' libr. of econ. lit. (c. 70,000 vols. & pamphlets); the Durning-Lawrence libr., containing an important collection of books by and about Sir Francis Bacon, and a good working libr. on Shakespeare including the four folios; the De Morgan libr. of math. and astronomical books; the Quake memorial libr. of books on educn., especially rich in old text-books for the school-room; the Harry Price libr. of magical lit.; the Elzevir-Philips collection of Spanish books and works on the history of Spain; the Sterling libr. of rare Engl. books, the Austin Dobson collection; and the Carston shorthand libr.

The music libr. contains books and periodicals on music, music scores and gramophone records.

The photographic dept. is equipped to produce photographs, microfilms, enlargements, xerox reflex and duzo copies, and work is undertaken both for insts. and members of the univ. and also for those unconnected with the univ.

Each sch. and institution of the univ. has its own library, and some particulars of these will be found in the respective Yearbook entries below. For further details of the libraries of the univ., see R. Irwin & R. Staveley: *The Libraries of London*, 1968; and L. M. Harold: *The Libraries of Greater London*, 1951.

University library depository provides facilities for co-operative storage of books which libraries of the univ. are unable to house in their own bldgs. It came into use in May 1960 and the present bldg. accommodates about 250,000 vols. Address: Spring Rise, Egham, Surrey (tel. Egham 4560). Librarian-in-Charge: J. P. Mansbridge, BA.

**ADMISSION:** See Appendix III. Incoming students who are suitably qualified must apply to the sec. to the univ. entrance requirements dept., on form M (obtainable from the sec.), for a 'statement of eligibility'. The admission of students, provided they satisfy univ. entrance requirements, is entirely a matter for the individual schs. In all facs, except theol., med., laws and econ., fac. requirements must also be satisfied.

**First Degrees:** BD, BA, LLB, BMus, MB BS, BDS, BPharm, BVetMed, BSc, BSc(Agric), BSc(Hort), BSc(Household Science), BSc(Nutrition), BSc(Architecture), BSc(Eng), BSc(Econ), BSc(Soc), BSc(EstMan).

**Higher Degrees:** MTh, DD, MA, DLit, LL.M., LL.D., DMus, MD, MS, MDS, MPharm, MVetMed, MSc, DSc, MSc(Eng), DSc(Eng), MSc(Econ), MSc(EstMan), DSc(Econ), PhD.

**EXTERNAL STUDENTS** are permitted to proceed to the degrees of BD, BA, LLB, BMus and BSc (in the facs of art. and econ.) without restriction on the nature of the course of study, which may be pursued in a teaching instn. in London (not forming part of the Univ. of London); in a teaching instn. situated elsewhere in the United Kingdom or overseas, or by private study. Exams. are held each yr. at centres located in many parts of the U.K. and in many countries overseas.

External students are also permitted to proceed to the degrees of MB BS, BDS, BPharm and BSc (in the fac. of engin.) provided that an approved course of study has been completed in a teaching instn. which has been recognized by the Univ. of London for the purpose of these exams. (With very few exceptions, all such instns. are situated in the U.K.)

External students who wish to proceed to the degree of BA or BSc with social. as the principal subj. are normally required to pursue their studies in the U.K. and to attend course at approved instns., but exceptions may be made in sp. cases.

A student who wishes to proceed to the external higher degrees of MTh, MA, LL.M., MD, MS,

MDS, MPharm and MSc (in the facs of art., engin. and econ.) and/or to the external degree of PhD (in all facs.) must normally already possess an appropriate bachelor's degree of the Univ. of London.

The degrees of DD, DLit, LL.D., DMus and DSc (in the facs of sci., engin. and econ.) are not differentiated between internal and external students, but all candidates for these degrees are required to hold at least one degree of the Univ. of London in the appropriate fac.

All external students are required to register, and all must previously have introduced or must satisfy the general requirements of the univ. at the time of first registration and the course requirements prescribed before admission to the exams for the particular degree. Copies of all regns. may be obtained from the external registrar.

An **INTERNAL STUDENT**, before being allowed to enter as such for any exam., must, unless specially exempted, have attended courses in all the subjs. thereof. For a 1st degree in any fac. he must have completed an approved course of study extending over at least 3 yrs. which must, ordinarily, have been continuously pursued, but not necessarily all at one institution. As a general rule, honrs. may be taken at the final exams.

**DEGREE COURSES** \* for internal students are provided at the following instns:

degree extends over not less than 3 yrs.\* Before entry on a course of study for the final exam. for the BSc(Eng) degree or the BSc(Eng) degree in mining, internal and external candidates must pass at advanced level in pure maths. and appl. maths (or maths (pure and appl.)) and phys. and at ordinary level in chem. at a G.C.E. exam. or an approved equivalent, for the BSc(Eng) degree in chem. engin. and metall. chem. and phys. must be at advanced level but either pure or appl. maths., if taken as 2 subjs., may be at ordinary level. Candidates who have passed at advanced level in 3 of the 4 subjs. pure maths., appl. maths., phys. and chem., may be allowed to enter on the course and to complete the entrance qualifs. by passing at the appropriate level in the 4th subjs. before taking any part of the final exam.

The gen. internal, sp. and external final exams. in *engin. and metall.* and the external final exam. in *mining* are divided into 3 pts. The gen. internal and external final exams in *chem. engin.* are divided into 2 pts., pt. I being divided into 2 sections. There are two sp. exams. in *chem. engin.*, one divided into 2 pts., the other into 3 pts. There is a sp. exam. in *mining*. The sp. exams. are confined to internal students of certain schs. of the univ.

Internal candidates for the MSc(Eng) degree are required to have graduated as internal students in the Univ. of Lond. at least 1 yr (or in the case of other grads. at least 2 yrs.) before entry to the MSc(Eng) exam., but grads. of other univs. are admitted by statute from proceeding direct to higher degrees as external students. The exam. is by thesis or dissertation or by written papers and a report and there is an oral exam. The examiners may also require a written exam. in addition to a thesis or dissertation.

Internal and external candidates for the DSc(Eng) degree must have obtained in this univ. the BSc(Eng) degree, MSc(Eng) degree or PhD degree in the fac. of engin. The degree is awarded only for publd. work of a high standard such as would give the candidate an authoritative standing in his particular field of res.

**ECONOMICS First degree** The following are awarded: BSc(Econ). Normally 3 yrs. Prelim. qualifs.: candidates must have passed an inter., prelim. or first exam. or possess a G.C.E. with 3 subjs. at advanced level. The final exam. is in 2 pts. Under revised regns., pt. I covers 3 compulsory papers (econ., British govt. hist. [econ. hist. or pol. hist.]) and 2 alternative subjs. chosen from a list of 15. Pt. II consists of 8 papers as prescribed for each of 14 sp. subjs.

BSc(Soc). Normally 3 yrs. Prelim. qualifs.: Candidates must have passed an inter., prelim. or 1st exam. or possess a G.C.E. with 3 subjs. at advanced level. A candidate who has obtained a BA hon. degree in social, or BSc(Econ) with sp. subjs. social or soc. anthropol., will not be ad-

mitted. The final exam. consists of 9 papers from 2 groups. Candidates must also pass in econ. as a subsidiary subjs.

BSc(EstMan). Normally 3 yrs. 1st exam. in 4 subjs. No exemptions granted. Final exam. consists of 11 papers chosen from either the urban group or the rural group of subjs. Course work must be submitted for both exams.

**Higher degrees** The following are awarded: MSc(Econ), MSc(EstMan), PhD, DSc(Econ). Admission to master's degrees is normally 2 yrs. after passing the appropriate 1st degree. Candidates who have obtained the BSc(Econ) with 1st cl. and class (upper div.) hon. as internal students may be admitted after 1 yr. They will be required to take the MSc(Econ) by 4 written papers, and, at the discretion of the examiners, an oral exam. For the MSc(Econ) candidates are examined in 1 subjs. to be selected from a lengthy list (4 papers or a dissertation and a papers). The MSc(EstMan) exam. consists of 4 papers on a selected, approved general subjs. and a dissertation on an approved sp. subjs.

DSc(Econ) Candidates must hold the BSc(Econ) or MSc(Econ) or BSc(Soc) or BSc(EstMan) or BCom or MCom or PhD in the fac. of econ. and must submit publd. work.

**Diplomas** Postgrad. dipl. in pub. admin., normally 2 yrs., dipl. in soc. studies (external), normally 2 yrs., postgrad. dipl. in firm business admin., 1 yr.

**SCHEMES OF SPECIAL RELATION WITH UNIVERSITY COLLEGES OVERSEAS** These schemes originated in proposals made in the report of the Commission on Higher Education in the Colonies which was apptd. by the secretary of state in 1943, under the chairmanship of Mr Justice, later Lord, Asquith. The purpose of the schemes is to help univ. colls. during their transition to full univ. status, by enabling the colls. to enter their students for London degrees which are awarded as the result of special exams. The syllabuses of these exams. are adjusted to the geographical, linguistic and educat. conditions of the territory, but represent no relaxation in the standards of the univ.

Certain conditions are laid down limiting the admission of univ. colls. to the schemes. A coll. must satisfy the univ. that its staff, resources, equipment and machinery of govt. are appropriate to an instn. aspiring to univ. status, and in particular that it possesses an academic body charged with the duty of formulating academic policy. This policy must include the encouragement of the pursuit of a regular and liberal course of educn. and of a corporate life among its students, the promotion of res. on the part of staff and postgrad. students, and willingness to accept the responsibilities of intellectual leadership in the community it serves. The conditions for the admission of students must also be considered appropriate.

The main objects of these schemes of 'special

\* External students are required to pursue the course at an institution recognized for the purpose unless excused by reason of approved trg. and experience elsewhere.

relation' may be summarized as follows: (1) the establishment of direct and easy co-operation between the academic boards of the overseas colls and the univ.; (2) the institution of a regular system of consultation between the authorities of the univ. and the staffs of the colls on questions of syllabus and exam. requirements; (3) the promotion of personal contact between the examiners appointed by the univ. and the teachers in the colls; (4) the participation by members of the staff of the colls in the actual work of examining their own students; (5) the interchange of visits and the giving of assistance and advice by the univ. on such matters as the overseas colls may desire.

There are at present schemes with the Univ. Coll., Ibadan, in Nigeria; Makerere Coll. in Uganda, the Univ. Coll. of Rhodesia and Nyasaland (in respect of students who entered in 1961 and 1962) with the Royal College, Nairobi, in Kenya. The fee of law at the Univ. Coll., Dar es Salaam, is, for the purposes of the scheme of special relation with Makerere Coll., regarded as a fee of that coll. for a limited period, thus enabling students at Dar es Salaam to read for a London degree.

**POSTGRADUATE STUDY AND RESEARCH.** In most schs. of the univ. ap. arrangements are made for res. students, and the facilities offered are not restricted to internal grads. of the univ. External grads. and grads. of other approved univs. are allowed, under certain conditions, to enter as external students for the degree of bachelor or of PhD in the several facs., and for the degree of MTh, MA, LL.M., MSc or MSc(Eng.). Every candidate must submit evidence of graduation, etc., together with a cert. from the authorities of the sch. or institution of the univ. at which he proposes to study, stating that the student is, in their opinion, a fit person to undertake the proposed course of study and res., and that they are willing to supervise his work. An overseas student may himself submit an appln. on the prescribed form, and the univ. will, if so requested, advise on the selection of the sch. or institution at which, and teacher under whom, he should study. Applns. for such advice should be addressed to the academic registrar of the univ. Overseas students should apply for registration before coming to London, and their applns. should reach the univ. if possible 12 mos. before the commencement of their course, and at the latest by March 1, to enable them, should their applns. be successful, to enter upon their course of study in the following Oct., i.e. at the beginning of the session. Students whose applns. are approved are required to pursue a course extending over at least 2 yrs.

An internal student who is a candidate for the PhD degree must have graduated in the univ. or in another univ. An internal student is further required to pursue a course of study of not less than 2 yrs.' full-time, or 4 yrs.' pt.-time, training in res. and res. methods. Any grad. of the univ. may

become a candidate for the PhD degree in his first degree fac., as an external student on receiving the approval of the council for external students. It should be noted that only grads. of the Univ. of London may register as external students for a master's or PhD degree.

**FEES.** *Registration* (non-recurrent and incl. matric)—internal, normal 1st degree 3 gs., postgrad. 6 gs.; external: normal degree 5 gs., postgrad. 2 gs., advanced students 5 gs. *Exam. fees* (no graduation fees)—arts and sci., from £18 to £20; med., vet. med., and dent., from £33 to £47. Details of annual tuition fees are given in the sections relating to the schs., below.

**ACADEMIC YEAR** for univ. and inter-collegiate courses, 1963-64: Oct. 2-Dec. 11, Jan. 8-March 18; April 22-July 1.

Particulars of UNDERGRADUATE SCHOLARSHIPS, etc., awarded on the results of exams. held by the London Intercollegiate Scholips. Bd., may be obtained from the sec. of the bd., J. Rathborn, BA, Univ. of London, Senate House, W.C.1.

POSTGRADUATE AWARDS open to grads. of other univs., see p. 910.

**BOTANICAL SUPPLY UNIT,** Elm Lodge, Englefield Green, Surrey. The univ. botanical supply unit was establd. in 1950 to provide schs. and univ. of the univ. with bot. material. The grounds now cover an area of about 15 acres. The unit is able to produce a large variety of material in bulk for class purposes, and numerous specimen plants can be lent to schs. and univ. for class demonstration. It is also able to supply some types of material for res. Curator: J. I. H. Rees, BSc.

**COMPUTER UNIT.** The Univ. of London Computer Unit occupies premises in 44-45 Gordon Square, W.C.1, and has had the use of a Ferranti 'Mercury' computer since 1959. This machine is now housed in 5-9 University Street, whilst preparations are on hand to install a Ferranti 'Atlas' in Gordon Square. This much larger computer is expected to be in operation early in 1964. Dir. R. A. Buckingham, PhD.

**ADVISORY SERVICE FOR EXTERNAL STUDENTS.** Any external student who is duly registered for an external degree or dipl. and experiences any difficulty in connexion with the appropriate studies may apply to the external registrar for guidance. Such guidance may take the form of detailed schemes of study or personal discussion with an adviser.

The COMMERCE DEGREE BUREAU exists to help in their studies external (especially extra-London) students proposing to take the BSc(Econ) degree (for which postal courses of study may be provided), to provide a reference and lending library for students and generally to promote the value and usefulness of the degrees. The bureau is administered by a senate officer. Prospectus and enquiry forms obtainable on appln. to the sec.,

Commerce Degree Bureau, Senate House, W.C. 1  
Tel.: Museum 2843.

**ADVISER TO OVERSEAS STUDENTS.** Students from outside the British Isles may obtain general information, advice on personal problems and in emergencies, from the Univ. of London Adviser to Overseas Students, Univ. of London Union, Malet St., W.C.1. Tel.: Langham 5035.

Other hall of residence recognized by the senate: College Hall, Malet St., W.C.1, for 220 women students (fees, £132-68 and £148: 18. per session).

Residence is also provided at or in connexion with the Inst. of Educn., Imperial Coll., King's Coll., London Sch. of Econ., Queen Mary Coll., Univ. Coll. and Wye Coll.; Guy's, London, Middlesex, St. Bartholomew's, St. Mary's, St. Thomas's, Univ. Coll. Hosp. med. schs. and Westminster Med. Sch.; the theol. colls. and the women's colls. (see coll. entries). London House, Guilford St., W.C.1, provides accomm. for 275 Commonwealth men students, including some from the U.K.

**LODGINGS BUREAU,** Univ. of London Union, Malet St., W.C.1 (tel.: Museum 2818). Enquiries to be addressed to the lodgings officer.

**MILITARY EDUCATION.** War studies is one of the optional subj. for the final BA (general) for internal students only.

The Univ. of London contingent of the O.T.C., authorized by the Army Council in 1909, is open to internal students, both men and women. Its main purpose is to train students for commissioned service in the army. Information from the adjutant, Univ. of London contingent, O.T.C., Yeomanry House, Handel St., W.C.1 (tel.: Tottenham 3118).

**Air Squadron.** The Univ. of London air squadron was founded in 1935 by the Air Ministry with the assistance of the univ. authorities. Its main object is to promote a serious interest in flying and its allied subj. Applicants for member-

ship should be addressed to the sec., U of L. Air Squadron, 48 Princes Gdns., S.W.7 (tel.: Kensington 2433).

**UNIVERSITY UNION** (founded 1921), Malet St., W.C.1 (tel.: Langham 9551). Most of the schs. and colls. of the univ. also have their own uncos. The univ. athletic ground is at Mootspur Park, Surrey (tel.: Malden 0661), and the univ. boat-house at Hartington Rd., Chiswick (tel.: Chiswick 5562).

**EXTRA-MURAL STUDIES.** The area of operation of the council for extra-mural studies includes the counties of London, Middlesex and Surrey, S.-W. Essex and S. Hertfordshire, and the county boroughs of Croydon, E. Ham, W. Ham and Southend-on-Sea. The work is divided into 4 sections and the chief admin. officers of the dept. are: dir. of dept.—W. Bernheimer, MA Oxon.; dep. dir. (extension)—C. P. Thomas, BA Wales; dep. dir. (tutorial classes)—F. G. Brook, BSc (Econ) PhD; hd of vocational dipls. section—R. A. S. Knowles; hd of sp. courses section—Winifred Rambotham, MA.

(a) *Univ. Extension Courses* have been carried on since 1902 (prior to that, 1876-1902, by the London Sch. for the Extension of Univ. Teaching). The sess. and terminal courses provided cover various fields of knowledge—archaeol., hist., lit., econ., sociol., bibl. studies, internat. affairs, music, visual arts, geog., transport studies, phys. and biol. sci., and allied subj. Short courses of a pioneer or illustrative kind are also arranged. An exam. is held, where reqd., at the end of a sess. course. Continuous study is encouraged by the *diphs. in the Humanities* (hist., lit., econ., sociol., hist. of art, bibl. and relig. studies, internat. affairs, visual arts, archaeol., hist. of music) awarded to students who complete approved courses of study, usually covering 4 yrs., and pass annual exams. and by 3-yr. courses for the *cert. in transport studies*. Provision is made, where required, for post-dipl. study. Vacation courses and study tours at home and abroad are arranged. More than 30 week-end courses are held each yr. Work is carried on mainly by pt-time lectrs. There is a staff lectr. in phys. sci.: H. G. Frost, BSc.

(b) *Tutorial Classes* have been provided since 1909 in close co-operation with the W.E.A. The classes extend over 3 yrs., usually with a max. membership of 24 students. Sess. classes and advanced classes lasting one session are also provided. Summer schs. and week-end courses are held each yr. There are no exams, but all students undertake to do written work arranged with the tutor to suit individual needs. The subj. include archaeol., art, econ., hist., internat. relations, lit., music, philos., pol. and psychol. Work is carried on partly by pt-time tutors but also by staff tutors: G. Bush, MA DPhil Oxon.; D. Butt, BA Oxon.; J. P. Carruthers, MA Glas.; P. J. Cronan, BA Brst.; Blati Oxon.; E. M. Eppel, MA EdB Glas.; H. Fyfe, BSc(Econ); W. J. A. Harris, BA Wales, MSc(Econ); Mrs.

## GENERAL INFORMATION

The inst. was establd. as pt. of the post-war expansion of the Univ. of London and occupies premises near the Senate House. Its aim is to act as a focal point for legal res., to provide seminar classes for students reading for higher degrees in law at a sch. of the univ., and to build up a good working res. library in law. The inst. has collated particulars of legal res. undertaken in Britain and the Commonwealth, and is in a position to pass this information on to res. workers and other enquirers. An annual list of topics in progress is prepared.

Teaching at the inst. is undertaken by members of the law teaching staffs of colls. and schs. in the univ. with a fac. of laws, in addn to the dir. of the inst.

**LIBRARY.** Nearly 70,000 items. The inst. has acquired practically all U.K. law reports and statutes and basic works, particularly those of use for seminar purposes. Through continued purchases made possible by generous gift from the Nuffield Foundation, the Nuffield library of Commonwealth law is comprehensive except for India and Pakistan. The U.S. holdings include several sets of law reports, the main treatises of academic interest and over 100 U.S. law reviews received regularly, about two-thirds of which are not known to be taken elsewhere in Britain. Earlier vols. are being acquired whenever possible.

**FIRST DEGREE.** No courses provided for first degrees.

**ADMISSION.** Admission to the inst. may be granted, without fee, to teachers of law in univs. and univ. colls., both in the U.K. and overseas, and to teachers in other law schs. who are qualified to become members of the Soc. of Public Teachers of Law; to postgrad. students engaged on approved res.; to other univ. students attending

a class or seminar at the inst., and to other persons by permission of the dir. Persons who already hold a res. degree or have publd. the results of their researches, or have had considerable trig. or practical experience in the law, may be admitted to the use of the inst. either on payment of a fee, or without fee, if duly invited and willing to assist in the work of a seminar held at the inst.

Postgrad. students, whether reading for a degree or dipl. or not, must register at a coll. or sch. of the univ. with a fac. of laws (i.e. at King's Coll., Univ. Coll., L.S.E. or the Sch. of Oriental and African Studies). When so registered, they will become eligible, on the recommendation of their teachers, for admission to the inst.

## GENERAL INFORMATION

The objects of the inst. are to promote the advancement of the study of the classics; to provide opportunities for contacts between scholars in the classical field, both within the univ. and from other centres of learning at home and abroad; and to arrange facilities for advanced study and res. and for the trg. of postgrad. students in classics and cognate subjects.

The Hellenic and Roman socs. are associated with the inst. Both are housed in the same premises, and their libraries are complementary to each other. The combined library numbers 36,000 vols. (including over 200 current periodicals) and forms a first-class tool of classical res.

**FIRST DEGREE** No courses provided for first degrees

**ADMISSION** Free admission is granted to

teachers and postgrad. students of London Univ. and of univs. and univ. colls. in the U.K. and Commonwealth, and to sr. scholars from elsewhere by invitation.

The inst. has no students except those registered in other schs. of the univ., and teaching at the seminars is done by teachers in those schs.

**FEES** For teachers and postgrad. students from outside the Commonwealth the fees are 10s. for 3 mos., £1 for 6 mos., £2 for a yr.

**POSTGRADUATE AWARDS** open to grads. of other univs. see p. 910.

**PUBLICATIONS** *Prospectus* (free); *Annual Report*; *Bulletin* (annual, July, £1) incl. a register of advanced res. in progress, *Bulletin Suppléments* (various).

### GENERAL INFORMATION

The inst. was estab'd in 1949 to promote advanced study of the Commonwealth. Its field of interest is primarily, but not exclusively, that of the soc. scs. It encourages collaboration at postgrad. level between workers who are employing different techniques of res. in the study of Commonwealth problems. It provides a meeting-place both for postgrad. students and members of the academic staffs of univs and res. instns. in the U.K. and overseas countries of the Commonwealth. Seminars are held for advanced students during the univ. terms. Admission to them is on recommendation by supervisors of studies or at the discretion of the dir. Meetings on sp. topics are arranged during univ. terms for members of staff and other specially invited persons.

**LIBRARY.** Approx. 35,000 vols and papers. The library does not set out to compete with the great collections but selects material of sp. value for res. and postgrad. teaching. It places particular emphasis upon primary material relating to govt., econ. and soc. devel., race relns. and demography, and with this object it acquires official publcs., stats., guides to archives, etc., of the U.K. and other Commonwealth countries. It is also acquiring a good selection of secondary

works on the devel. of the Commonwealth during the past century. It subscribes to periodicals of significance for the study of the Commonwealth.

A strong biblig. section is being built up by the acquisition of bibligs., indexes to periodical lit., guides and indexes to official publcs. and parliamentary papers of the U.K. and Commonwealth countries, and similar aids to res. A biblig. of bibligs. in the library and a register of deposited theses in London and other U.K. univs. are maintained.

**ADMISSION.** The following persons may be admitted to the inst: grad. res. workers and members of the academic and sr. admin. staff of the Univ. of London and of other univs. and univ. colls. in the U.K. and Commonwealth, other persons approved by the dir. or cttee. of management. Forms of applcn. may be obtained from the asst. secretary.

**FIRST DEGREE.** No courses provided for first degrees.

**PUBLICATIONS.** The inst. publishes an *Annual Report* and a series of *Commonwealth Papers*, and issues a series of *Reprints*; a *Guide to Resources for Commonwealth Studies* and a *Union List of Commonwealth Newspapers* have also been publd.

### THE YEAR 1961

Persons admitted to the inst: 304 (106 univ. teachers, 120 students working for higher degrees, 78 others)

Univ. teachers, students and others from other

countries, 173. (Countries from which largest numbers came: U.S.A., 39; Nigeria, 25; India, 16; W. Indies, 14).

## GENERAL INFORMATION

London Day Training Coll. was founded by the L.C.C. in 1902 as an instn in connexion with the univ. working under the regns. of the bd of educn. for the trng. of teachers. The first principal (1902-22) was Prof. (later Sir) John Adams. From 1909 to 1932 the coll. was a sch. of the univ. in pedagogy, and as such was governed by a coll. council composed equally of reps. of the L.C.C. and of the senate. In 1932, as the result of an agreement between the bd of educn. the L.C.C. and the univ., the coll. was transferred to the educn. and financial control of the univ., and its title was changed to 'Univ. of London Institute of Education'. The inst. was administered as a 'central activity' of the univ. by a delegacy apptd. by the senate, and composed of reps. of that body, of the L.C.C. and of the teaching staff, together with certain co-opted members. In 1938 the inst. was transferred to the new bldg. on the Bloomsbury site provided by a sp. grant from the council to the univ.

In accordance with the recommendation of the McNair cttee. on the trng. of teachers and youth leaders, the Univ. of London Inst. of Educn. now comprises the 'central activity', two constituent depts. and 34 constituent colls. The inst. is the area trng. organization for the counties of E. Sussex, Essex (except Mid-Essex and N.E. Essex), Kent, London, Middlex., Surrey and the county boroughs of Brighton, Canterbury, Croydon, Eastbourne, E. Ham, Hastings, Southend and W. Ham. Its purpose is to advance the knowledge and practice of educn. by res., to encourage the univ. study of educn., and to improve, co-ordinate and extend the provision for the trng. of teachers within the area.

Students are trained under the Regns. for the Training of Teachers (H.M.S.O., Kingsway, London, W.C.2) for teaching in all types of sch. In addition to the 1-yr. initial profess. course the central inst. provides, for qualified teachers and others, a number of courses leading to dipl. and higher degrees.

Particulars of the courses provided in the constituent depts. and colls. may be obtained from the sec. of the inst.

**LIBRARY** The inst. library houses about 75,000 vols. and is an important centre of pedagogical res., with special collections on Commonwealth and comparative educn.; about 1000 periodicals are taken annually.

**FIRST DEGREE.** No courses provided for first degrees.

**HIGHER DEGREES** (of Univ. of London). At central inst. MA and PhD in educn.

**DIPLOMAS, CERTIFICATES, ASSOCIATESHIPS, ETC.** (at central inst.) 1 yr.—postgrad. cert. in educn., art teacher's cert., music teacher's cert., sp. overseas profess. cert. course, dipl. in child devel., course in educn. of children in the jr. sch., dipl. in the teaching of Engl. as a foreign lang., dipl. in the educn. of maladjusted children, dipl. in the teaching of educationally subnormal children, dipl. in religious educn., dipl. in the content & methods of health educn., dipl. in theory & practice of radio-visual aids, associateship of the inst., academic dipl. in educn. 2 yrs. (pt.-time evg. courses)—cert. in theory & practice of jr. sch., cert. in teaching of maths., cert. in teaching of sci., cert. in theory & practice of sec. sch., cert. in teaching of Engl.

**FEES** Annual tuition fees: 1-yr. courses, £75; music, £112.10s., 2-yr. evg. courses, £30 p.a.

**RESIDENCES.** College rooms: 12-15 and 35-37 Bedford Way, London, W.C.1, 16 Eadsleigh St., London, W.C.1, 35 Gower St., London, W.C.1, 25-26 Webster Square, London, W.C.1. Places available for 105 women and 69 men.

**PUBLICATIONS** *Handbook* (annual), *Annual Report*, *Yearbook of Education* (publd. by Evans Bros., Ltd., in assocn. with this inst. and Teachers Coll., Columbia Univ.) Obtainable from inst.: *Oversea Quarterly* and *African Women* (supplement), twice p.a.; *Community Development Bulletin*, once a quarter; *Studies & Reports*, Nos. 1-XIV; *Studies in Education*, Nos. 1-X; *Studies & Impressions*; *Handbook for Geography Teachers*, *Handbook for History Teachers*, *External Exams. in Secondary Schs.*
